MESSAGE: Order entered correctly.

Picture 7. Screenshot of receiving order for buying shares

If there's a wish to continue with the transaction, the buyer of shares is required to mark the box in front of "I hereby confirm that I am familiar with and fully accept the Articles of Association and Prospectus of the Fund" and select "Receive order". If the entered order is correct, a message will read "Entered order is correct." If the order entered is incorrect, the message will point out the kind of error. It is necessary to correct the error and continue the transaction of purchase. The option receive order ends the transaction of entering the order to purchase units in the fund. For the order to be executed, it is necessary to use the transaction for the authorization of the order.

After the first purchase of shares in the fund, the client's account in the fund is automatically opened. In the following transaction of purchasing shares, the display will show information about the account number, the value in foreign currency and EUR, and the new option of sale of shares bought in the "Submit the request" column. If shares are purchased in a fund with an existing account, the funds are added to the existing account. A new account is opened only when the existing shares of the Fund have been pledged.
