### WORD OF THE PRESIDENT OF THE MANAGEMENT BOARD

Having wrapped up another calendar and business year, I am exceptionally pleased to share that OTP banka Group continued to pursue its business goals through further development of its products and services, digital transformation and steady provision of top-notch services to all segments of our customers, which materialised in excellent business results. Our focus remains on ongoing advancement of sustainable financing and integration of ESG (environmental, social and governance) criteria into the overall operations of the Group, consistently striving for a positive impact on the local communities and the society wherever we do business.

Regardless of a significant progress in curbing of the inflation in both the eurozone and the Republic of Croatia, brought about by the restrictive monetary policy of the European Central Bank, the fight against inflation is far from over, as showcased by the growing inflationary pressure recorded at the end of the last year. The eurozone economy grew at relatively modest rates owing to high prices of energy-generating products, faltering competitiveness of its leading economies, and prominent geopolitical risks. In order to encourage an economic upturn, and mindful of releasing of the inflationary pressure, the European Central Bank already reacted by cutting down the reference interest rates throughout last year, confident that the inflation rate will return to the medium-term target of 2%. As for the Croatian economy, it pushed on with exceptional growth rates over the last year, exceeding the expectations and the economic performance of other eurozone members.

Our outstanding resilience and stability enabled us to make swift adjustments to the market changes and to the needs of our customers, prompting adequate responses in terms of customised products and services across all segments, whilst taking into consideration regulatory requirements and guidelines. Consequently, we have the numbers to show for our commitment to being the first-choice financial service provider for all our customers.

In 2024, OTP banka and OTP banka Group performed exceptionally well and recorded an increase in profit after tax by 13.1% and 12.7%, respectively, compared to the result of the previous year. In terms of total assets value, OTP banka maintained its fourth position on the Croatian banking market with a market share of 10.1%. In the key business segments, primarily in retail loans, stronger growth was achieved compared to the market, which is reflected in the growth of market shares.

This year we redefined our values that make the groundwork of our attitude towards business goals, colleagues, customers and community in general:

- Our client is always our focal point
- We take responsibility
- We support each other
- We have a positive impact on the community

We will not relinquish the aspirations that underline our business goals and strategies, and they include: being the first-choice bank of our customers in top digital solutions; reliable, simple and secure services; efficient and profitable organisation; genuine concern for our employees and inspiring work environment, and development of sustainable future through dependable solutions.

The agile organisation and operations expanded from two to five teams last year, and their focus is on innovations and digitalisation. We also witnessed a successful roll out of our new digital banking application that provides an option of taking a cash loan without setting a foot in the bank.

As already mentioned, we are committed to further development of sustainable financing and integration of ESG criteria into the overall operations. To this end, we have made quite a leap by transferring the Sustainable Development Department to the newly formed Transformation Division.

The main aim of the Transformation Division is to support the bank in its transformation process and fastest possible adjustment to changes that are necessary in order to implement bank's strategic priorities, while at the same time ensuring timely fulfillment of the ECB's regulatory requirements relating to the change in the bank's organization from a functional-based to a process (end-to-end) approach, and the full implementation of ESG criteria across all business segments.

Special thanks are due to all our employees whose work, knowledge and dedication ensure that every goal is achieved. We put a great effort into continuous evolution of our work environment and conditions so as to provide best possible work-life balance for our employees. I am very pleased to remind of the new two-year Collective Bargaining Agreement, which lays down even more benefits for our employees.

## WORD OF THE PRESIDENT OF THE MANAGEMENT BOARD (CONTINUED)

We are recognised as a valuable partner by the communities in which we operate, as our contribution reflects not only in our investments but also in the work of our Volunteer Club. Bank's volunteer and charity work has been recognised by the Zagreb Volunteers' Centre, and they decided to award the Bank the 2024 Volunteer Oscar in the business sector category, pointing out to our social corporate responsibility evident in our innovative and long-standing volunteering initiatives.

Upholding another tradition that started back in 2020, we continued showcasing our social responsibility in 2024 through our OTP RoundUp scheme, where we joined forces with our clients to donate to children's wards in hospitals nationwide. We are especially proud of our scholarship programme intended for students without proper parental care, which we rolled out with support of children's homes from all parts of Croatia.

We are delighted that a number of renowned institutions recognised our efforts to reach business excellence and develop responsible and sustainable operations. Thus, we were presented two of the prestigious Euromoney Awards for Excellence: Best Bank for SMEs, and Best Bank for Corporate Responsibility, which means that bank's commitment to providing tailor-made financial solutions and support to the growth and development of SMEs, as well as its exceptional efforts in promoting corporate responsibility and sustainability, have been recognised.

Once again, for the 10th time, OTP banka was selected as the best sub-custodian bank in Croatia by the Global Finance magazine, which goes to show that the continuity and excellence in custody operations do not go unnoticed by our clients and expert circles alike.

The renowned financial magazine Global Finance named OTP banka the best bank in Croatia, and OTP Group once again the best financial group in Central and Eastern Europe in 2024.

Our plans for 2025 are aligned with forecasts for the macroeconomic indicators and defined strategic guidelines. The expectations for the retail banking segment include a modest growth of the market share in housing and general-purpose loans. We will remain focused on better customer experience, enhancing of our credit products by increasing their availability through digital channels, and further digital transformation across the board. As for the corporate segment, we anticipate a moderate market growth primarily driven by a positive momentum in service economy and construction sector, and by investment in renewable energy sources and energy efficiency. With this in mind, we will strive to retain our market share by focusing on strong and wholesome connections with our customers. OTP banka Group closely monitors the international and the domestic economic trends, always primed to adapt to new operating conditions, potential macroeconomic perturbations, technological developments and shifts in behavioural patterns of our customers. Giving due consideration to their increasing impact on the resilience and growth of our brand, we see great potential in the sustainable transition and development of responsible and sustainable operations. We believe that 2025 will present great business opportunities and that we will be ready to take them, whilst our formidable stability and capital strength will make us a reliable partner to the Croatian economy and citizens.

On behalf of the Management Board of OTP banka, I would like to extend thanks to all our employees, customers and partners for their trust and cooperation, and voice my firm belief that together we can work towards a sustainable future.

Balazs Pál Békeffy  
President of the Management Board

## GENERAL INFORMATION

### CORPORATE GOVERNANCE CODE

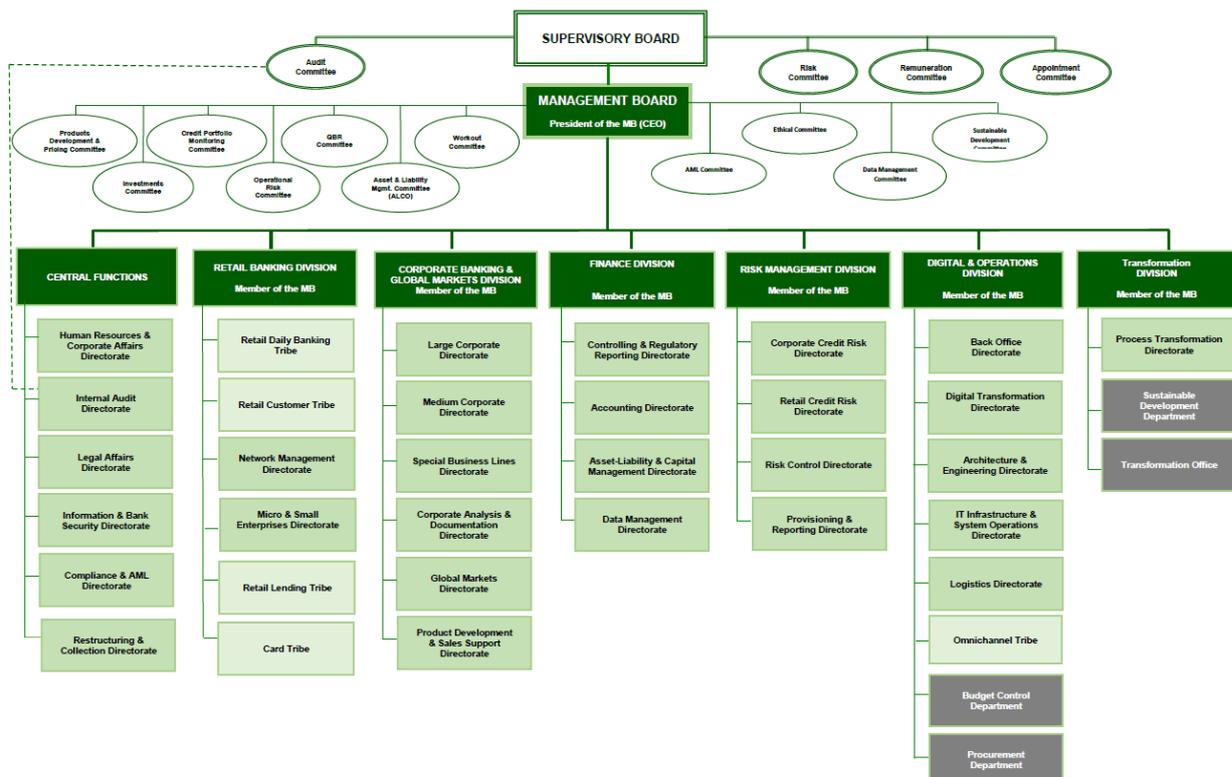

Bank as a credit institution is well aware of the importance of a responsible and ethics-based conduct of corporate entities as an essential prerequisite for developing high-quality relations and loyal competition between business partners as well as for efficient functioning of the market. So, the Bank is developing its business activities and acting in accordance with the good corporate management practice and is trying, by way of its business strategy, business policy, key internal acts and business practice, to contribute to transparent and efficient business activities and better-quality relations with its business environment.

Bank's adequate corporate management includes:

- clear organisational structure with well defined authorisations and responsibilities;
- efficient activities for establishing, measuring and monitoring of the risks the Bank is or may be exposed to as well as related reporting activities;
- adequate internal controls mechanisms which also involve prudent administrative and accounting procedures, the strategies and the procedures for a constant assessment and review of the figures, the structure and the distribution of the internal capital required as coverage for current and future risks;
- fulfilment of general transparency requirements
- meeting the obligations and the responsibilities towards the shareholders, the employees and other interested parties;
- safe and stable business activities in accordance with law and regulations

The Corporate Governance Code is published on the Bank's official website and is available at the following link: [https://www.otpbanka.hr/sites/default/files/doc/Kodeksa%20korporativnog%20upravljanja\\_HRV\\_2024.pdf](https://www.otpbanka.hr/sites/default/files/doc/Kodeksa%20korporativnog%20upravljanja_HRV_2024.pdf)

### ORGANIZATION STRUCTURE OF THE BANK

## GENERAL INFORMATION (CONTINUED)

### BUSINESS NETWORK

The bank operates with clients in 6 operating centers through 104 branches and 445 ATMs. In the last few years, the Bank has been optimizing its network of branches, however, it has maintained its presence in all areas of Croatia with the aim of providing quality and timely service to its clients. Also, in order to raise the level of service quality, the Bank is focused on the remodelling of branches, which from branches focused on transactional business have become comfortable zones for consulting clients focused on building long-term relationships with clients. In addition to the remodelling of branches, free Wi-Fi and internal radio stations are installed, as well as digital info kiosks with all important information for clients, and the children's corners.

In addition, in accordance with socially responsible business operations, in 2023 the Bank started equipping its branches with an inductive loop, a device that enables easier communication with hearing impaired people, and the first coin machines - devices for paying coins at ATMs - were installed. Also the contactless function was introduced at 210 ATMs in the network.

In the branches, individual person clients can contract all products, and in a large number of locations, the branches also provide services for business clients.

#### Branch network:

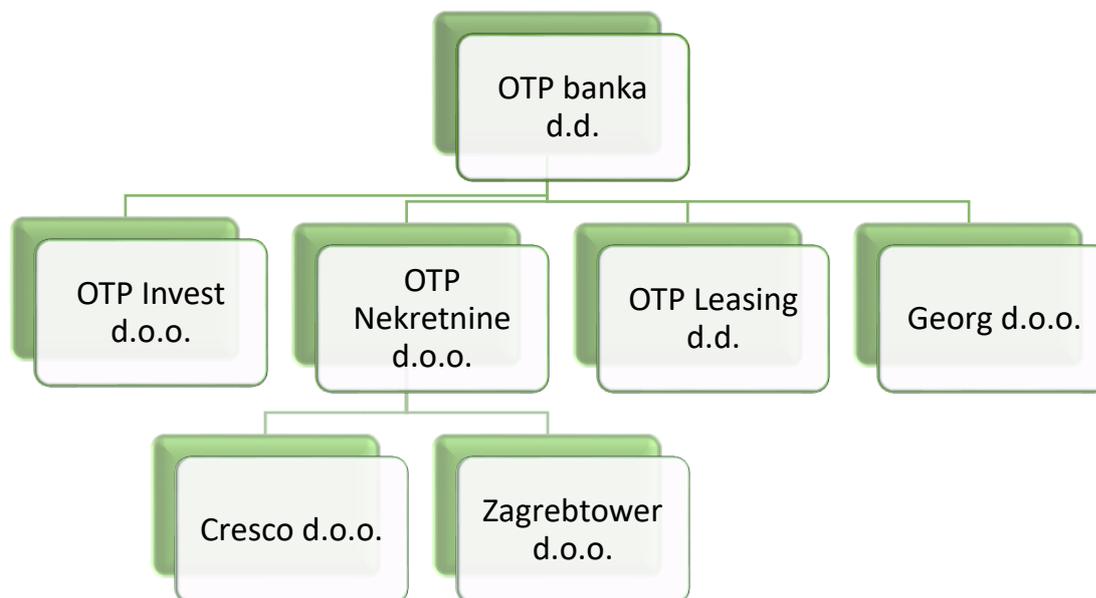

## GENERAL INFORMATION (CONTINUED)

### GROUP OF OTP BANKA D.D. IN CROATIA

As of December 31, 2024, the Group OTP bank consists of OTP bank as the parent company and the following wholly or majority-owned subsidiaries of the Bank: OTP Nekretnine d.o.o., Cresco d.o.o., Zagrebtower d.o.o., OTP Invest d.o.o., OTP Leasing d.d. and Georg d.o.o.

In March 2024, OTP Nekretnine d.o.o. concluded an agreement for the purchase and sale of business shares in Zagrebtower d.o.o. After obtaining approval from the regulator CNB, the purchase and sale transaction was realized on August 28, 2024, by which OTP Nekretnine d.o.o. acquired a 100% share in Zagrebtower d.o.o. In August 2024, the bank entered into an Agreement on the transfer of business shares in the company OTP Invest društvo za upravljanje fondovima d.o.o. The sale of the entire business shares of the Bank in the company was realized after obtaining the approval from HANFA by payment of the purchase price on January 31, 2025.

In cooperation with subsidiaries, the Bank develops and provides all groups of services and products that can support banking operations with individuals and legal entities.

The subsidiaries directly owned by the Bank are as follows:

|  | Headquarter | Percentage of ownership | Industry   |
|--|-------------|-------------------------|--|
| OTP Nekretnine d.o.o.                              | Zagreb      | 100%                    | Organization of project implementation for buildings |
| OTP invest društvo za upravljanje fondovima d.o.o. | Zagreb      | 81.7%                   | Fund management activities                           |
| OTP Leasing d.d.                                   | Zagreb      | 60%                     | Finance and operating lease                          |
| Georg d.o.o.                                       | Zagreb      | 76%                     | Business and other management consultancy activities |

## GENERAL INFORMATION (CONTINUED)

### GROUP OF OTP BANKA D.D. IN CROATIA (CONTINUED)

#### *OTP Leasing d.d.*

OTP Leasing d.d. was established in Zagreb by Merkantil Bank Zrt, Hungary, which specialises in lease operations within OTP Group, in 2006. Having initially owned 10% of the shares in the company, in 2019 OTP banka concluded the Share Sale and Assignment Agreement concluded in September 2018, and thus became the majority owner of the company holding 60% of the shares. Merkantil Bank Zrt remained the owner of 40% of the Company's shares.

The main activity of the company are financial and operating lease and activities directly or indirectly related to leasing transactions.

The company has a wide sales network with branches in Zadar, Split, Pula, Rijeka, Zagreb, Varaždin, Slavonski Brod, Osijek and Dubrovnik. Any lease arrangements can be concluded also in the OTP banka branch network, which greatly contributes to the level of availability of the services nationwide.

On 1 July 2022, SB Leasing d.o.o. (founded in 2007) was merged to OTP Leasing d.d., whose business shares (100%) were acquired by the Company through an agreement on the transfer of business shares from Splitska banka d.d. in June 2018, and its activity is financial and operational leasing.

In 2024, at the end of the fourth quarter, the Company was in second place in the industry in terms of the number of newly concluded contracts, which by value represents 17.3% of the market share.

The company's assets in 2024 amount to EUR 606 million, which represents a growth of 16.5%. The Company's net profit is 6,094 thousand euros (2023: 5,505 thousand) and is 10.7% higher compared to 2023. Total net income from interest and fees and income from operations in 2024 amounted to EUR 22.5 million and represent an increase of 20.7% compared to 2023, with 62.7% being net interest income.

#### **Plans for 2025**

In the projections of the leasing market for the year 2025, a growth of 10% compared to the year 2024 is planned.

In accordance with strategic guidelines, the Company is focused on all segments of clients (legal entities, public sector, artisans, individuals), and financing of all types of leasing facilities (except real estate) in all regions and through various sales channels.

As part of the Group OTP bank, special attention of the company will be the adaptation of business activity to relevant European standards, with special emphasis on ESG regulations and the implementation and promotion of social responsibility in all its aspects.

#### **Risk management**

Risk management protects the value and profit in accordance with the strategy and objectives. Depending on the approach applied, different instruments are used for enforcing risk management. In order to establish an adequate risk management process, risk policies, guidelines and procedures are adopted and a framework i.e. methodology for risk management is established. In this way, the Company defines the risks to which it is exposed to and, by using certain methods and processes, analyses all types of risks, measures and mitigates existing risks, and manages and controls those risks more effectively.

The most significant risks to which the company is exposed to are: market risk, liquidity risk and credit risk.

Market risk includes interest rate risk and price risk, while currency risk is minimized by the introduction of the euro as the official currency from 1 January 2023 and a small portion of the portfolio in Swiss francs. As of the reporting date, the company was not exposed to price risk because it has no investments in listed equity securities or investment funds.

## GENERAL INFORMATION (CONTINUED)

### GROUP OF OTP BANKA D.D. IN CROATIA (CONTINUED)

#### *OTP Leasing d.d. (continued)*

#### **Risk management (continued)**

Interest rate risk represents the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

In view of the fact that interest rate changes are allowed in lease contracts, the company reduces the gap by regular adjustments of interest rates in accordance with periodic changes in interest rates on financing sources.

Liquidity risk is the risk that a company assumes when it does not have adequate funding to meet all payment obligations.

In order to manage liquidity risk, the company undertakes the following activities:

- planning of expected and possible cash outflows and sufficient cash inflows to cover them (projection of cash flows on a daily, weekly, monthly, quarterly and annual basis),
- continuous monitoring of liquidity,
- preventing or eliminating potential causes of illiquidity

Credit risk is the risk of failure of a counterparty to settle its liabilities under a financial instrument, which may cause loss for the other party. The company is exposed to credit risk from activities regarding financial and operating leases, i.e. claims from its lessees. Credit risk is managed by monitoring the concentration per individual clients, regions and economic sectors.

#### ***OTP invest društvo za upravljanje fondovima d.o.o.***

OTP Invest d.o.o. was established in 1997 in Zagreb, and is presently owned by OTP banka (81.7%) and OTP Alapkezelő Zártkörűen Működő Részvénytársaság, Hungary (18.3%).

The basic activity of the company is founding and management of UCITS funds.

The open investment UCITS funds managed by the Company are OTP start Fund, OTP ABSOLUTE Fund, OTP Balanced Fund, OTP MERIDIAN 20 Fund, OTP INDEKSNI Fund, OTP MULTI USD 2 Fund, OTP MULTI EUR 2025 fund te OTP MULTI EUR 2025 II fund and OTP MULTI EUR 2026 fund.

In June 2024, the Company established a new fund, the OTP MULTI EUR 2026 fund, which attracted additional investors, which had an impact on increasing the Company's income in 2024. The company achieved a significant increase in total assets under management as a result of sales campaigns on the occasion of the establishment of the OTP MULTI EUR 2026 fund, additional campaigns for the sale of shares of other funds under management and under the influence of positive market trends.

The Company's market share at the end of 2024 was 6.0% (6.7% at the end of 2023).

#### **Plans for 2025**

In 2025, the Company plans to preserve the assets of funds that mature during the year, and through the branches of OTP banka d.d., which is the main distribution channel for funds managed by the Company, to market new funds with maturity. For this reason, it is planned to complete the existing ones and introduce new IT improvements that will enable easier distribution of funds through digital channels (web, m-banking, etc.). The launch of three new maturity funds is also planned, as a replacement for the funds maturing in 2025.

Sales activities in 2025 will be focused on the sale of mixed and share funds managed by the Company. One part of the sale will be related to the sale of combined products, deposits with investment in mixed funds and/or short-term bond funds, and in accordance with the risk profile of investors. On the other hand, throughout the year, investment in funds will be offered through a standing order in order to affirm regular investment among younger clients.

## GENERAL INFORMATION (CONTINUED)

### GROUP OF OTP BANKA D.D. IN CROATIA (CONTINUED)

#### *OTP invest društvo za upravljanje fondovima d.o.o. (continued)*

##### **Risk management**

The company pays due attention to risk management. The most significant types of financial risks the company is exposed to extend to credit risk, liquidity risk and market risk.

Market risk includes exchange rate risk, interest rate risk and price risk. At the date of the balance sheet the company did not have a significant exposure to foreign exchange risk and interest rate. As of the balance sheet date, the company was not significantly exposed to price risk arising from changes in the prices of financial instruments or changes in currency. However, the Company is exposed to changes in the prices of goods and services it uses from its suppliers, as well as inflation in 2024 and expectations of inflation in 2025.

At the balance sheet date, the Company's credit risk arises from its exposure to the Bank which is the majority owner of the Company, on the basis of funds held in its transaction accounts and also very insignificant part from the funds held in accounts with other banks.

Liquidity risk is the risk that the Company will encounter difficulties in finding funds to settle its due obligations. The Company's short-term assets on the balance sheet date are greater than the Company's short-term liabilities and, according to the Company's assessment, there is no risk that the Company will be unable to meet its short-term liabilities.

#### **OTP Nekretnine d.o.o.**

The company OTP Nekretnine d.o.o. was founded in Zadar in 2000, and is fully owned by the OTP banka d.d. The basic activities include rental and real estate management, appraisal of real properties and chattels, real estate agency services, development projects and consultancy services. The company operates through its two branches (Zagreb and Zadar).

The company is a sole owner of Cresco d.o.o., founded in 2008 and Zagrebtower d.o.o. which has been acquired in 2024. The main activity of Cresco d.o.o. are the acquisition of real estate at auctions organised as a part of enforcement and bankruptcy, sale of such properties, and real estate agency services, while Zagrebtower d.o.o. engages in the rental of properties it owns.

Consolidated profit of OTP Nekretnine d.o.o. for 2024 amounted to EUR 0.7 million.

The difference between the plan and the realization in 2024 is the result of the purchase of Zagrebtower d.o.o., due to which there was an increase in rental income, but also in interest costs, which ultimately resulted in a slightly higher profit than planned.

In June 2024, the Bank recapitalized the company OTP Nekretnine d.o.o. in the amount of EUR 5,150,000.00 by cash payment, after which the company's share capital amounts to EUR 39,635,100.00. The share capital increase was registered in the Court Register on June 7, 2024 (decision number Tt-24/23521-2).

#### **Plans for 2025**

On January 31, 2025, the assembly of the companies OTP Nekretnine d.o.o. and Zagrebtower d.o.o. made a decision to merge Zagrebtower d.o.o. to the company OTP Nekretnine d.o.o. and confirmed the Merger Agreement. The merger was carried out by the Decision of the Commercial Court in Zagreb on February 28, 2025. In 2025, a stable continuation of the operations of OTP Nekretnine and Cresco is expected.

Continuously investing in the quality of service, in all segments of services provided by the Companies, in 2025 OTP Nekretnine plans to continue with already started investments which will result in an increase in rental income in the coming years.

For Cresco d.o.o. 2025 will also be a year of investment both in the real estate RB 25 that was purchased in 2023, and for which remodeling and leasing is planned during 2025, as well as investment in new portfolio given that the current stock of acquired properties for sale has been significantly reduced.

## **GENERAL INFORMATION (CONTINUED)**

### **GROUP OF OTP BANKA D.D. IN CROATIA (CONTINUED)**

#### ***OTP Nekretnine d.o.o. (continued)***

##### **Risk management**

The company pays due attention to risk management. Credit risk is the most significant type of risk to which the company is exposed.

Credit risk is the risk of failure of a counterparty to meet its liabilities under a financial instrument, which may cause loss for the other party. The company is exposed to credit risk arising from the claims from its leasees.

Credit risk is managed by having one keep track of concentration by individual customers, regions and economic sectors. The structure of the leasees in terms of the size of the leased out space is mixed and well balanced. Large companies, IT companies and law firms account for the half of the total leased out space, whereas the other half is rented out by the companies that individually occupy less space, which in turn minimises the risk and optimises revenue in stable market circumstances.

#### ***Georg d.o.o.***

Georg d.o.o. is a company founded in Zagreb in 1992. The Bank became the majority owner when it bought the controlling interest of 76% in 2021.

The basic activities of the Company are advisory services regarding grants awarded by the European Union. The company provides services to small and medium-sized enterprises mainly in the sectors of agriculture and food industry, but also to all other sectors.

The year 2024 was one of the most challenging years in the Company's operations since 2016. In addition to the poorer dynamics of tenders for state administration bodies, primarily Agency for payments in agriculture, fishery and rural development (APPRRR), the processing of applications also slowed down, and in 2024 the decisions from the APPRRR were not expected. Nevertheless, in the coming years, it is expected a better dynamics of Tenders by state administration bodies due to the instructions of the European Commission that the total planned allocation for each Intervention should be evenly distributed over the years of the program period.

Due to all of the above, the Company operated with a loss of 150 thousand euros in 2024.

#### **Plans for 2025**

In 2025, additional work will be done on the visibility of the Company within the OTP Group in Croatia, by writing articles for the internal publication OTP Portal, creating summaries of tenders and public invitations that we will distribute to key stakeholders within the Group with the aim of acquiring new and activating existing clients.

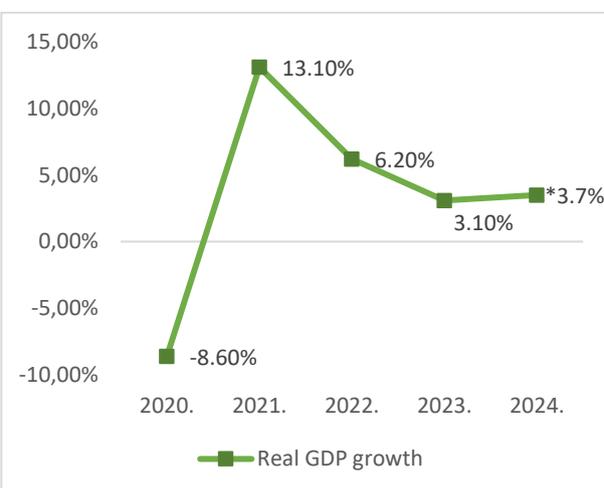

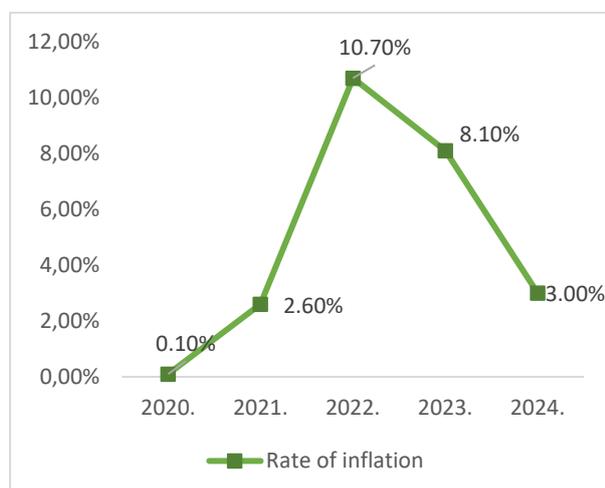

## MACROECONOMIC INDICATORS FOR THE REPUBLIC OF CROATIA

The economy of the Republic of Croatia has continued to demonstrate a remarkable level of economic activity, achieving notable growth rates in 2024. Data from the Central Bureau of Statistics indicate that the Croatian economy expanded by 3.7% in the fourth quarter of 2024 on an annual basis, representing a continuous growth trend for sixteen quarters. All categories of gross domestic product (GDP) experienced increases, including personal consumption, investments, and government spending. In comparison to the eurozone average, it is evident that the annual growth of the Republic of Croatia's economy is remarkable, particularly as the eurozone's economic growth according to the data of EUROSTAT was only 0.9% in the last quarter of 2024 relative to the same period in the previous year. As per the latest macroeconomic forecasts provided by the Croatian National Bank (CNB) in December 2024, the GDP of the Republic of Croatia is anticipated to increase by 3.7% in 2024. This growth is expected to moderate in the following years, with projections of 3.3% in 2025 and 3% in 2026. The European Commission's projections from September 2024 indicate a comparable trend in GDP growth for the Republic of Croatia, anticipating an increase of 3.6% in 2024, followed by 3.3% in 2025, and 2.9% in 2026.

Since the start of 2024, inflationary pressures in the Republic of Croatia have shown a consistent decline, although a rise in the inflation rate was noted towards the end of the year. In January, the annual inflation rate, as indicated by the harmonized index of consumer prices, stood at 5%, compared to 4.5% in December. The lowest annual inflation rate was recorded in August, reaching 3%. The average inflation rate for the Republic of Croatia throughout 2024 was 4%, which is less than half of the average inflation rate of 8.4% observed in 2023. The average inflation rate is anticipated to reach 3.5% in 2025, with a further decline to 3% projected for 2026, as per the CNB forecasts from December 2024. This deceleration in inflation is expected to be primarily driven by a reduction in price pressures in the areas of services and food products. However, ongoing inflationary pressures are likely to persist, particularly concerning energy products, partly due to the anticipated hikes in gas and electricity prices in the Republic of Croatia. The risks contributing to a potential rise in inflation rates in the near future are mainly linked to geopolitical tensions. In addition, robust wage growth could stimulate increased demand for goods and services. On the other hand, the risk that might cause the inflation rate to fall below projections include slower-than-expected economic growth, a significant decline in raw material prices on the international market, and the more pronounced effects of restrictive monetary policy.

| Growth rates (%)             | 2024  | 2023 | 2022 | 2021 | 2020  |
|------------------------------|-------|------|------|------|-------|

\* Parent company's projections

## MACROECONOMIC INDICATORS FOR THE REPUBLIC OF CROATIA (CONTINUED)

The labour market exhibited remarkable strength throughout 2024, characterised by significant employment growth and a reduction in the unemployment rate. By January 2025, the registered unemployment rate stood at 6.8%, a decrease from 5.1% at the close of 2024. The lowest unemployment rate during this period was noted in September, reaching just 4.6%. Concurrently, the number of unemployed individuals fell from 119,720 to 91,563, representing a decline of 28,157 persons. According to the Central Bureau of Statistics, the average monthly net salary for employees in legal entities within the Republic of Croatia increased nominally by 14.9% and in real terms by 11.7% from January to November 2024. Projections for 2025 suggest that employment growth will persist, along with increases in both nominal and real wages, though at a significantly slower pace than observed in 2024.

The public finances of the Republic of Croatia have maintained a strong focus on fostering economic growth, enhancing social benefits, and reducing the public debt-to-GDP ratio. A budget proposal for 2025 was adopted at the end of 2024, projecting an economic growth rate of 3.2%. This proposal forecasts a budget deficit of 2.3% of GDP, primarily attributed to salary adjustments within the public sector, representing a significant increase from the deficit of 0.9% of GDP recorded at the end of 2023. In addition, throughout 2024, the Republic of Croatia has continued to actively withdraw EU funds to ensure robust economic growth, mainly through the Recovery and Resilience Mechanism. The European Commission's forecasts indicate that the budget deficit is projected to rise to 2.1% of GDP by 2025. Meanwhile, the public debt-to-GDP ratio has shown a continuation of previous positive trends. As of the end of September 2024, public debt was recorded at 59.7% of GDP, reflecting a reduction of 3.6 percentage points from 63.3% at the end of September 2023. Additionally, there was a decline of 0.4 percentage points in the public debt-to-GDP ratio compared to the conclusion of the second quarter of 2024. Leading credit agencies report that this downward trend in the public debt-to-GDP ratio is anticipated to persist, with Moody's notably suggesting that, barring any external shocks, public debt may fall below 50% of GDP by early 2030.

In 2024, all three major credit agencies elevated the long-term credit rating of the Republic of Croatia to an A level, which is regarded as indicative of above-average credit quality. Additionally, they maintained a positive outlook. In their respective reports, the agencies highlighted the robust fiscal position of the Republic of Croatia, particularly in relation to the reduction of the public debt-to-GDP ratio, vigorous economic growth bolstered by the utilization of EU funds, and a strong commitment to the implementation of reforms and investments.

In the context of monetary policy within the eurozone, the European Central Bank (ECB) continued to pursue a restrictive approach in 2024, focusing on stabilizing the overall price level and bringing the inflation rate nearer to the medium-term target of 2%. Even with four reductions in reference interest rates, each by 25 basis points, the monetary policy conditions are still characterized as restrictive. Moreover, at the meeting in September 2024, the ECB reaffirmed its previous decision from March to narrow the spread between reference interest rates, thereby enhancing the efficiency of its monetary policy implementation. The new spread between the deposit rate and the refinancing rate stands at 0.15 percentage points, a decrease from the previous 0.50 percentage points. Meanwhile, the spread between the refinancing rate and the rate on overnight borrowing secured by eligible financial collateral remains unchanged at 0.25 percentage points. At the latest ECB meeting in January 2025, a decision was made to lower the reference interest rates by 25 basis points, bringing the deposit rate down to 2.75%. Market analysts anticipate that the ECB may implement further reductions in reference interest rates in the first half of 2025, contingent upon the evolution of inflation and the economic growth prospects within the Eurozone.

According to the CNB, the total assets held by credit institutions reached EUR 84.2 billion at the end of December 2024, reflecting a growth of 7.1% in comparison to the end of 2023. The total amount of loans rose by EUR 4 billion, representing an increase of 6.1% compared to the previous year. There was a decline of 4.2% in non-performing loans and advances.

Throughout 2024, credit institutions generated a total profit after taxation of EUR 1.2 billion, demonstrating a positive trend in overall profitability. The average return on assets (ROA) was 1.9%, and the return on equity (ROE) was 16.4%.

The capitalization of the banking sector was maintained at very high levels during 2024, so at the end of December 2024, the rate of total capital of the banking system stood at 23.8%, with all credit institutions exceeding the minimum prescribed rate of 8.0%.

The liquidity of the banking system measured by the liquidity coverage ratio (LCR) was 230.9% at the end of September 2024, with all credit institutions meeting the minimum prescribed liquidity requirements.

| <b>Capital</b>                                 | <b>1,120.0</b> | <b>1,026.4</b> | <b>9.1%</b>  | <b>1,077.8</b> | <b>990.0</b>   | <b>8.9%</b> |
| <b>TOTAL LIABILITIES AND CAPITAL</b>           | <b>9,155.4</b> | <b>8,525.1</b> | <b>7.4%</b>  | <b>8,535.4</b> | <b>8,025.4</b> | <b>6.4%</b> |

**Total assets** of OTP banka at 2024 year-end equalled EUR 8,535.4 million, which was an increase of 6.4% compared to 2023 year-end (for OTP Group the increase was 7.4%). For the main part, this increase in assets derived from an increase in liabilities towards customers by EUR 302.7 million, that is, 4.8%.

OTP banka's **cash and balances** with the Croatian National Bank dropped from EUR 1,607.5 million to EUR 1,126.9 million in 2024, thus reducing the share of this position in the total assets of OTP banka to 13.2% compared to 20.0% in 2023. Lower balances held in the accounts with the Central Bank reflected a slower growth of deposits in 2024, combined with a rise of loans extended to customers and investments into securities.

OTP banka's **financial assets** in the form of securities grew from EUR 876.7 million in 2023 to EUR 1,179.2 million at 2024 year-end. Hence, the share of this position in the total assets of OTP banka grew from 10.9% in 2023 to 13.8% in the year contemplated herein.

In 2024, **financial assets measured at amortised cost** at the level of OTP banka grew by 12.6% (and at OTP Group level by 12.8%) compared to the year before. In the segment of loans extended to bank's customers, a notable growth is seen in retail banking, primarily on account of cash loans that were in high demand as a part and parcel of rising demand for consumer credit. A considerable growth was seen in the segment of housing loans despite lack of state subsidies (via the scheme of the Agency for Transactions and Mediation in Immovable Properties) in 2024, whilst the growth of loans advanced to corporate customers and to the government was more subtle. At the level of OTP Group, the growth was additionally accelerated owing to intensive activities of OTP Leasing.

In terms of **other assets**, OTP banka recorded a growth of EUR 18.8 million. Observing the whole OTP Group, this position recorded a leap of as much as EUR 63.8 million as a result of investment into real estate, namely, the acquisition of Zagrebtower d.o.o.

In 2024, **financial liabilities measured at amortised cost** at the level of OTP banka grew by 5.9% (and at the Group level by 7.1%). The major portion of such growth in the bank accounted for the liabilities towards customers, which grew by 4.8%, although their share in the total costs of the sources of funding dropped from 78.2% to 77.1% in the observed year. Retail deposits still make the prevailing share of this position, accounting for as much as 68.0% of the total deposits held by the customers. However, despite outstanding results of the peak tourist season, economic recovery and growth, even a nominal wage growth, the expansion of retail deposits was subdued and the primary reason lied in the more appealing investment option – government bonds. The outflow of retail deposits was offset - to a certain extent - by a more active positioning in the segment of corporate deposits.

**Other borrowed funds** grew by 20.6% on the level of OTP banka, and by 21.6% on the level of OTP Group. Such rise of the borrowed funds was primarily driven by the regulatory requirements, which increased the liabilities towards the financial institutions. Liabilities in respect of on-lending of the funds from the Croatian Bank for Reconstruction and Development (HBOR) were also higher in 2024, whilst on the OTP Group level there was an increase of liabilities towards OTP Financing Malta, generated by a greater volume of business activities of OTP Leasing.

OTP banka's **capital** rose by EUR 87.8 million, which translated to 8.9%, whilst at the OTP Group level this position increased by EUR 93.8 million, which translated to 9.1%.

## FINANCIAL OVERVIEW OF BUSINESS OPERATIONS OF THE GROUP AND BANK FOR THE YEAR 2024 (CONTINUED)

### Financial Result Analysis

| in million EUR                                | Group        |              |              | Bank         |              |              |

| Income tax                                    | -35.1        | -30.8        | 14.0%        | -33.7        | -29.6        | 13.9%        |
| <b>Profit for the year</b>                    | <b>158.3</b> | <b>140.4</b> | <b>12.7%</b> | <b>152.4</b> | <b>134.8</b> | <b>13.1%</b> |
| Return on equity (ROE)                        | 14.8%        | 14.2%        | +56 bp       | 14.7%        | 14.1%        | +62 bp       |
| Cost to income ratio (C/I)                    | 47.9%        | 46.9%        | +100 bp      | 45.6%        | 44.7%        | +90 bp       |

**Net operating income** of OTP banka in 2024 amounted to EUR 333.0 million, which was an increase of EUR 21.7 million or by 7.0% in relation to the year 2023, whilst OTP Group grew by 8.5% or EUR 28.3 million.

The main driver of this surge of the net operating income in 2024 was **the net interest income**, as OTP banka had the net interest income of EUR 249.0 million, and thus exceeded the figures of the previous year by EUR 25.0 million or 11.2%, whilst OTP Group grew by 12.0% in this segment. As concerns the net interest income in retail operations, its upward trajectory stemmed from larger loan portfolio where, in addition to housing loans, the cash loan portfolio gained importance. The cash loan portfolio growth was caused by an increased demand for this type of product in the market. As for interest expenses, the upward change was not so prominent given that, despite higher interest paid on them, retail deposits still grew at a slower pace than the loans, which was caused by alternative investment options available to retail customers in the form of government securities. The recorded growth of the net interest income in the corporate banking segment was mainly caused by higher interest charged on the extended loans, and as a consequence of higher average reference rates in the market, whilst the rise of the volume of the extended loans was slower. As for the interest expenses in the corporate banking segment in 2024, they were higher on account of both: higher average volumes and higher interest rates. The segment of financial assets and liabilities management recorded a growth of the net interest income as an effect of higher average reference market rates. OTP Leasing also reported a growth of the net interest income due to thriving business activities.

**Net fee and commission income** of OTP banka in 2024 totalled EUR 71.6 million, which represented an increase of EUR 6.0 million, or by 9.1% compared to 2023. When it comes to OTP Group, the same position saw an increase of 8.9%. The growth was largely caused by inflation and was recorded in both key segments: retail and corporate banking, and it was most evident in the items such as income from domestic payments, commissions paid by merchants for card business, and fees and commissions for card operations.

The reason for lower income within the **net trading and other income** of OTP banka was the lack of income from dividends payable by the Group members in the observed year, unlike in 2023. The lower income of OTP Group in 2024 was caused, to a certain extent, by the lack of one-off gains from the sale of tangible assets that took place in 2023.

**Operating costs** of OTP banka increased by 9.0% in 2024 compared to 2023, and on the OTP Group level they increased by 10.8%. The key driver of this change were the personnel costs, which swelled in an attempt to remain an appealing employer and to keep our employees satisfied. The other costs that recorded an increase in the observed year were the costs of marketing and the costs of professional services, given that their respective prices surged on account of the inflation.

Both OTP banka and OTP Group recorded a **net gain from impairment and provisions**, resulting from release of impairment charges for loans and receivables from customers that was brought about by relatively favourable economic trends. The overall positive result was discounted by additional provisions for court cases, business optimization.

Thus, OTP banka's **profit for the period** of OTP banka in 2024 grew by 13.1% to reach EUR 152.4 million, (OTP Group recorded a growth of 12.7%), whereas the return on equity grew by 62 basis points and reached 14.7% (OTP Group grew by 56 basis points and reached ROE of 14.8%), continuing the trend of outstanding business results.

## ESG AND CORPORATE SOCIAL RESPONSIBILITY OF THE GROUP AND BANK FOR 2024

### Strategic approach and ESG management

The Group has been an active supporter of corporate social responsibility and sustainability. We consider social and environmental impacts, as well as the influence on the economic development of the communities in which the Bank operates and society in general, part of our mission. As a financial group, Group OTP bank is committed to development of sustainable financing, as well as development of products and services that contribute to social values, as well as to preservation of climate and environment; its governance is based on ethics, with transparent reporting on business operations and impacts.

After a special ESG programme for the year 2021, the Bank continued building a robust sustainable development framework in the years that followed. To that end, it established a separate Sustainable Development Committee at the highest management level, whilst the Sustainable Development Department was established within the Human Resources & Corporate Affairs Directorate, Central Functions. Taking into account the growing significance of ESG, and the fact that the implementation of ESG across Bank's and the Group's operations implies their thorough transformation, an adequate infrastructure is being put in place that will enable a multi-directional and capillary coordination of ESG factors in business operations. To facilitate the achievement of the mentioned objectives and tasks in the time to come, the Bank undertook some organisational changes whereby the Sustainable Development Department was transferred to the newly-established Transformation Division and thus became a point of convergence for management and coordination of the strategic objectives and sustainability processes at the level of the entire Group, which entails a comprehensive approach to all ESG topics.

The corporate social governance and sustainability strategy and plans have been designed to reflect the framework of the parent OTP Group (OTP Nyrt Hungary), particularly the ESG strategy development guidelines. In addition, the Bank has been adhering to directives and regulations of the European Union, sustainable development objectives issued by the UN, relevant international conventions, documents, guidelines and standards, and lastly, the requirements of the financial industry regulators.

The main task in focus of the Bank in 2024 was implementation of the recommendations of the Croatian National Bank for alignment with supervisory expectations for the identification and management of climate and environmental risks, which gave rise to geo-mapping of collateral in order to determine the sensitivity to the risk of floods and fires as drivers of physical risk. In addition, materiality assessment of the impact of environmental risks, including transition and physical risks, on credit (per segments), operational and strategic risks was carried out, whereas only the impact of physical risk was assessed in terms of market, liquidity and IRRBB risk. The Bank has set up mechanisms for collective and individual impact assessment of ESG risks on the quality of loan portfolios, and on assessment of the customer creditworthiness.

Apart from the above mentioned, the Bank kept the focus on further implementation of the Sustainable Finance Framework designed to govern green lending activities, to identify investments that expand a positive impact on the environment and society, and curtail a negative one, helping companies to adjust to the effects of the climate change, all the while setting up the sustainable financing support process and enhancing the competences pertaining to green lending activities.

During 2024 the Bank made a step forward in creating a sustainable retail product – Sunny Loan. Leveraging its strong presence along the coast, and appreciating the cooperation with the local population, the Bank designed this product to help tourist accommodation providers to take advantage of energy efficient solutions such as solar panels, electric vehicle chargers and pool heat pumps, thus taking the services they offer to a higher level and promoting sustainability in tourism.

The Bank's intention is to fully align its operations with regulatory requirements concerning sustainable finance, and to make headway in monitoring and managing of own carbon footprint.

The processes and rules adopted by the Bank shall apply to all its subsidiaries in the Republic of Croatia, in cooperation with which sustainable solutions are developed.

### Actions undertaken to protect the environment and climate

The Bank has been recognised as „green“ thanks to its long-term efforts to minimise its impact on the environment. It tackled its own sustainable corporate climate in the ESG strategy, under “Corporate social responsibility stakeholder”. The Bank's commitment to monitoring and responsible management of own impact is again and again proved by the ongoing improvement in several segments:

- Use of energy from renewable sources, responsible management of energy and energy efficiency; from October 2021, the Bank procures electricity exclusively from renewable sources, by purchasing ZelEn HEP Opskrba products; in 2024, 7,730 MWh of energy was taken over with 0 percent CO2 emissions;

## **ESG AND CORPORATE SOCIAL RESPONSIBILITY OF THE GROUP AND BANK FOR 2024 (CONTINUED)**

### **Actions undertaken to protect the environment and climate (continued)**

- using energy from own sources - solar panels installed on administrative buildings in Zadar, Dubrovnik and Pula; in 2024, 85.8 MWh of electricity was produced for own needs;
- initiatives for a plastic-free bank, use of recycled and recyclable materials in business operations, use of environmentally friendly material when furnishing branches and offices, and development of a responsible waste management system; in 2024, a total of 55.1 tons of waste was separated in this way;
- Project of replacement of all plastic cards used by our clients with the currently most sustainable solution available - cards made of natural, biodegradable materials;
- Continuous reduction of paper use, by digitalisation of operations and making changes to business processes
- Development of online business operations, instructions on responsible use of transport, and procurement of vehicles that have lower impact on the environment.

### **Sustainability reporting and support to public dialogue**

The Bank applies an exemption from the preparation of a consolidated sustainability report in accordance with Article 33, paragraph 1 of the Accounting Act. The bank and other members of Group are included in the consolidated report of the parent company OTP Bank Nyrt. with headquarters in Hungary at Nádor utca 21, Budapest.

Pursuant to Article 33, Paragraph 5 of the Accounting Act, Bank is attaching the Statement of the parent company OTP Bank Nyrt. on the inclusion of the Bank and other members of the Group in its consolidated sustainability report.

The bank will publish a certified translation of the consolidated sustainability report of the parent company OTP Bank Nyrt. on its website:

<https://www.otpbanka.hr/o-nama/godisnja-izvjesca>.

The Bank's website has various documents available, along with codes and policies providing for ethical business practice, corporate responsibility, and for other segments of a sustainable and responsible corporation.

The Bank, within Group, keeps track and measures its progress in sustainable practices also by participating in the Croatian Sustainability Index (HRIO), a uniform national measuring system set up by the Croatian Business Council for Sustainable Development.

In its public communication, the Bank supports and encourages the dialogue on sustainable development and social responsibility. Thus, in 2024, the Bank organised an ESG summit at the level of the international OTP Group in Split, and took part at the Greencajt Conference in Zagreb, the 16th Sustainable Development Conference organised by HRPSOR, and ChalLEANge Conference in Zagreb.

#### DECLARATION OF PARENT UNDERTAKING ON SUSTAINABILITY REPORTING OBLIGATIONS

OTP Bank Nyrt. having its registered office at Nádor u. 16, 1051 Budapest, Hungary, registered with the Municipal Court of Budapest as registrar under No.: 01-10-041585, duly represented by Zoltán Péter Nagy and Gergely Pókos (hereinafter referred to as "Bank"), within the competence of the parent undertaking as referred to in para (9) of Article 2 of Directive 2013/34/EU on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings (hereinafter referred to as "Directive"), hereby declares that in its consolidated sustainability report to be drawn up in accordance with Articles 19a, 29 and 29a of the Directive and to be published in accordance with Article 30 of the Directive the Bank will include its subsidiary OTP banka d.d., having its registered seat at Ulica Domovinskog rata 61, 21000 Split; registration number 060000531, and the following subsidiaries of OTP banka d.d.:

## ESG AND CORPORATE SOCIAL RESPONSIBILITY OF THE GROUP AND BANK FOR 2024 (CONTINUED)

### Corporate social responsibility

Corporate social responsibility is entirely a part of Group business policy that, besides responsible and transparent business, pays a lot of attention to projects through which it tries to contribute to the development of the local communities in which it operates.

All activities related to corporate social responsibility are integrated under the slogan “Different Bank – Different World”, as they are carried out to foster important issues in the local communities: care for the environment, sports, education, science, culture, health, entrepreneurship, and support for vulnerable groups.

For fifteen consecutive years, the Bank has been allocating significant funds for scholarships. Whilst during the past 14 years the Bank provided such scholarships to students of lower financial standing, for this academic year the Bank invited a tender for scholarships intended for students without proper parental care. The criteria that were considered included academic performance in secondary school or at university, and twelve students were granted scholarships in the amount of three hundred euros per month. Upholding another tradition, the Bank granted scholarships to athletes, only this year it did not invite a tender on its own but rather joined efforts with the Marin Čilić Foundation, thus expanding the reach of the Foundation to include university students, and joining them in promoting academic and sports excellence. For the thirteenth year running, OTP banka d.d. invited tenders for donations intended for projects within four different categories: the young, education and science; protection of cultural, historic and traditional heritage and environmental protection; humanitarian projects, and sports. Having received several hundred applications from all parts of Croatia, the Donations Commission chose 36 projects. The chosen projects stood out for their quality, and proved exceptionally worthy for vulnerable groups. Once implemented, they will contribute to better life of the local communities.

Back in 2020, the Bank and Mastercard launched a wide-reaching donation scheme under the name “OTP RoundUp!”, whereby it joined forces with its clients to contribute to better quality and more accessible care at children’s wards in hospitals. Using Mastercard cards issued by the Bank, the clients can round up the amounts during contactless payment. The balance of the donation account, set up exclusively for the purpose of this scheme, increases with every purchase they make at any point of sale in the Republic of Croatia or online. The scheme runs in cycles during which the funds are collected for two selected children’s hospitals or hospital wards. The cycles are closed at the end of the calendar year and the funds are paid to the chosen hospitals. On the first day of the following year, the dial goes back, but not to zero because the Bank and Mastercard credit the amount of 125 thousand euros to the account at the beginning of each cycle.

In the last cycle, completed at the end of December 2024, the total of 209 thousand euros was paid to the Pula General Hospital and Split Clinical Hospital for equipping the children’s wards. The “RoundUp!” scheme will continue in 2025 as a declaration of Bank’s commitment to affirmative social actions.

Another worthy tradition of the Bank is voluntary and charity work through numerous engagements such as: Wings for Life charity race, volunteering in children’s village in Lekenik, in children’s homes in Split, Kaštela and Zadar, at the Mali zmaj Association, at soup kitchens, supporting and participating in environmental campaigns like Ekotlon and reforestation after wildfires, and similar. The Bank’s Volunteer Club has been active since May 2022, with the mission to provide help to vulnerable persons in the local communities. Its members are all employees who opt to volunteer in any of the campaigns organised or supported by the Bank. In 2024 alone, the volunteers took part in 14 different campaigns organised by the Bank nationwide.

Furthermore, to accommodate its employees who are blood donors, the Bank hosts blood drives on its premises in cooperation with the Red Cross. Nine such blood drives took place at the locations in Split, Zadar, Zagreb and Dubrovnik during 2024, on which occasions the total of 346 donations were collected.

Bank’s voluntary and charity work has been recognised by the Zagreb Volunteers’ Centre, and they decided to award the Bank the 2024 Volunteer Oscar in the business sector category, providing the following rationale: “In the category of businesses, the award goes to OTP banka, distinguished for its innovative and long-standing volunteering campaigns for years, and standing as a beacon of social corporate responsibility.”

## **ESG AND CORPORATE SOCIAL RESPONSIBILITY OF THE GROUP AND BANK FOR 2024 (CONTINUED)**

### **Responsibility for client relations**

Sustainability and accountability in market relations are the basis of the Group's business policy. The Group develops its products and services in accordance with the accepted principles of sustainability, giving special consideration to product availability, transparency of communication with clients, and fair and clear marketing communication.

The implementation of the new digital banking platform and enabling a fully digital origination of cash loans is aimed at improving customer experience, and significantly contributes to a more responsible customer care and better service availability. By offering secure and swift access through various channels, clients are provided efficient and personalized service, customised for their needs. Group's flexibility and adaptability make sure that the ever-shifting needs and expectations of the customers in this digital era are promptly and suitably met.

While working on product availability, the Bank cooperates with the Croatian Bank for Reconstruction and Development in order to provide clients in areas of special state concern or economically disadvantaged areas with more accessible sources of financing for their entrepreneurial projects.

The Group has been continuously investing in the development of financial literacy, especially of younger generations, striving to respond to their needs by continuously adjusting the methods and channels of communication.

Special attention is paid to security of the clients and protection of their privacy and assets. As a Group member, the Bank takes part in the European Cyber Security Month, instructions for safe use of digital channels are constantly published on its website, and initiatives to raise awareness of digital inclusion and security are supported. In accordance with the diversity principles, the Bank makes sure that the products and services are available to all persons. To this end, when refurbishing branches, due care is taken to provide access for persons with disabilities so that they can use the premises without hindrance. The Omoguru widget has been available on the Bank's website for several years, making it easier for clients with visual impairment and reading disorders to follow the content.

There are several ways available to clients to obtain detailed information, report an irregularity or complain about conduct in a business relationship. Client opinion surveys indicate their full satisfaction with services and the speed of addressing their inquiries.

### **BANK'S PLANS FOR 2025**

The Bank's plans for the year 2025 have been prepared based on the projections of macroeconomic indicators and the expectations regarding further growth and development of the banking sector. They reflect the strategic guidelines in place and the operational objectives set on a going concern basis.

In 2025, in the retail segment the Bank is going to focus on raising the bar for the quality of service and on shortening the time needed for a loan to be approved and disbursed. Its focus will also be on cutting back on the number of visits a customer needs to pay to a branch, and on having simple products and the like arranged via digital channels. By offering products and asset management services, as well as insurance services, the Bank will expand the scope of the services provided to fulfil customers' financial needs and wants. The activities supporting continuous optimisation of the business network, on the one side striving for optimum coverage of the market, and for cost optimisation on the other side, are going to continue into 2025 as well. We will build up investments in our pursuit of a twenty-first century branch, to reflect the general direction in which the Bank has been evolving. The focus will be on further development of digital channels, and on upgrading and optimising the ATM network. Digital channels will also be the Bank's focal point in the corporate segment; there, striving for an even faster and a more efficient service, special attention will be paid to user experience, and we will achieve this by optimising the process and building up on our technological infrastructure.

Going forward, we do not expect the demand for investment loans to pick up; this is due to low economic activity of our important trade partners, the countries in the region. There will however be exceptions: investments in tourism and construction industries, well-known peculiarities of our economy. At the same time, a persisting above-average inflation rate leads us to believe that our customers' demand for working capital will not subside; we recognise this and the availability of EU funds, along with investments in energy efficiency and projects of renewable energy sources, as our lending opportunities in the period to come. One of the challenges in the upcoming period will be the ever present „price war“ on the market, which may adversely reflect also on the

### **BANK'S PLANS FOR 2025 (CONTINUED)**

existing market share, given the fierce competition and its impact on the interest rate policy. Let us not forget the current geopolitical developments with serious implications on both global and domestic market.

The expected cuts of central banks' interest rates will steal the show in 2025, and for businesses this will translate into low interest income from financial investments. However, in the midst of new forms of investments available, the interest rates on deposits will not be able to keep up with the trend. At the same time, total operating costs will rise due to higher input costs and investments, and so will staff costs. Based on the strategic elements defined by OTP group, the Bank has adopted the ESG strategy in which, among other things, it voiced its intention of becoming one of the leading players in the sustainable finance market in Croatia, and its intention of integrating ESG factors into all business strategies.

Furthermore, in 2025 the Bank intends to incorporate new risk indicators into the Risk Appetite Statement (RAS) in order to address the risks arising from climate change and environmental changes appropriately. Some of them are to eliminate financing of the industries featured on the adopted Exclusion Lists, limiting Bank's exposure to HIGH ESG risk industries, reducing the carbon footprint over time, and limiting the concentration of the Bank's collateral in the zones with high risk of natural disasters caused by climate change and environmental changes.

In 2024, the Green Loan Framework was introduced, for the purpose of managing green lending activities of the Bank. It is to recognise investments that maximise the positive and minimize the negative impact on the environment and society, and help companies adapt to climate change effects. The Green Loan Framework has identified an extensive list of categories for the definition of green finance activities, where the criteria are based on the EU taxonomy and CBI taxonomy. Systematic development of the support to the described processes with appropriate tools has been established, and in the upcoming period we plan on strengthening the ESG-related competences of all the organisational units included into the process of integration of ESG factors.

### **RISK MANAGEMENT**

As part of the OTP Group, the Bank's Risk Management is defined by the basic principles and guidelines prescribed in the policies and internal regulations of the Bank/OTP Group, together with the legal and regulatory requirements of both local and other relevant statutory bodies. The regulatory framework of the Bank's Corporate Governance ensures the independence of the risk management function/division from commercial and operational functions, as well as from other control functions. The risk management function includes the identification, measurement, assessment, analysis and monitoring of all significant risks of the institution's critical functions. The Risk Management framework includes the entire risk management system, including risk strategy, risk appetite and risk controls (such as policies and methodologies, etc.). The risk strategy summarises the risk approach, vision, mission, values, goals, strategic initiatives that support risk management within the set risk appetite and includes the Risk Appetite Statement (RAS). The Risk Appetite Statement regulates the risk appetite the Bank/OTP Group is willing to accept in order to implement its business and risk strategy. Although it is an integral part of the Risk Strategy, the RAS is approved by the Management Board as a separate document that is reviewed every year.

Main goals:

- Implementation of business strategies, taking into account the risk/return ratio;
- Ensure that potential losses are kept with the risk capacity;
- Adequate provisions for credit losses reflected in price and profitability;
- Adequate hedging for unexpected losses;
- Running the risk management system according to the size and complexity and in line with the regulator's expectations, using international best practices;
- Proactive, aware of risks, supporting business goals in a dynamic environment.

The strategic mission is: to be a partner to our business units; creating a value through data-driven decision making, advanced analytics and process excellence; ensuring a unique and transparent methodology or control environment for managing operational losses as well as maintaining safe growth of the portfolio through economic cycles. Credit, market and operational risks are managed and controlled within the organisational structure of the Risk Management Division, headed by the Risk Management Member (CRO). Compliance risk management, data protection, fraud detection and prevention, information and cyber security, AML/CFT, legal risk and ESG are managed within the organisational structure of the Central Functions Division, headed by President of the Management Board. Interest rate and liquidity risks are managed within the organisational structure of the Finance Division, headed by the Finance Board Member (CFO). The second line of defence/control covering these risks is implemented within the organisational structure of the Risk Management.

## RISK MANAGEMENT (CONTINUED)

### *Credit risk*

Credit risk means the risk that the other party won't be able to fully settle the amounts they owe. The Bank determines credit risk levels by setting a limit for risk amounts it assumes in relation to one client or a group of clients, and according to the business segment or products. Client credit risk management is based on a comprehensive assessment of the client's risk profile from a quantitative (financial) and qualitative point of view using a scoring and evaluation model, along with individual approval given by the corresponding level of approval. The authorisation system is set to reflect the risk profiles of clients as well as the competency level for their assessment. Internal lending limits at the level of client / group of clients, transaction or product are established in line with the Bank's defined risk appetite. The Bank has established a robust monitoring process for funded clients and approved exposures that enables corrective actions to be taken in the event of deterioration. The credit risk exposures are managed through various regular analyses at the level of client or portfolio, product or segment, sales channel or area. In the prevention of credit risk frauds, a wide range of tools and controls have been introduced with the aim of early detection of fraud cases and optimisation of the process.

### *Market risk*

Market risk means the effect of external influences on the value of positions in the Bank's portfolio due to price changes, i.e. trends in the financial markets. According to this definition, market risk consists of currency risk, interest rate risk and price risk.

The fundamental goal of market risk management in the Trading Book is to make a profit by taking advantage of fluctuations in exchange rates and interest rates, i.e. limiting losses that may result from their unfavourable trends in a way not to put at risk the Bank's profitability and operations.

The Bank applies the VaR methodology using the historical simulation method with a confidence level of 99% and a time horizon of 1 day to estimate the market risk and maximum expected losses of the positions it holds.

The VaR methodology is a statistically defined probability-based approach that takes into account market volatility as well as risk diversification by identifying offsetting positions and correlations between products and markets.

The Management Board approves an acceptable level of VaR limits, which are monitored on a daily basis. While VaR covers the Bank's daily exposure to currency and interest rate risk, the sensitivity analysis assesses the impact of a reasonably possible change in interest rates or foreign currency exchange rates during the year. The longer horizon of the sensitivity analysis complements VaR and helps the Parent Bank assess its market risk exposure.

Market risk, the risk of foreign countries and counterparty risk in transactions on the financial markets are managed by the Market Risk and Liquidity Control Department. The Department is directly accountable to the chief risk director of the Bank and is fully independent of the business units it supervises. It operates within the Market Risk Division of the OTP Group, and risk measurement methodologies and control procedures of the Bank are aligned with the best practices of the OTP Group.

### *Liquidity risk*

The policy of managing cash flows aimed at maintaining a balance between cash receipts and expenses is part of the Bank's broader asset and liability management policy. In order to ensure a satisfactory level of liquidity reserves, the Bank consistently monitors and plans the cash flow and predicts future liquidity needs taking into account changes in the economic, legislative and other circumstances of its operations. The aforementioned planning includes the identification of known, expected and potential cash outflows and the development of strategies to satisfy the Bank's liquidity reserves in certain currencies. It is important to emphasise that, when managing liquidity risk, the Bank strives to ensure currency compatibility of the portfolio of liquid assets with the currency distribution of its net liquidity outflows.

### *Operational risk*

Operational risk means the risk of loss arising from inadequate or unsuccessful internal processes, humans and systems or from external events, including legal risk.

The Bank's activities in the field of operational risk management are compliant with current regulations and good practices of operational risk management and are reviewed regularly in line with their changes.

Significant operational risks are identified by:

- Self-assessment of risk and control mechanisms (Risk control self-assessment - RCSA)
- Scenario analysis
- Key risk indicators
- Collection of operational risk events
- Business Impact Analysis (BIA)

The Bank uses a simple approach for calculating capital requirements for operational risk.

By implementing all the adopted measures, the Management Board believes that the risks are adequately and satisfactorily managed.

## MANAGEMENT OF GROUP'S HUMAN RESOURCES

At 2024 year-end, the headcount in the Group equalled 2,650, of which 2,457 were employed by the Bank. Bank's growth and development reflected in the positive hiring dynamics, resulting in 60 more employees at the Group level than we had the year before. There were total of 244 new hires throughout the year, of which 221 related to the Bank. As many as 85 employees were recruited to work in branches. In the same period, 184 employees left at the Group level, whereas 166 people (of which 76 branch employees) left the Bank. As for the age and qualification structure of the workforce, the average age at the Group and Bank level was 42, and 67% of the staff hold associate or bachelor's degree. Work experience of the employees of the Group averages at 17 years, whilst the average years of service in the Group is 13 years.

### *Employee remuneration*

In 2024, the Bank rolled out an across-the-board remuneration increase in the form of a meal allowance. In addition, the gross 1 minimum pay in the Bank was increased. Remuneration increase was also in the form of a selective pay rise took effect on 1st October 2024.

### *New hires*

The new hires were meticulously planned and aligned with the Group's development objectives. The ongoing evolution of banking and booming digitalisation call for intensive search for highly trained experts through new hires and in-house job transitions.

### *New Collective Bargaining Agreement / perquisites*

On 1st January 2025, the Bank concluded a new Collective Bargaining Agreement, effective for a two-year period. The new Agreement includes all previous employee entitlements and perquisites, and provides for some new ones, whereas the most prominent include: thirteenth salary (end-of-year bonus), holiday bonus, gift vouchers, presents for employees' children, financial support upon birth of a child, loyalty bonuses, bonuses for the participants in the bonus scheme, and contributions paid for special work conditions. The Bank provides regular medical check-ups, and funds various sport and cultural events. The employees enjoy special benefits when taking housing loans and using banking services. There are insurance policies covering all employees during working hours and whilst commuting to and from work, with various forms of financial supports available in case of natural disasters, illness and similar.

The new Collective Bargaining Agreement provides for longer holiday entitlement and paid leaves of absence. The employees are now entitled to more days off based on the years of service and for each child under the age of 18, a paid leave of absence on the day of their medical check-up and for their birthday. The employees returning to work after using their maternity or parental leave are entitled to work part-time (twenty hours a week) for a month, with full salary. The new Agreement provides for additional insurance covering bone fractures and sudden deaths due to illness or traffic accidents. Novelties include a discretionary performance bonus of at least EUR 250.00 and even more favourable interest rates on housing loans and general-purpose loans taken by employees.

### *Hybrid work*

The Bank introduced a hybrid work option whereby an employee can work 3 days in the office and 2 days from home and possibility to work shorter hours on Friday wherever such arrangement is feasible without compromising the quality of business processes and services provided to the clients. To align with amendments to the Labour Act, the Bank categorised such work as "remote work", thus accommodating additional work flexibility for the employees eligible for this type of arrangement.

### *Employer branding*

Employer branding was named a strategic objective of the Bank in 2024. Hence, we put an exceptional focus on this segment and began setting up a new Employer Branding Strategy and action plan for 2025, the preparation of which is underway. The emphasis is put on expanding the range of benefits offered to our employees, whereas the following steps will include best possible communication and promotion of such benefits.

### *Digitalisation in HR*

Having successfully digitalised the employment contracts of our employees, we are determined to go an extra mile this year. We have started digitalising employees' files in order to cut down paper use and become even more nature-friendly. Last year we digitalised the overtime records, thus providing more precision, efficiency and transparency in monitoring and managing of employees' working hours.

**MANAGEMENT OF GROUP'S HUMAN RESOURCES (CONTINUED)**

*Employee training and development*

The Bank seeks to enable its employees to improve their knowledge and skills by way of various professional training programmes, and supports their personal development. Along the same line, applying timely and high-calibre education modules, the Bank provides a major support to the entire business operations and better services to its clients.

Only in 2024, the total of 2,503 employees took part in as many as 380 different training sessions of total duration of 58.2 thousand hours.

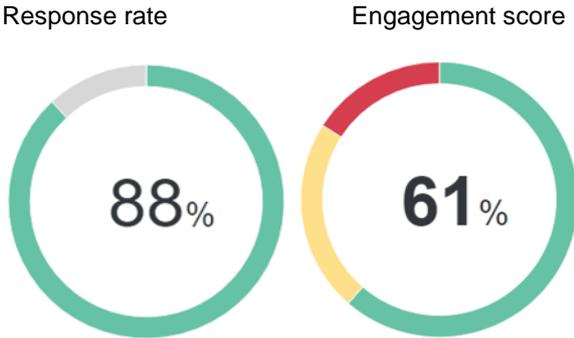

As much as 51% of the training accounted for in-house training, whereas 41% of all sessions were held through digital channels. It is worth noting that the digital training trend recorded a slight decrease compared to the year before.

In 2024, the training options included various topics to choose from: regulatory issues, knowledge of products and services, expert skills in financial analysis and risk management. They also included rather specific topics such as agile methodology and operations, and data management processes and tools.

At the same time, a number of programmes dealing with development and enhancing of managerial competences was offered, be it strategic or operational management, branch management or guidance to first-time managers.

*Employee engagement and satisfaction*

This year, for the fourth year running, the Bank took part in OTP Group's annual employee engagement survey, conducted in all countries where the Group is present. The main purpose of the poll is enabling the employees to share their opinion and proposals with regard to their work environment. In total, 88% of the Bank's employees participated in the survey, indicating a wish for continuous dialogue and active participation in shaping of the desired work environment.

In 2024, the Bank's employee engagement rate was 61%, and the key drivers of employee engagement were identified as: the possibility of achieving career goals, recognition of employees as important stakeholders in the company's success by senior management, employee well-being as a priority, open and honest communication and acknowledgment for job well done.

A detailed analysis of results provides guidelines for planning necessary development activities, all with the aim of further increasing employee engagement. Some of them are the continuous improvement and optimization of our reward systems, the continued development and strengthening of management competencies, changes to the evaluation system to promote and support new corporate values, as well as a talent management process that will enable an individual approach to career development and planning.

*Maintaining occupational health and safety awareness*

Advocating disease prevention and preservation of well-being of its employees, the Bank continued organising medical check-ups also in 2024.

Furthermore, the Bank has been running perpetual training sessions to ensure that its employees work in a safe manner, and to advise them of the firefighting measures and first aid.

## RESEARCH AND DEVELOPMENT

Designing of appealing and competitive financial products and solutions tailored to suit the customers' needs to the highest extent possible, and in accordance with market standards, whilst remaining true to the nature of its business activities, will continue to be an area of paramount importance for the Group in the future.

The Group is very much aware that the contemporary fast-changing society, with a relentless progress of science and technology, calls for an organisational culture that fosters innovation steered towards enhancing of the relationship with customers and upgrading of their experience, thus laying the foundations for sustainable long-term business relations. The Group encourages creativity and thinking outside the box in everyday work and through the Ideaportal platform – an interactive portal where the employees can share proposals for optimisation and improvement of the business processes.

The Group continued rolling out innovative practices and developments throughout 2024, in accordance with its strategic goals of improving the customer experience and satisfaction through development of modern and digitalised products and services. In addition to creating reliable, simple and safe solutions for its customers, the Group boosts the efficiency of its business operations.

To this end, throughout the year the focus remained on further improvements of the internet banking, an on the rollout and improvement of alternative digital communication channels.

Along the same line, as a part of the top priority area of digital transformation, in 2024 we witnessed the launch of the OTPgo mobile application, as an entirely new platform for digital operations of the customers. The integrated OTPgo application thus replaced the OTPdirect, mobile banking and m-token services. It combines a unique customer experience, existing and new functionalities, designed with upgrades in mind.

Other activities that warranted our attention throughout the year pertained to the development of additional functionalities of the fully integrated E2E (End-to-End) solution for approving of cash loans.

The Group proceeded with the implantation of the Optimus transformation programme, which was launched in 2019 and has produced significant results in terms of customer experience since that time. For example, optimisation of certain processes such as the process of approval of cash and housing loans has rendered the loan approval time considerably shorter, whilst the new process of MSEs account opening requires less direct involvement of the customers, resulting in speedy service and higher customer satisfaction.

The Optimus programme is also used for the initiatives pertaining to improvement of the process efficiency in the branches, which have positive impact on the overall customer satisfaction level, operational efficacy and cost efficiency. In the upcoming period, the Group will continue with the initiatives aimed at moving of transactions from the branches to the alternative (digital) channels.

Furthermore, the programme provides for the optimisation of the ATM network, advancement of the contactless and Smart ATM services, and adjustment of the assistive technology for the blind and visually impaired persons. The Group strives for ever-better service quality and customer satisfaction through the above-mentioned initiatives and solutions, and substantial improvements to the digital marketing exhibited over the previous years. In the upcoming period, the Group will proceed with a complete transition towards an agile way of working, aimed at cutting down on the time required to deliver solutions (time-to-market) in the field of digital banking, and increasing the range of services available to customers through digital channels, as well as improving of the existing services.

## Responsibilities of the Management and Supervisory Board for the preparation and acceptance of the annual report

---

The Management Board of the Bank is required to prepare separate financial statements of the Bank and consolidated financial statements of the Group for each financial year, which give a true and fair view of the financial position of the Bank and the Group and of the results of their operations and cash flows, in accordance with International Financial Reporting Standards as adopted by the European Union, and is responsible for maintaining proper accounting records to enable the preparation of such financial statements at any time. The Management Board has a general responsibility for taking such steps as are reasonably available to it, to safeguard the assets of the Bank and the Group and to prevent and detect fraud and other irregularities.

The Management Board is responsible for selecting suitable accounting policies to conform with applicable accounting standards and then apply them consistently, making judgements and estimates that are reasonable and prudent, and preparing the financial statements on a going concern basis unless it is inappropriate to presume that the Group and the Bank will continue in business.

The Management Board is also responsible for the preparation and content of the management report on the state of the Bank and its subsidiaries and other information, in accordance with the provisions of the Accounting Act (Official Gazette 85/2024, 145/2024).

The Management Board is responsible for the submission of the annual report, which includes the separate and consolidated financial statements, management report and other information, to the Supervisory Board for acceptance. If the Supervisory Board approves the annual report, it is deemed confirmed by both, the Management Board and the Supervisory Board of the Bank, after which the Supervisory Board submits the annual report to the General Assembly for adoption.

Separate and consolidated financial statements, as well as the Schedules prepared in accordance with the Decision of the Croatian National Bank on the structure and content of annual financial statements of credit institutions (Official Gazette 42/2018, 122/2020, 119/2021, 108/2022), management report and other information were authorised by the Management Board on 18 March 2025 and submitted to the Supervisory Board for acceptance. To confirm this, the annual report has been signed by authorized persons, as follows.

For and on behalf of OTP banka d.d.:

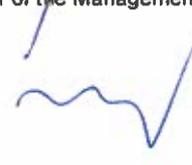

Balázs Pál Békeffy  
President of the Management Board

Nikola Mikša  
Member of the Management Board

Slaven Celić  
Member of the Management Board

Zvonimir Akrap  
Member of the Management Board

Bruno Biuk  
Member of the Management Board

Ivan Šimicević  
Member of the Management Board

Nera Šunjić  
Member of the Management Board

## INDEPENDENT AUDITOR'S REPORT

To the Shareholder of OTP banka d.d.

### Report on the audit of the separate and consolidated financial statements

#### Opinion

We have audited the separate financial statements of OTP banka d.d. (the Bank), and consolidated financial statements of OTP banka d.d. and its subsidiaries (together - the Group), which comprise the separate and consolidated statement of financial position as at 31 December 2024, the separate and consolidated income statement and the separate and consolidated statement of other comprehensive income, the separate and consolidated statement of changes in equity and the separate and consolidated statement of cash flows for the year then ended, and notes to the separate and consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying separate and consolidated financial statements give a true and fair view of the separate and consolidated financial position of the Bank and the Group as at 31 December 2024 and of their separate and consolidated financial performance and their separate and consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union (IFRS).

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the separate and consolidated financial statements* section of our report.

We are independent of the Bank and the Group in accordance with the International Ethics Standards Board of Accountants' (IESBA) International Code of Ethics for Professional Accountants, including International Independence Standards (IESBA Code), together with the ethical requirements that are relevant to our audit of the financial statements in Republic of Croatia, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the separate and consolidated financial statements of the current period. These matters were addressed in the context of our audit of the separate and consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matters is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the separate and consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the separate and consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying separate and consolidated financial statements.

Shape the future  
with confidence

| Key Audit Matter  | How we addressed Key Audit Matter   |
|---|---|
| <p><b>Determination of expected credit losses</b></p> <p>See Note 14 Loans and advances to customers and Note 1.12 Loss allowance of financial assets.</p> <p>Determination of expected credit losses represent management's best estimate of the expected credit losses within the loan portfolios at the reporting date.</p> <p>Assessment of appropriate staging of exposures depends mostly on triggers ("trigger events") identified by management as indicators of significant increase in credit risk of customers and impairment respectively. These triggers are subject to high level of judgement of the Management.</p> <p>Impairment provisions for expected credit losses require use of complex models (depending on the elements of the information system) and significant judgment of the Management Board and include high degree of subjectivity in estimating future cash-flows and timing of recoverability.</p> <p>Additionally, uncertain economic outlook resulted in more complex assessment onto expected credit losses.</p> <p>Additionally, regulator and market are focusing on exposures as they represent core business of the bank and provisioning of the loans is significantly affecting the result of the bank.</p> <p>This area is determined to be a key audit matter as the determination of the appropriate amount of impairment losses requires application of significant judgement and use of subjective and complex assumptions by management.</p> | <p>We obtained an understanding of the control environment and internal controls established by management in the process of measuring impairment provisions for expected credit losses. With the assistance of IT specialists, we assessed the design and tested the operating effectiveness of the controls, including the quality of underlying data and systems.</p> <p>We evaluated the design of controls over the calculation of individual impairments and tested the operational effectiveness of controls over the calculation of individual impairments of the Bank's portfolios, including the quality of the source data and the system.</p> <p>With the assistance of credit risk specialists, we assessed the methodology developed to calculate loan loss provisions under IFRS 9, concentrating on such aspects as factors for determining a "significant increase in credit risk", allocating loans to stages, appropriateness of models used for calculation of Stage 1 (A1) and Stage 2 (A2) allowances and portion of Stage 3 (B) allowances calculated on models (exposures below EUR 400 thousand) and estimation of key provisioning parameters.</p> <p>We evaluated matrices used in the calculation of probability of default ("PD") and loss given default ("LGD"). Additionally, with respect to models, we understood and assessed how the current macroeconomic expectations are incorporated in the model as part of forward- looking information.</p> <p>We examined a sample of exposures and performed procedures to evaluate the adequacy of classification of exposures in stages (including but not limited to assessing the creditworthiness of clients, review of input parameters such as probability of default, testing of reported days past due, assessing adequacy of Early warning signals ("EWS") and watch list status).</p> <p>Our audit procedures for individually significant exposures focused on measuring the impairment of individually significant credit exposures, including assessing whether historical experience is appropriate for estimating the amount of credit losses in the portfolio.</p> <p>On a sample of individually impaired credit exposures within a portfolio of individually significant exposures, we tested the assumptions used in identifying impairment and quantification including estimates of</p> |

Shape the future  
with confidence

|   |  |
|---|--|
|   | <p>future cash flows, estimates of related collaterals and estimates of recovery on default and assessed whether the specific Croatian National Bank (“CNB”) provisioning requirements were reflected in the calculation. This also included taking into consideration the impact of forbearance.</p> <p>We also assessed adequacy of the disclosures in Note 1.12 Loss allowance of financial assets and Note 14 Loans and advances to customers in the financial statements and if these are in accordance with International Financial Reporting Standards as adopted by the European Union (IFRS).</p>   |
| <p><b>Assessment of provisions for CHF litigation</b></p> <p><b>See Note 26 Provisions for liabilities and charges.</b></p> <p>As of 31 December 2024, the Bank recorded provisions for litigation cases related to loans originally issued or indexed to Swiss Francs (“CHF”).</p> <p>The provision for litigation cases relates to loans that have been converted and to loans that have not been converted and are still denominated in CHF, including requests for nullifying loan agreements in full and requests for nullifying specific clauses of loan agreements.</p> <p>We focused on this area because there are considerable judgements and estimates in applying the relevant requirements to estimating both timing and size of outflows of economic resources required to settle the Bank’s obligations resulting from these specific litigation claims, given their inherent uncertainty and volume.</p> <p>Therefore, due to the significant judgment involved and considering total amount of provisions we consider this area as a key audit matter.</p> | <p>We obtained an understanding of the control environment and internal controls established by management in the process of assessment of provisions for CHF litigation.</p> <p>Also, we have inquired management in order to gain an understanding of the assumptions considered in determining the need to recognize and measure provisions for CHF litigation.</p> <p>We obtained an overview of the litigation claims against the Bank and the provisions recognized for these cases. We reconciled this information to the information provided in the financial statements and to the information received from independent legal advisers used by management.</p> <p>We obtained and reviewed the opinions and statements of independent legal advisers used by management and compared them to the information received from management in relation to the litigation claims.</p> <p>We obtained and reviewed the calculation of provisions for litigation and assessed whether the assumptions, on which the measurement of provisions is based, are based on relevant and available information from independent parties and the market.</p> <p>We also assessed adequacy of the disclosures in Note 26 Provisions for liabilities and charges in the financial statements and if these are in accordance with International Financial Reporting Standards as adopted by the European Union (IFRS).</p> |

Shape the future  
with confidence

## Other information

Management is responsible for the other information. Other information comprises information included in the Annual Report, but does not include separate and consolidated financial statements and our auditor's report thereon. Our opinion on the separate and consolidated financial statements does not cover the other information.

In connection with our audit of the separate and consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the separate and consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

With respect to the Management Report we also performed procedures required by the Accounting Act. Those procedures include considering whether the Management Report is prepared in accordance with the requirements of Articles 22 and 24 of the Accounting Act.

Based on the procedures undertaken, to the extent we are able to assess it, we report that:

1. the information given in the enclosed Management Report is consistent, in all material respects, with the enclosed separate and consolidated financial statements; and
2. the enclosed Management Report is prepared in accordance with requirements of Articles 22 and 24 of the Accounting Act.

In the light of the knowledge and understanding of the Bank and Group and its environment obtained in the course of the audit of separate and consolidated financial statements, we are also required to report if we have identified material misstatements in the other information. We have nothing to report in this respect.

## Responsibilities of management and Audit Committee for the separate and consolidated financial statements

Management is responsible for the preparation and fair presentation of the separate and consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of separate and consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate and consolidated financial statements, management is responsible for assessing the Bank's and the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank and the Group or to cease operations, or has no realistic alternative but to do so.

Audit Committee is responsible for overseeing the Bank's and the Group's financial reporting process.

## Auditor's responsibilities for the audit of the separate and consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the separate and consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these separate and consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the separate and consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting

from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's and Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's and Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the separate and consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank and the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the separate and consolidated financial statements, including the disclosures, and whether the separate and consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purpose of the group audit. We remain solely responsible for our audit opinion.

We communicate with Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with Audit Committee, we determine those matters that were of most significance in the audit of the separate and consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

In compliance with Article 10(2) of Regulation (EU) No. 537/2014 of the European Parliament and the Council, we provide the following information in our independent auditor's report, which is required in addition to the requirements of ISAs:

#### *Appointment of Auditor and Period of Engagement*

We were initially appointed as auditors of the Bank on 31 March 2021. Our appointment has been renewed annually by General Assembly of Shareholders, with the most recent reappointment on 28 March 2024, representing a total period of uninterrupted engagement appointment of four years.

Shape the future  
with confidence

#### *Consistence with Additional Report to Audit Committee*

We confirm that our audit opinion on the separate and consolidated financial statements expressed herein is consistent with the additional report to the Audit Committee of the Bank, which we issued on 11 March 2025 in accordance with Article 11 of Regulation (EU) No. 537/2014 of the European Parliament and the Council.

#### *Provision of Non-audit Services*

We declare that no prohibited non-audit services referred to in Article 5(1) of Regulation (EU) No. 537/2014 of the European Parliament and the Council were provided by us to the Bank and its controlled undertakings within the European Union. In addition, there are no other non-audit services which were provided by us to the Bank and its controlled undertakings and which have not been disclosed in the separate and consolidated financial statements.

#### *Report on Regulatory requirements*

In accordance with the Bylaw on the structure and content of the annual financial statements of credit institutions ((National Gazette no 42/18, 122/2020, 119/2021 and 108/2022) (hereinafter "the Bylaw")) the Bank's management has prepared forms which are presented on pages 193 to 215, and which contain a separate and consolidated statement of financial position as at 31 December 2024, separate and consolidated income statement, separate and consolidated statement on other comprehensive income, separate and consolidated statement of changes in equity and separate and consolidated cash flow statement for the year then ended together with reconciliation with the separate and consolidated financial statements of the Bank and the Group ("financial information"). This financial information is the responsibility of the Bank's management and is, pursuant to statutory accounting regulation as applicable to banks in Croatia, not a required part of the separate and consolidated financial statements but is required by the Bylaw.

Our responsibility with respect to this financial information is to perform the procedures we consider appropriate to conclude whether this financial information have been properly derived from the audited separate and consolidated financial statements. In our opinion based on the procedures performed the financial information presented in the forms has been properly derived, in all material respects, from the audited separate and consolidated financial statements of the Bank which were prepared in accordance with International Financial Reporting Standards as adopted by the European Union (EU) as presented on pages 37 to 192 and are based on underlying accounting records of the Bank and Group.

The partner in charge of the audit resulting in this independent auditor's report is Zvonimir Madunić.

# Notes to the financial statements

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

## **1. ACCOUNTING POLICIES**

The principal accounting policies applied in the preparation of these financial statements are summarised below.

### **1.1 Basis of preparation**

#### **1.1.1 Statement of Compliance**

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) adopted by the European Union.

In preparing financial statements, the Group/Bank still takes into account certain minimum provisions in accordance with the applicable rules of the Croatian National Bank (CNB), primarily related to the identification of credit losses for individual placements that have been in default for a longer period of time, as well as provisions for certain categories of litigation. The Group considers that the application of the aforementioned remaining rules does not materially affect compliance of the financial statements with IFRS.

#### **1.1.2 Basis of measurement**

The Group/Bank prepares standalone and consolidated financial statements under the historical cost convention, as modified by the initial recognition of financial instruments at fair value, and by the revaluation of financial instruments categorised at fair value through profit or loss (“FVTPL”) and at fair value through other comprehensive income (“FVOCI”). The principal accounting policies applied in the preparation of these financial statements are set out below in this same note. These policies have been consistently applied to all the periods presented, unless otherwise stated.

#### **1.1.3 Use of estimates and judgments**

In preparing the financial statements the management makes judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, the disclosure of commitments and contingencies at the reporting date, as well as the amounts of income and expenses for the period. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances and the information available as of the date of preparation of the financial statements, the results of which form the basis for making the judgments about the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from those estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of revision and future periods if the revision affects both the current and future periods. Judgments made by management in the application of appropriate standards that have a significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are described in Note 2. The accounting policies outlined below, including changes resulting from the entry into force of new standards and amendments to the existing and interpretations that came into force (and adopted by the European Union), were applied to the periods in which they were in force.

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.1. Basis of preparation (continued)

##### 1.1.4. Changes in accounting policy and disclosures

The accounting policies adopted are consistent with those of the previous financial year except for the following IFRS and amendments to IFRS which have been adopted by the Group/Bank as of 1 January 2024:

- **IAS 1 Presentation of Financial Statements: Classification of Liabilities as Current or Non-current (Amendments)** - The amendments are effective for annual reporting periods beginning on or after January 1, 2024, and are applied retrospectively. The objective of the amendments is to clarify the principles in IAS 1 for the classification of liabilities as either current or non-current. The amendments clarify the meaning of a right to defer settlement, the requirement for this right to exist at the end of the reporting period, that management intent does not affect current or non-current classification, that options by the counterparty that could result in settlement by the transfer of the entity's own equity instruments do not affect current or non-current classification. Also, the amendments specify that only covenants with which an entity must comply on or before the reporting date will affect a liability's classification. Additional disclosures are also required for non-current liabilities arising from loan arrangements that are subject to covenants to be complied within twelve months after the reporting period.
- **IFRS 16 Leases: Lease Liability in a Sale and Leaseback (Amendments)**  
The amendments are effective for annual reporting periods beginning on or after January 1, 2024. The amendments are intended to improve the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction in IFRS 16, while it does not change the accounting for leases unrelated to sale and leaseback transactions. Under the amendments, the seller-lessee determines 'lease payments' or 'revised lease payments' in such a way that the seller-lessee would not recognise any amount of the gain or loss that relates to the right of use it retains. Applying these requirements does not prevent the seller-lessee from recognising, in profit or loss, any gain or loss relating to the partial or full termination of a lease. The amendments apply retrospectively to sale and leaseback transactions entered into after the date of initial application, being the beginning of the annual reporting period in which an entity first applied IFRS 16.
- **IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments Disclosures - Supplier Finance Arrangements (Amendments)** - The amendments are effective for annual reporting periods beginning on or after January 1, 2024. The amendments supplement requirements already in IFRS and require an entity to disclose the terms and conditions of supplier finance arrangements. Additionally, entities are required to disclose at the beginning and end of reporting period the carrying amounts of supplier finance arrangement financial liabilities and the line items in which those liabilities are presented as well as the carrying amounts of financial liabilities and line items, for which the finance providers have already settled the corresponding trade payables. Entities should also disclose the type and effect of non-cash changes in the carrying amounts of supplier finance arrangement financial liabilities, which prevent the carrying amounts of the financial liabilities from being comparable. Furthermore, the amendments require an entity to disclose at the beginning and end of the reporting period the range of payment due dates for financial liabilities owed to the finance providers and for comparable trade payables that are not part of those arrangements.

The adoption of these amendments did not have a significant impact on the Group's/Bank's financial statements.

**1.1.5. The standards/amendments that are not yet effective, but they have been endorsed by the European Union**

- **IAS 21 The Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability (Amendments)** - The amendments are effective for annual reporting periods beginning on or after January 1, 2025, with earlier application permitted. The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. A currency is considered to be exchangeable into another currency when an entity is able to obtain the other currency within a time frame that allows for a normal administrative delay and through a market or exchange mechanism in which an exchange transaction would create enforceable rights and obligations. If a currency is not exchangeable into another currency, an entity is required to estimate the spot exchange rate at the measurement date. An entity's objective in estimating the spot exchange rate is to reflect the rate at which an orderly exchange transaction would take place at the measurement date between market participants under prevailing economic conditions. The amendments note that an entity can use an observable exchange rate without adjustment or another estimation technique. Management has assessed that the changes in the standard will not lead to significant changes in the financial statements of the Group/Bank in the period of the first application of the standard.

**1.1.6 Standards issued but not yet effective and not early adopted**

- **IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures - Classification and Measurement of Financial Instruments (Amendments)** - The amendments are effective for annual reporting periods beginning on or after January 1, 2026. Early adoption of amendments related to the classification of financial assets and the related disclosures is permitted, with the option to apply the other amendments at a later date. The amendments clarify that a financial liability is derecognised on the 'settlement date', when the obligation is discharged, cancelled, expired, or otherwise qualifies for derecognition. They introduce an accounting policy option to derecognise liabilities settled via electronic payment systems before the settlement date, subject to specific conditions. They also provide guidance on assessing the contractual cash flow characteristics of financial assets with environmental, social, and governance (ESG)-linked features or other similar contingent features. Additionally, they clarify the treatment of non-recourse assets and contractually linked instruments and require additional disclosures under IFRS 7 for financial assets and liabilities with contingent event references (including ESG-linked) and equity instruments classified at fair value through other comprehensive income. The amendments have not yet been endorsed by the EU. Management has assessed that the changes in the standard will not lead to significant changes in the financial statements of the Group/Bank in the period of the first application of the standard.
- **IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures - Contracts Referencing Nature-dependent Electricity (Amendments)** - The amendments are effective for annual reporting periods beginning on or after January 1, 2026, with earlier application permitted. The amendments include clarifying the application of the 'own-use' requirements, permitting hedge accounting if contracts in scope of the amendments are used as hedging instruments, and introduce new disclosure requirements to enable investors to understand the impact of these contracts on a company's financial performance and cash flows. The clarifications regarding the 'own-use' requirements must be applied retrospectively, but the guidance permitting hedge accounting have to be applied prospectively to new hedging relationships designated on or after the date of initial application. The amendments have not yet been endorsed by the EU. Management has assessed that the changes in the standard will not lead to significant changes in the financial statements of the Group/Bank in the period of the first application of the standard.
- **IFRS 18 Presentation and Disclosure in Financial Statements** - IFRS 18 introduces new requirements on presentation within the statement of profit or loss. It requires an entity to classify all income and expenses within its statement of profit or loss into one of the five categories: operating; investing; financing; income taxes; and discontinued operations. These categories are complemented by the requirements to present subtotals and totals for 'operating profit or loss', 'profit or loss before financing and income taxes' and 'profit or loss'. It also requires disclosure of management-defined performance measures and includes new requirements for aggregation and disaggregation of financial information based on the identified 'roles' of the primary financial statements and the notes. In addition, there are consequential amendments to other accounting standards.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

(All amounts are expressed in millions of EUR)

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.1 Basis of preparation (continued)

##### 1.1.6 Standards issued but not yet effective and not early adopted (continued)

IFRS 18 is effective for reporting periods beginning on or after January 1, 2027, with earlier application permitted. Retrospective application is required in both annual and interim financial statements. The standard has not yet been endorsed by the EU. Management has assessed that the changes in the standard will not lead to significant changes in the financial statements of the Group/Bank in the period of the first application of the standard.

- **IFRS 19 Subsidiaries without Public Accountability: Disclosures** - IFRS 19 permits subsidiaries without public accountability to use reduced disclosure requirements if their parent company (either ultimate or intermediate) prepares publicly available consolidated financial statements in compliance with IFRS accounting standards. These subsidiaries must still apply the recognition, measurement and presentation requirements in other IFRS accounting standards. Unless otherwise specified, eligible entities that elect to apply IFRS 19 will not need to apply the disclosure requirements in other IFRS accounting standards. IFRS 19 is effective for reporting periods beginning on or after January 1, 2027, with early application permitted. The standard has not yet been endorsed by the EU. Management has assessed that the changes in the standard will not lead to significant changes in the financial statements of the Group/Bank in the period of the first application of the standard.
- **Annual Improvements to IFRS Accounting Standards – Volume 11** - The IASB's annual improvements process deals with non-urgent, but necessary, clarifications and amendments to IFRS. In July 2024, the IASB issued Annual Improvements to IFRS Accounting Standards — Volume 11. An entity shall apply those amendments for annual reporting periods beginning on or after January 1, 2026. The Annual Improvements to IFRS Accounting Standards - Volume 11, includes amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10, and IAS 7. These amendments aim to clarify wording, correct minor unintended consequences, oversights, or conflicts between requirements in the standards. The standard has not been endorsed by the EU. Management has assessed that the changes in the standard will not lead to significant changes in the financial statements of the Group/Bank in the period of the first application of the standard.
- **Amendment in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture** - The amendments address an acknowledged inconsistency between the requirements in IFRS 10 and those in IAS 28, in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognised when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognised when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary. In December 2015 the IASB postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. The amendments have not yet been endorsed by the EU. Management has assessed that the changes in the standard will not lead to significant changes in the financial statements of the Group/Bank in the period of the first application of the standard.

#### 1.2. Consolidation

The consolidated financial statements include the financial statements of the Bank and companies under the Bank's direct and indirect control ("Group"). The structure of the Group is presented in Note 17.

The Bank controls another company when it has the right to a variable return from involvement in the company and has the ability to affect those returns through its power over the company.

The Bank reassesses whether it has control when one or more control elements change. This includes circumstances in which the Group's protective rights (for example, those arising from credit activities) become significant and result in the Group having power over the entity.

##### *Subsidiaries*

Subsidiaries are all entities over which the Bank has control. Subsidiaries are consolidated from the date on which effective control is transferred to the Group and are de-consolidated from the date that control ceases. Where necessary, the accounting policies used by subsidiaries have been changed to ensure consistency with

## Notes to the financial statements (continued)

For the year ended 31 December 2024

(All amounts are expressed in millions of EUR)

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.2 Consolidation (continued)

the policies adopted by the Group. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance. In the Bank's separate financial statements, investments in subsidiaries are accounted for at cost less impairment. Investments in subsidiaries are consolidated using the full consolidation method in the consolidated financial statements of the Group.

##### *Non-controlling interests*

The Group elects to measure any non-controlling interests in the acquiree either at fair value or at their proportionate share of the acquiree's identifiable net assets, which are generally at fair value.

##### *Transactions eliminated on consolidation*

Intra-group balances, and income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

##### *Fund management*

The Group manages and administers assets held in mutual funds on behalf of investors. The financial statements of these entities are not included in these consolidated financial statements except when the Group controls the entity (there were no such cases at the reporting date).

#### 1.3. Functional and presentation currency

Items included in the financial statements are presented in the currency of the primary economic environment in which the Group/Bank operates (its functional currency). The financial statements are presented in the Croatian kuna, which is both the functional and reporting currency of the Group/Bank. The amounts are rounded to the nearest million with one decimal (unless otherwise stated).

Considering that the Republic of Croatia introduced the euro as the official currency as of 1 January 2023, in accordance with the Law on the Introduction of the Euro as the Official Currency in the Republic of Croatia, the Group changed the presentation currency for the purposes of preparing financial statements for the year 2023 from kuna to euros, and the financial statements for the year 2023 were first prepared in euros. From 1 January 2023, the euro is also the functional currency of the Group (until 1 January 2023, it was HRK).

The exchange rates of the Croatian National Bank for the most important currencies, used for the conversion of the Group's / Bank's monetary assets and liabilities, were as follows:

**31. prosinca 2023.**            1 EUR = 0,9260 CHF    1 EUR = 1,1050 USD

**31. prosinca 2024.**            1 EUR = 0,9435 CHF    1 EUR = 1,0444 USD

#### 1.4. Foreign currency translation

Transactions in foreign currencies are translated into the functional currency using the exchange rates prevailing at the dates of the transactions for the Group and Bank. Foreign exchange gains and losses resulting from the settlement of such transactions and from the retranslation of monetary assets and liabilities denominated in foreign currencies at the year-end rates are recognised in profit and loss in the position Net gains/(losses) from trading and valuation of financial instruments (Note 5c).

Foreign currency denominated non-monetary assets and items that are measured in terms of historical cost are translated at the exchange rates in effect on the transaction dates and are not retranslated at the reporting date. Changes in fair value of debt securities denominated in a foreign currency, which are, in line with IFRS 9, measured at fair value through other comprehensive income are recognised through other comprehensive income. Foreign exchange differences and expected credit losses for these securities are recognised through profit or loss in the position Net (losses) from the valuation of financial assets, which is measured through other comprehensive income. Changes in fair value and foreign exchange differences of equity securities denominated in a foreign currency are recognised through other comprehensive income – option of fair value through other comprehensive income.

*(All amounts are expressed in millions of EUR)*

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.5. Leases

The Group/Bank measures leases in accordance with IFRS 16.

##### a) Recognition of a lease liability

The Group/Bank recognizes lease liabilities that relate to „operating“ leases, which are measured at the present value of the lease payments receivable as at the date of commencement of the application of IFRS 16. Lease payments are discounted at the interest rate implicit in the lease or, if that rate can not be readily determined, the incremental borrowing rate. At the date of initial recognition, lease payments included in the measurement of the lease liability include the following types of payments for the right to use the underlying asset for the life of the lease:

- fixed lease payments less all lease incentives,
- variable lease payments which are dependent on market indices,
- amounts expected to be payable by the lessee under residual value guarantees,
- the exercise price of the purchase option, if it is reasonably certain that the option will be exercised, and
- payment of contractual penalties for terminating the lease, if the lease period reflects that the lessee used the option of terminating the lease.

##### b) Recognition of right-of-use assets

Right-of-use assets are initially measured at cost.

The cost of a right-of-use asset comprises:

- the initial estimate of lease liabilities (excluding VAT),
- all lease payments paid at the commencement date or earlier, less any lease incentives receivable, initial costs directly incurred by the lessee as a result of entering into a lease agreement,
- estimates of costs which are to be incurred by the lessee as a result of an obligation to disassemble and remove an underlying asset or to carry out renovation/restoration.

The Group/Bank uses expedients related to short-term leases (less than 12 months) as well as in the case of leases where the related assets are of low value (less than USD 5.000 converted to the functional currency at the middle exchange rate on the contract date), for which no financial liabilities nor the right-of-use assets will be recognized. These types of payments will be recognized as expenses using the linear method over the life of the lease.

The value added tax cost under all lease contracts in accordance with IFRS 16 is recognized directly in administrative expenses and is presented in Note 7.

#### 1.6. Interest income and expense

The Group/Bank calculates interest income and expense on a time basis, by reference to the principal outstanding and at the effective interest rate applicable. Interest income includes coupons earned on fixed income investments and securities as well as accrued discount and premium other discounted instruments.

Interest income and expense include interest from interest derivatives and from non-interest derivatives that are kept in the Bank's book.

The Group/Bank recognizes one-off loan origination fees for loans which are probable of being drawn down, (together with related direct costs) as an adjustment to the effective yield of the loan and as such adjusts the interest income.

The Group/Bank recognizes interest income on financial assets classified as Stage 3 financial asset in the statement of profit or loss when collected in the position Net interest income (Note 3).

Penalty interests for financial assets and financial liabilities are recognised in Other operating income (Note 6) or Other operating costs (Note 7).

#### 1.7. Fee and commission income and expense

The fees and commissions calculated and charged to clients by the Group/Bank for the provision of financial services consist mainly of fees for domestic and foreign payment services and credit guarantee services, account management services, card services, asset management services and other similar financial services provided by the Group/Bank in accordance with the registration. Fees included in the calculation of the effective

## Notes to the financial statements (continued)

*(All amounts are expressed in millions of EUR)*

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.7 Fee and commission income and expense (continued)

interest rate are recognized as interest income and expense. Fee and commission income and expense are recognized in the profit and loss account in the position Net fee income and commissions (Note 4) under the service contract in question at the time the particular service is provided. Fees and commissions that are paid and charged in advance are deferred over the period of providing the service for services provided continuously over a longer period of time.

#### 1.8. Employee benefits

##### *Short-term benefits*

The Group/Bank pays its employees regular monthly incomes, within which make payments of all public benefits to the state, as well as payments to pension funds. As part of regular monthly payments, the Group/Bank also pays benefits for short-term absences, such as paid vacation, sick leave, etc..All the mentioned incomes are recognized as an expense in the profit and loss account under the item Employee expenses (Note 8) in the period in which they arise.

##### *Bonuses*

The Group/Bank estimates the cost of annual bonuses based on the set key performance indicators of the employees and for the total achievement of the set goals of 100%. After the evaluation of the employee's work in the past year, that is, after the evaluation of the set development goals, the annual bonus is paid to the employees using the estimated funds.

##### *Retirement benefits*

When the conditions for a full employee pension are met, the Group/Bank awards a one-time compensation to employees in the amount of the maximum non-taxable amount prescribed by the Act and Regulation on income tax. The payment is made using the funds reserved based on the calculation by an independent qualified appraiser. The calculation is carried out once a year according to data at the end of the year on the number of employees, seniority and years of life. Based on the calculation obtained by an independent qualified appraiser, the Group/Bank records actuarial gains/losses in other comprehensive income in the period in which they arise, while the interest cost, past and current work cost is recognized in the profit and loss account under the position Employee expenses (Note 8), in the period in which arise. The amount of the liability is shown in the Provisions for liabilities and charges.

##### *Jubilee awards*

The Group/Bank awards jubilee awards to employees on a monthly basis when the conditions for obtaining the jubilee award are met, i.e. when the requirement of a total length of service of 10 years in the Group/Bank is met, and every subsequent 5 years. Payments are made using funds that are reserved based on calculations by an independent qualified appraiser. The calculation is carried out once a year according to data at the end of the year on the number of employees, seniority and years of life. Based on the calculation obtained from an independent qualified appraiser, the Group/Bank records the amount of the obligation for jubilee awards in the profit and loss account under the position Employee expenses (Note 8). The amount of the liability is shown in the Provisions for liabilities and charges.

#### 1.9. Taxation

Income tax expense is based on taxable income for the year and represents the sum of the tax currently payable and deferred tax.

##### *Current tax*

The tax currently payable is based on taxable profit for the year. Taxable profit differs from the profit reported in the statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's/Bank's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

##### *Deferred tax*

The Group/Bank reviews the carrying amount of deferred tax assets at the end of each reporting period and

## Notes to the financial statements (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### *Deferred tax (continued)*

reduces it to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or a part of the tax assets to be recovered.

The Group/Bank measures deferred tax assets and liabilities at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group/Bank expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group/Bank intends to settle its current tax assets and liabilities on a net basis.

#### *Current and deferred tax for the period*

Current and deferred taxes are recognised as an expense or income in the position Income tax (Note 10), except when they relate to items presented directly in equity, in which case the tax is also recognised in equity, or where they arise from the initial accounting for a business combination.

#### **1.10. Cash and cash equivalents**

For the purpose of reporting cash flows, cash and cash equivalents comprise cash, balances with the Croatian National Bank (CNB), accounts with other banks and term deposits with other banks with contractual maturities of up to three months.

Cash and cash equivalents exclude guarantee deposits, as these funds are not available for the Bank's day-to-day operations.

#### **1.11. Financial instruments**

##### **Classification**

The Group/Bank recognizes buying and selling of financial assets at the settlement date, except for the derivative financial assets, that are recognized on the trade date. The Group/Bank applies IFRS 9 and, depending on business model for management of financial assets and contractual cash flow characteristics, classifies financial assets into following measurement categories: financial assets at amortised cost; financial assets at fair value through other comprehensive income (FVTOCI); financial assets designated at fair value through other comprehensive income (FVTOCI); financial assets at fair value through profit or loss (FVTPL).

The Group/Bank classifies derivatives, units in investment funds and securities held for trading in Financial assets at fair value through profit or loss since this payments do not represent solely payments of principal and interest on unpaid principal.

##### **Business model assessment**

Business model is based on activities conducted by the Group/Bank to achieve objectives in accordance with Group's/Bank's strategy and how Group/Bank manages its' financial assets with aim of generating profits.

Types of business models considering cash flow generation are described in following paragraphs:

- **Business model held to collect**

Objective of this model is to hold assets in order to collect contractual cash flows. Sale is not integral part of this business model within assets are measured at amortised cost, but sales could be consistent with this business model provided: a) sale is frequent, but insignificant (not more than 5% assets within homogeneous group occurred in observed period), b) sale is infrequent, but significant, c) sale is close to maturity or d) sale due to increase in credit risk (e.g. interest rate increase, sale of NPL portfolio). Sale in stress liquidity situations could also be classified within this model.

During 2023 and 2024, the Bank sold individual and NPL portfolios that did not lead to a breach of the business model, but were sold due to the deterioration of the credit risk of individual clients.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.11 Financial instruments (continued)

##### Classification (continued)

- Business model held to collect and sell

Objective is achieved by collecting contractual cash flows and by sale of financial assets. It is not required to observe frequency, value and reason of sale, but typically this business model involves greater frequency and value of sales.

- Other models (other strategies)

Objective is to achieve short term profit on disposal of financial assets and this business model includes assets held for trading. All other business models are allocated in measurement category fair value through profit or loss.

Business model is determined by the Group's/Bank's key management personnel. Key management personnel includes Group's/Bank's Management Board. Every Management Board member has an authority to determine business model for financial assets portfolio within his competence.

##### SPPI test (Solely Payment of Principal and Interest)

SPPI test is conducted to assess contractual cash flow characteristics of particular financial instruments, i.e. to assess if contractual cash flows represent solely payments of principal and interest on unpaid principal in accordance with basic lending arrangement (without specific modifications related to prepayment fee, index linked payments, mismatch between interest rate and reference interest rate etc.).

In cases where the SPPI test indicates the existence of modification of the time value of money, an additional assessment is conducted to determine whether the modification is significant (the benchmark test). Benchmark test is conducted by comparing undiscounted contractual cash flows and undiscounted cash flows that would arise if the time value of money element was not modified (reference or benchmark cash flows).

Relevant comparable benchmark instrument is instrument with identical contractual terms and the identical credit risk, either existing or hypothetical instrument.

If based on conducted assessments, result is significant difference between contractual cash flows and reference/benchmark cash flows, financial asset fails SPPI test and shall be allocated to measurement category fair value through profit or loss.

OTP Bank Nyrt has defined an SPPI test (questionnaire) that is conducted at the level of a product portfolio with the same or similar characteristics, the so-called homogeneous product groups. In specific cases of financing that cannot be attributed to a specific homogeneous product group, the SPPI test is conducted on an individual basis.

Below are listed the basic homogeneous groups of products for which the SPPI test was conducted. The Group/Bank further elaborates listed homogeneous groups taking into account the currency, interest rate type, certain types of funding programs, and other specific features and characteristics of the product.

##### 1. Corporate clients products:

- Investment loans with administrative interest rate
- Investment loans with fixed interest rate
- Investment loans with variable interest rate
- Working capital loans with administrative interest rate
- Working capital loans with fixed interest rate
- Working capital loans with variable interest rate
- Other loans with administrative interest rate
- Other loans with fixed interest rate
- Other loans with variable interest rate
- Overdrafts on gyro account with fixed interest rate
- Overdrafts on gyro account with variable interest rate
- Refinancing loans with administrative interest rate
- Refinancing loans with fixed interest rate
- Refinancing loans with variable interest rate
- Guarantees
- Syndicated loans

#### 2. Small corporate clients products:

- Long-term loan with a fixed interest rate
- Long-term loan with a variable interest rate
- Long-term loan with administrative interest rate
- Long-term loan with a fixed interest rate for residential buildings
- Long-term loan with a variable interest rate for residential buildings
- Agro loan for pre-financing with a fixed interest rate
- Agro loan for pre-financing with a variable interest rate
- Short-term loan with a fixed interest rate
- Short-term loan with administrative interest rate
- Short-term loan with variable interest rate
- Overdrafts on a giro account with a fixed interest rate
- Overdrafts on a giro account with a variable interest rate
- Revolving loan with a fixed interest rate
- Revolving loan with a variable interest rate
- Revolving loan with administrative interest rate
- Subsidized loans with a fixed interest rate
- Subsidized loans with variable interest rate

#### 3. Retail clients products:

- Housing loans with fixed interest rate
- Housing loans with combination of fixed and variable interest rate
- Subsidized housing loans
- Cash loans with fixed interest rate
- Lombard loans
- Express loans
- Mortgage loans
- Tourism loans
- Car loans
- Housing loans without mortgage
- Overdraft loans with fixed interest rate
- Credit card loans - revolving
- Credit card loans - charge
- Credit card loans - instalment

#### Modifications

The modification applies to all financial assets and liabilities within the scope of IFRS 9. Any change in a contractual provision is considered a modification. The Group/Bank defines the significance of the modification. In case of significant modification, the Group/Bank derecognizes the existing instrument and carries out initial recognition of the new instrument. Upon initial recognition of a new instrument, the Group/Bank implements all necessary requirements defined in IFRS 9 for the initial recognition of financial assets. If the modification is insignificant, the Group/Bank continues to recognize the existing instrument and calculates the modification differences using the effective interest rate. Modification gains and losses are recognized through the profit and loss statement.

The most common form of modification is restructuring, where in almost all cases the Group/Bank derecognizes an existing instrument and recognizes a new instrument. Payment delays (so-called moratoriums) and other exposure restructuring measures implemented as a result of the COVID-19 pandemic are also treated by the Group/Bank as modifications, therefore the Group/Bank calculates modification losses / gains. Also, insignificant modification differences result in continued recognition of the existing instrument, while in cases of significant modification differences, the Group/Bank derecognises the existing instrument and recognizes a new one, which is subject to all requirements of IFRS 9 on initial recognition of financial assets.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.11 Financial instruments (continued)

##### SPPI test (Solely Payment of Principal and Interest) (continued)

###### Recognition and derecognition

Financial assets and liabilities are initially recognized at fair value, increased or decreased by transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. The fair value of a financial instrument on initial recognition is usually the purchase price of the transaction.

After initial measurement, the Group/Bank measures financial assets at amortized cost or at fair value (through other comprehensive income or through profit or loss), depending on the Group/Bank's financial asset management model and contractual cash flow characteristics.

###### Write-offs

The Group/Bank writes off financial assets in cases where it is not possible to collect, or when all payment possibilities have been exhausted, or when the collection costs exceed the amount of possible collection.

The Group/Bank writes off financial assets that are completely impaired or whose fair value is equal or approximately zero.

The Bank primarily seeks to sell such financial assets in the market. If there is no market demand for financial assets, they are written off and transferred to off-balance sheet records.

In case of financial assets recorded in off-balance sheet records, for which certain collection procedures of mostly formal nature have not yet been completed, the Group/Bank continues to monitor them and collect wherever possible. These financial assets are finally written off only when there is no longer any reason for the Group/Bank to continue collection, or when there is no possibility of partial collection in the future.

Discharge of debt is done by the Group/Bank if the receivables are written off in line with court decisions in accordance with applicable legal regulations or in other specific cases defined in the Group/Bank's internal policies.

In case of financial assets that are not fully written off, the remaining assets are not recognised as an existing instrument at the time of writing-off, and a new instruments is recognised in accordance with IFRS 9.

###### Gains and losses

Gains and losses from financial assets and financial liabilities measured at fair value through profit or loss are recognized in profit and loss account in the position Net (losses)/gains from valuation of financial assets measured through profit or loss (Note 5a). Income and expenses from interest derivatives and from non-interest derivatives that are kept in the Bank's book are shown in the position Net interest income (Note 3).

Gains or losses arising from change in fair value and foreign exchange gain or loss for equity instruments designated at fair value through other comprehensive income are presented in other comprehensive income. Only dividends are recognized as gain in relevant reporting period in the position Other income (Note 6).

###### Fair value measurement principles

The fair values of quoted securities are based on current closing bid prices. If the market for a financial asset is not active (and for unlisted securities), or if, for any other reason, the fair value cannot be reliably measured by market price, the Group/Bank determines the fair value using valuation techniques. These include the use of prices achieved in recent arm's length transactions between knowledgeable and willing parties, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models, making maximum use of market inputs and relying as little as possible on entity-specific inputs. Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate. The fair value of non-traded derivatives is estimated at the amount that the Group/Bank would receive or pay to terminate the contract at the statement of financial position date, taking into account current market conditions and the current creditworthiness of the counterparties.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.11 Financial instruments (continued)

##### Valuation techniques and assumptions for the purposes of measuring fair value

The fair values of financial assets and financial liabilities are determined as follows:

- The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined by reference to quoted market prices (includes listed redeemable notes, bills of exchange, debentures and perpetual notes).
- The fair values of other financial assets and financial liabilities (excluding derivative financial instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments;
- The fair values of derivative financial instruments are calculated using quoted prices. Where such prices are not available, a discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivative financial instruments, and option pricing models for optional derivative financial instruments. Foreign currency forward contracts are measured using quoted forward exchange rates and yield curves derived from quoted interest rates matching maturities of the contracts. Interest rate swaps are measured at the present value of future cash flows estimated and discounted based on the applicable yield curves derived from quoted interest rates.

#### 1.12. Loss allowance of financial assets

##### Loss allowance of financial assets measured at amortised cost

##### Definition and calculation method of expected credit losses for each stage

Expected credit loss calculation methodology depends on type of portfolio and risk stage of portfolio subject to assessment. Portfolio classified into lower risk stages (Stage 1 and Stage 2) is assessed collectively.

The Group/Bank also recognizes expected credit losses on a monthly basis for exposures subject to loss allowance requirements in amounts equal to:

- 1) 12 month expected credit loss for Stage 1 risk subcategory;
- 2) lifetime expected credit loss for Stage 2 and Stage 3 risk subcategory

Portfolio classified into Stage 3 is assessed collectively with lifetime expected credit loss recognized in cases of retail portfolio and individually in cases of corporate portfolio. Exceptionally, in case of corporate portfolio, for clients with group exposure below EUR 0.4 million, collective assessment is applied in expected credit loss calculation.

For individual method, expected credit losses are calculated as difference between gross carrying amount of individual exposure and present value of expected future cash flows discounted at effective interest rate. At least two scenarios are projected for expected cash flow assessment. Weights are applied to each scenario based on probability of occurrence. The present value calculated as the weighted average of the individual scenarios is used to calculate the transaction of loss allowance. In calculation of individual expected credit losses the following information is taken into account: expected operating cash flow, expected cash from the sale of collateral (real estate), the effective interest rate, and the estimated collateral realisation period.

In case of collective assessment, the Group/Bank uses internal model in accordance with IFRS 9 for calculation of expected credit losses, applying PD (probability of default), LGD (loss given default) and EAD (exposure at default; for off-balance exposures CCF of 100% is applied) as parameters for loss allowance calculation. Group/Bank also applies 5 different macroeconomic scenarios that reflect forecasts. Macroeconomic scenarios and its probabilities are based on regional macroeconomic forecasts. Expected loss (EL) is calculated separately for each scenario and final expected loss (EL) assessment is weighted average of expected loss in cases of multiple scenarios. Model calculation is performed monthly.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.12. Loss allowance of financial assets (continued)

##### Loss allowance of financial assets measured at amortised cost (continued)

##### Definition and calculation method of expected credit losses for each stage (continued)

Basic assumption in the model is credit segmentation based on client type (sovereign, banks, corporate, retail). Retail segment is further subdivided by product type into the sub-segment of housing, mortgage, cash, car and other loans and the sub-segments of overdrafts and credit cards. Each segment is further elaborated according to the time when the receivable was recorded in the system (book criterion), and according to the calculating provisions class (provisioning bucket) which is defined according to the number of days past due in combination with stage where necessary.

The classes are as follows:

Stage 1: DPD 0-30

Stage 2: DPD 0-30 when there is no delay but the claim is stage 2 according to another criterion

Restructured exposure with a delay of up to 30 days over a 2-year follow-up period (FB\_PE)

DPD 31-60, DPD 61-90

Stage 3: DPD 0-90 - when the claim is in default even though there is no delay over 90 days

DPD 91-120, DPD 121-150, DPD 151-180, DPD 181-360, DPD above 360

Restructured exposure with a delay of up to 30 days over a 1-year follow-up period (FB\_NPE)

For the purposes of capturing the LGD parameter, the ECL calculation model also uses a breakdown of secured and unsecured exposures, currencies, and number of quarters since entering the default status.

The Group/Bank uses the aggregate method to calculate the expected credit loss of exposures classified in Stage 3 in the case of Retail portfolio (included in Note 14 Loans and receivables from customers), and to calculate the expected credit loss of exposures classified in Stage 1 and Stage 2, and for assets carried at amortized cost which is included in notes 11 Cash, current accounts with banks and balances with Croatian National Bank, 12 Loans and receivables from banks, 14 Loans and receivables from customers, 16 Financial assets measured at amortized cost, and 21 Other financial assets subject to impairment.

After initial recognition financial assets are allocated into one of three stages:

- 1) Stage 1 - performing,
- 2) Stage 2 - performing, but for which significant increase in credit risk was observed since initial recognition,
- 3) Stage 3 - default and other non performing exposures

Performing assets (Stage 1) include all financial assets for which the events and conditions applicable to Stage 2 and Stage 3 do not exist at the reporting date.

A financial asset shows significant increase in credit risk (Stage 2), if in respect of which any of the following triggers exist on the reporting date, without fulfilling any of the conditions for the allocation to the default stage (Stage 3):

- the payment delay 31 to 90 (by introducing materially significant delays this trigger now works on both payment delay counter and the economic counter)
- it is classified as performing forborne,
- based on individual decision, its currency suffered a significant "shock" since the disbursement of the loan and no hedge position exists in respect thereof (CHF) (valid only for retail placements),
- the loan-to-value ratio (LTV) exceeds a predefined rate (at present 125% for secured Retail loans)
- the transaction/client rating exceeds a previously defined value (for cash loans and corporate - rating 8 and 9; for housing loans - rating 7, 8 and 9) or enters a certain range, or has deteriorated compared to historical values and dropped to a predefined level. In the event that the determination of the stage based on the rating is not possible (because the rating category is not available), the following rule is used as a trigger for Stage 2: if in the last 6 months the number of days of delay (DPD) is greater than 10 days, the case in question is determined as Stage 2
- In case there is 3x increase in PD since initial recognition of housing and cash loans and at the same time the rating is 6 and above and due debt greater than EUR 5
- all placements of a client whose at least one placement is classified in Stage 3 (if placements in Stage 3 are in the status of default due to objective criteria, and their balance sheet exposure is less than 20% of the total balance sheet exposure of the client, then all other placements are in Stage 2)
- exposure is marked as a watch-list (non retail)

## Notes to the financial statements (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.12 Loss allowance of financial assets (continued)

##### Loss allowance of financial assets measured at amortised cost (continued)

##### Definition and calculation method of expected credit losses for each stage (continued)

- In case there is significant change in macroeconomic environment and it results in significant increase in the lifetime credit risk, the OTP Bank's HQ Group Reserve Committee has the right to request transfer of affected loans / portfolios to stage 2 which is approved in coordination between OTP Bank Nyrt and management of Group/Bank,
- In case it is determined in the post-controls of approved loans that there was no adequate credit capabilities, the exposure can be considered as increased credit risk, which is why it is classified in Stage 2.

A financial asset is default (Stage 3) if following conditions for allocation of exposure into default are met:

- objective criterion: consecutive DPD 90+ with material credit obligation;
- probability criterion: the analysis of the probability that the obligor getting unable to pay its credit obligations in full (criteria of "unlikely to pay", i.e. UTP);
- distressed restructuring and forbore exposure classified as NPL where the existence of UTP criteria is identified, or there is a significant NPV loss (1%) compared to the original cash flows subsequent to the restructuring measure;
- all placements of a client whose at least one placement is classified in Stage 3 (if placements in Stage 3 are in the status of default due to objective criteria, and their balance sheet exposure exceeds 20% of the total balance sheet exposure of the client, then all other placements are in Stage 3);
- the new exposure of the obligor has to be qualified as default if obligor's previously defaulted exposure has been sold or written off.

##### Purchased or originated credit impaired asset (POCI) assessment

Purchased or originated credit impaired asset is credit impaired at initial recognition.

At every reporting date, the Group/Bank recognizes cumulative change in lifetime expected credit losses as loss allowance gain or loss in profit and loss account. If credit loss for POCI asset decreases after initial recognition, Group/Bank recognizes loss allowance gain. If credit loss for POCI asset increases after initial recognition, Group/Bank recognizes loss allowance loss.

##### Loss allowance of financial asset measured at fair value through other comprehensive income

At each reporting date, the Group/Bank reassesses all financial instruments in the scope of impairment to determine if objective evidence of impairment exists. Expected credit loss definition per each stage, significant increase in credit risk identification and expected credit loss calculation methodology is identical to rules implemented for portfolio of financial assets measured at amortised cost.

##### Loss allowance of financial assets reclassified from off-balance sheet records

In the ordinary course of business, the Group/Bank assumes contingent liabilities related to guarantees, letters of credit and undrawn loan commitments. Contingent liabilities are subject to the calculation of expected credit losses in accordance with the requirement of IFRS 9. When these assets become payable, they are reclassified to assets carried at amortized cost and the calculation of expected credit losses, identification of significant credit risk and loss allowance is carried out according to the rules for assets carried at amortized cost.

##### Loss allowance of financial assets not covered by IFRS 16 and IFRS 15

All financial assets within the scope of IFRS 15 (assets) and IFRS 16 (leases), which are not subject to impairment under IFRS 16 and IFRS 15, are subject to impairment according to IFRS 9 requirements.

## Notes to the financial statements (continued)

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.13. Derivative financial instruments

The Group/Bank uses derivative financial instruments to hedge economically its exposure to foreign exchange and interest rate risks arising from its operational, financing and investing activities.

In accordance with its treasury policy, the Group/Bank does not hold or issue derivative financial instruments for speculative trading purposes. Derivative financial instruments are classified within financial instruments that are carried at fair value through profit or loss as financial instruments held for trading or as derivative financial instruments that are preferred for the risk management purposes.

Derivative financial instruments, including foreign exchange contracts, currency forward agreements and cross-currency swaps, are recognised initially in the statement of financial position and subsequently re-measured at their fair value. The fair values are obtained from quoted market prices or discounted cash flow models as appropriate. All derivative financial instruments are recognized as assets if their fair value is positive, i.e. as liabilities if their fair value is negative in the position Net (losses)/gains from valuation of financial assets measured through profit or loss (Note 5a).

Interest income and expense on interest-bearing derivative financial instruments and on non-interest-bearing derivative financial instruments that are kept in the bank's book are shown in the position Net interest income (Note 3). Interest income and expense on non-interest-bearing derivative financial instruments that are kept in the trading book are shown in the position Net (losses)/gains from valuation of financial instruments at fair value through profit or loss (Note 5a).

#### 1.14. Hedging accounting

The Group/Bank uses hedge accounting to manage the interest rate risk in the banking book.

The Group/Bank applies fair value hedge accounting at the level of a group of financial assets and hedge accounting for individual financial assets with a fixed yield. The group of financial assets as a hedged item is associated with portfolio of housing loans with a fixed interest rate denominated in euros. Individual financial assets as a hedged item are government bonds with a fixed coupon denominated in euros.

The fair value hedging instrument is a derivative financial instrument - interest rate swap agreement.

At the inception of a hedge relationship, the Group/Bank formally designates and documents the hedge relationship to which the Group/Bank wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the Group/Bank will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged items fair value or cash flows attributable to the hedged risk. The Group/Bank assesses the fulfillment of hedge effectiveness requirements on a monthly basis in order to determine the effectiveness of the hedging relationship between the hedged item and the hedging instrument.

In the case of financial assets that is measured at amortized cost, the profit or loss from the hedged item that can be attributed to the risk against which the hedge is provided is adjusted to the book value of the hedged item and recognized in the statement of profit or loss. These adjustments are amortized in the statement of profit or loss using the effective interest rate method. Amortization begins at the moment when the hedged item ceases to be adjusted for the effects arising from the risk against which protection is provided. If the instrument is derecognised, the remaining unamortized amount is immediately recognized in its entirety in the statement of profit or loss.

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.15. Tangible and intangible assets

Tangible and intangible assets are stated at cost less accumulated depreciation/amortisation and impairment loss, if any. Land and assets under development are not depreciated.

Depreciation and amortisation are provided for all assets, except for land and assets under construction, under the straight line method at rates estimated to write down the cost of each asset to its residual value over the estimated useful life, which is as follows:

|                             | 2024                           | 2023                           |
|-----------------------------|--------------------------------|--------------------------------|
| <b>Tangible assets</b>      |                                |                                |
| Buildings                   | 33-40 years                    | 33-40 years                    |
| Computers                   | 4-5 years                      | 4-5 years                      |
| Furniture and equipment     | 2,5-10 years                   | 2.5-10 years                   |
| Motor vehicles              | 4-5 years                      | 4-5 years                      |
| <b>Intangible assets</b>    |                                |                                |
| Investment in leased assets | according to the years of rent | according to the years of rent |
| Software                    | 3-5 years                      | 3-5 years                      |
| Contracts with customers    | 5 years                        | 5 years                        |

The Group/Bank depreciates buildings for which the value cannot be divided into components at a uniform rate, because it is not possible to estimate the value of each individual component.

The residual value of the asset, the depreciation method and estimated useful lives are reviewed at each reporting date and adjusted if necessary. Where the carrying amount of an asset exceeds its estimated recoverable amount, it is written down to the recoverable amount.

Gains and losses on the sale of property and equipment are determined as the difference between the amount charged and the carrying amount and are included in the statement of profit or loss. In the carrying amount of property and equipment the Group/Bank includes the cost of replacing the part of an item when such cost arises if it is probable that the Group/Bank will have future economic benefits contained in that item and if the purchase value of such item can be reliably estimated. All other repair and maintenance costs are recognized as incurred.

#### 1.16. Impairment of tangible and intangible assets

Assets that have an indefinite useful life, such as goodwill, are not subject to amortisation and are tested for impairment at least annually. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Intangible assets that are not yet available for use are assessed at each reporting date. Impairment losses are recognised whenever the carrying amount of an asset exceeds the asset's recoverable amount. Impairment losses are recognised in the statement of comprehensive income. An impairment loss is recognized in all cases where the carrying amount of an asset is greater than its recoverable amount.

The recoverable amount of property and equipment and of intangible assets is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest level for which there is separately identifiable cash inflows (cash-generating units). In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

Non-financial assets that have suffered an impairment loss are reviewed for possible reversal of the loss at each reporting date. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of accumulated depreciation or amortisation, if no impairment loss had been recognised.

---

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.17. Investment property

Investments into property are carried at cost less accumulated depreciation and impairment losses. These investments include those investments held for the purpose of earning rent or increasing their market value, but not those held for sale. Investments are depreciated on a straight-line basis at prescribed rates, which write off the acquisition cost over the estimated useful life. The useful life and the residual value are checked and adjusted as necessary at each reporting date. Transfers to and from real estate investments are made when a change of property occurs, which is manifested upon termination or commencement of use by the owner. Investments are derecognized upon disposal or upon final retirement or when no future benefits are expected from disposal. Gains or losses on withdrawal or disposal are recognized in the profit and loss account in the period of withdrawal or disposal.

#### 1.18. Non-current assets held for sale

Assets that are expected to be offset primarily by sale rather than continued use are classified as held for sale. The following conditions must be fulfilled:

the property must be available for sale in its existing condition; its sale must be highly probable; as expected and planned sale must occur within one year from the date of classification.

Prior to being classified as held for sale, assets are measured in accordance with the accounting policies of the Group/Bank, after which they are measured at the lower of cost or fair value less costs to sell, whichever is lower. Non-current assets classified as held for sale are not depreciated. At the time of reclassification, when a change of intention or when the conditions required by IFRS 5 are no longer met, the Group/Bank does not restate the comparative information in the Statement of financial position. In the case of reclassification, the valuation is adjusted in accordance with the relevant standards, as if no reclassification had taken place.

#### 1.19. Investment in subsidiaries

Subsidiaries are entities controlled by the Group. Investments in subsidiaries are carried at cost decrease for any impairment losses in the Bank's financial statements.

#### 1.20. Current accounts and deposits from banks and customers

Current accounts and deposits are measured initially at fair value plus transaction costs and subsequently at amortised cost using the effective interest method.

The definition of the calculation of expected credit losses for each stage, the identification of significant credit risk, and the manner of determining the loss allowance for expected credit losses are consistent with the rules for the portfolio of financial assets carried at amortized cost.

#### 1.21. Other financial liabilities

Other financial liabilities include other borrowed funds (interest-bearing loans) that are initially recognized at fair value, decreased for the relating transaction costs incurred. Subsequent measurement is carried at amortized cost and any difference between the proceeds (decreased for transaction costs) and the amount payable on maturity is recognized in the income statement over the loan period using the effective interest method.

Other financial liabilities include all financial liabilities that are not held for trading or are not predetermined to be stated at fair value through profit or loss. Other financial liabilities include liabilities to other banks, liabilities to customers and other borrowed funds.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.22. Provisions

The Group/Bank recognises a provision when it has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation. The Management Board determines the adequacy of the provision based by analysing individual items, past loss experience, considering the current economic conditions, the risk characteristics of the various categories of transactions and other pertinent factors at the reporting date. Provisions are discounted to present value where the effect is material.

Restructuring provision are recognized if the Group/Bank has made formal restructuring plan and if initiation of the plan or publishing their main features among those affected with the plan has initiated reasonable expectation that restructuring will be performed. Only direct restructuring costs are included in determining the amount of restructuring provisions, and these are costs that are necessarily related to the restructuring but are not related to the entity's current operations.

#### 1.23. Off-balance sheet commitments

In the ordinary course of business, the Group/Bank enters into credit related commitments which are recorded in off-balance-sheet records and primarily include guarantees, letters of credit and undrawn loan commitments and global lines, potential liabilities for factoring operations and potential liabilities for leasing operations. Such financial commitments are included in the Group/Bank's statement of financial position if and when they become payable.

The definition of the calculation of expected credit losses for each stage, the identification of significant credit risk, and the manner of determining the impairment are consistent with the rules for the portfolio of financial assets that are carried at amortized cost. In the aggregate method, the Group/Bank uses an internal IFRS 9 model to calculate expected credit losses using PD (probability of default), LGD (loss given default) and EAD (exposure at default); 100% credit conversion factor applies to off-balance sheet contingent liabilities) impairment parameters. Please see Note 1.12 for more details.

#### 1.24. Asset managed on behalf of third parties

The Group/Bank manages assets on the behalf of corporate entities and individuals. The mentioned assets do not form part of the assets of the Group/Bank and are therefore excluded from the financial position report. More details are shown in Note 37. The Group/Bank recognizes fees for such services as income when earned and reports it under Other operating income (Note 6).

#### 1.25. Share capital

Share capital represents the nominal value of paid-in ordinary shares classified as equity and is denominated in Croatian euros.

Dividends are recognised as a liability in the period in which they are declared.

#### 1.26. Retained earnings

Any profit for the year that is not allocated to dividends and reserves are kept as retained earnings.

### 1. ACCOUNTING POLICIES (CONTINUED)

#### 1.27. Reclassification of comparative periods

In 2024, the Group/Bank carried out reclassifications in its financial statements in order to comply with the policy of OTP Bank Nyrt.:

- Reclassification of interest income on interest-bearing derivatives and non-interest-bearing derivatives that are kept in the Bank's book from the note Net (losses)/gains from the valuation of financial instruments at fair value through profit or loss to the note Interest income
- Reclassification of interest expense on interest-bearing derivatives and non-interest-bearing derivatives that are kept in the Bank's book from the note Net (losses)/gains from the valuation of financial instruments at fair value through profit or loss to the note Interest expense

#### Group

### 2. ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

The Group/Bank makes certain judgments and estimates about uncertain events, including estimates and judgments concerning the future. Such accounting estimates and judgments are regularly reviewed and are based on past experience and other factors, such as the reasonably expected course of future events under given circumstances, but which nevertheless represent sources of uncertainty. The estimation of impairment losses in the Group/Bank's credit risk portfolio represents the most significant source of estimation uncertainty. The risk as well as other key sources of estimation uncertainty with a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are described below.

#### **Loss allowance for expected credit losses on financial assets that is subject to impairment, including requirements in accordance with the Decision on the classification of exposures into risk categories and the method of determining credit losses (OG 114/2017, 110/2018 and 139/2022) and IFRS 9**

Group/Bank continuously monitors credit worthiness of its customers. In accordance with regulation, impairment of on-balance and off-balance exposures to credit risk is assessed at least quarterly.

Expected credit losses are recognized as a decrease of the net book value of: current accounts with banks (presented in Note 11), loans and receivables from banks and other customers (presented in Notes 12 and 14), impairment for financial assets measured at amortised cost (presented in Note 16), receivables from other financial assets measured at amortized cost (presented in Note 21), impairment losses for assets measured at fair value through other comprehensive income (presented in Note 15). Loss allowance for risks and costs resulting from potential liabilities, loan commitments, mostly in form of granted unused credit lines, guarantees, letters of credit and unused credit card limits (presented in Note 29) are recognized as a provision (presented in Note 26).

The estimate of expected credit losses represents the best estimate of the risk of default and expected credit losses (ECL) on financial assets, and all off-balance sheet exposures, on the reporting date, and as a part of this, the fair value estimation of collateral in real estate is the main source of estimation uncertainty. This and other key sources of estimation uncertainty have a significant risk of causing possible significant adjustments to the carrying amounts of assets and liabilities in the next financial year.

Expected credit loss is present value of difference between contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive. For lifetime expected credit losses, an entity shall estimate the risk of a default occurring on the financial instrument during its expected life. 12-month expected credit losses are a portion of the lifetime expected credit losses and represent the lifetime cash shortfalls that will result if a default occurs in the 12 months after the reporting date (or a shorter period if the expected life of a financial instrument is less than 12 months), weighted by the probability of that default occurring.

For calculation of expected credit losses Group/Bank uses internal model in accordance with IFRS 9 applying PD (probability of default), LGD (loss given default) and EAD (exposure at default) as impairment parameters. Risk parameters also depend on macroeconomic scenarios. Expected loss (EL) is calculated separately for each scenario and final expected loss (EL) assessment is weighted average of expected loss in cases of multiple scenarios. Model calculation is performed monthly. Basic assumption in the model is credit segmentation based on client type (sovereign, banks, corporate, retail). These parameters for calculating expected credit losses are usually estimated once a year.

In November 2023, the parameters were adjusted due to new economic trends on the domestic and international market in 2023. Based on the above, the previously expected GDP growth for 2024 was reduced, which resulted in PL growth.

When determining expected credit losses that are known to exist on reporting date, but that are not separately identified, Group/Bank uses internal model in accordance with IFRS 9.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

### **2. ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES (CONTINUED)**

#### **Taxation**

The Group/Bank determines its tax liabilities in accordance with the tax legislation of the Republic of Croatia. Tax returns are subject to the approval of the Tax Administration, which may perform subsequent tax audits of taxpayers' records. The tax calculation and estimates are presented in Note 10.

#### **Litigation and restructuring costs**

The Bank makes provisions for litigation and restructuring costs in accordance with IAS 37. Provisions are recognized when the Group/Bank has a present obligation as a result of past events and for which the Group/Bank is aware that they have been incurred, and if it is probable that an outflow of resources containing economic benefits will be required to settle the liabilities and if the amount of the liabilities can be measured reliably. Provisions are reduced only for those expenses for which provisions are initially recognized. If an outflow of economic benefits to settle the obligation is no longer probable, provisions are reversed.

When forming provisions for litigation, the Group/Bank also takes into account all the criteria laid down in the Decision of the Croatian National Bank on the obligation to make provisions for litigation conducted against a credit institution. The amount of such formed provisions does not deviate from the amount estimated in accordance with IAS 37.

In the ordinary course of business, several lawsuits and complaints have been filed against the Group/Bank, the outcome of which is uncertain.

According to the Management's estimate, the provisions formed are sufficient to cover the costs of active litigation and restructuring costs.

Estimates for litigation, restructuring costs and provisions for disputes related to loans in Swiss francs are presented in note 26 Provisions for liabilities and charges.

#### **Impairment of non-financial assets**

The residual value, the depreciation method and the useful life of an assets are reviewed at least at each financial year-end and adjusted if appropriate. The net carrying amount of a non-financial asset is reduced to its recoverable amount if the asset's net carrying amount is greater than its estimated recoverable amount.

For details see accounting policies Notes 1.16 to 1.19.

#### **Impairment of investments in subsidiaries**

Once a year, the Bank reviews investments in subsidiaries in order to determine possible impairment.

The Bank applies adequate methods in testing the impairment of investments in subsidiaries. Supported by the valuations performed, the carrying value of investments in subsidiaries is recoverable.

#### **Fair value measurement**

The fair values of quoted securities are based on current closing bid prices. If the market for a financial asset is not active (and for unlisted securities), or if, for any other reason, the fair value cannot be reliably measured by market price, the Group/Bank determines the fair value using valuation techniques. These include the use of prices achieved in recent arm's length transactions between knowledgeable and willing parties, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models, making maximum use of market inputs and relying as little as possible on entity-specific inputs. Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate.

The fair value of non-traded derivatives is estimated at the amount that the Group/Bank would receive or pay to terminate the contract at the statement of financial position date, taking into account current market conditions and the current creditworthiness of the counterparties. For details please accounting policies Note 1.11 Financial instruments.

The fair value of investment property is measured using appraisals performed by an external independent appraiser.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

(All amounts are expressed in millions of EUR)

### 3. NET INTEREST INCOME

|  | <b>132.0</b> | <b>156.6</b> | <b>113.9</b> | <b>144.7</b> |

The Group's interest income for 2024 amounts to EUR 8.1 million (2023: EUR 8.7 million) and the Bank's interest income for 2024 amounts to EUR 8.1 million (2023: EUR 8.4 million), which refer to the interest income charged on the assets which were previously impaired as Stage 3.

Deferred interest loan origination fees are recognized in interest income as an adjustment to the effective interest income. The total amount of these fees in the Group's interest income in 2024 amounts to EUR 6.7 million (2023: EUR 6.4 million) and in the Bank's interest income in 2024 amounts to EUR 5.4 million (2023: EUR 5.4 million).

Penalty interest calculated on loans and receivables from customers is shown in other operating income (Note 6).

Interest income is recognized as a point in time in accordance with IFRS 15.

### 4. NET FEE AND COMMISSION INCOME

#### a) Net fee and commission income – analysis by source

|  |    | <b>4.8</b> | <b>(6.0)</b>  | <b>5.0</b> | <b>(7.6)</b> |

From the total loss allowance for expected credit losses, total gain/loss classified by Stages amounts to:

- The Group – on Stage 1 and Stage 2 gain in the amount of EUR 9.5 million (2023: loss of EUR 9.1 million), on Stage 3 gain in amount of EUR 6.3 million (2023: gain of EUR million).
- The Bank - on Stage 1 and Stage 2 gain in the amount of EUR 9.3 million (2023: loss of EUR 9.9 million), on Stage 3 gain in amount of EUR 6.6 million (2023: gain of EUR 6.5 million).

In accordance with the Decision of the HNB, in the event of default and when the assessment of future cash flows is based on the value of adequate security instruments, and appropriate legal actions have not been taken for the purpose of collection of claims through the realization of security instruments, the Bank classifies such exposures in the risk subcategory B-1 or worse subcategory and carries out a corresponding impairment in the amount of at least 15% of the exposure. If appropriate legal actions have not been taken to collect claims by implementing adequate security instruments within one year from the date of default of a debtor, a reduction in value of at least 25% of the exposure is made. This condition does not apply in cases where there is no legal basis for initiating legal actions. Regardless of the legal actions taken for the purpose of collection of claims through the realization of the security instrument, if no collection occurs two years from the date of non-fulfillment of the debtor's obligations, the Bank will classify unpaid exposures until the date of their collection into risk subcategory B-1 or a worse subcategory and, taking taking into account the probability of collection, carry out a reduction in the value of at least 30% of the receivables based on the principal, and every 180 days increase it by an additional 5% of the receivables based on the principal. Quantitative effect of the overlay described above in 2024 amounts to EUR 0.5 million for the Bank/Group (2023: EUR 1.49 million).

|                                  | <u>35.1</u> | <u>30.8</u>   | <u>33,7</u> | <u>29.6</u>  |

#### Global Minimum Corporate Tax

The global minimum tax legislation has been enacted, or substantively enacted, in certain jurisdictions the OTP Group operates, generally in the EU Member States. The legislation is effective for the Group's financial year beginning 1 January 2024 and introduces a minimum rate of effective taxation of 15%.

The OTP Group is in scope of the enacted or substantively enacted legislation including its constituent entities resident in Croatia, thus, among them, OTP banka d.d. and its related companies in respect of financial year beginning 1 January 2024. The global minimum tax legislation (Pillar Two) has been adopted in Croatia in the Global Minimum Tax Act.

From an accounting perspective, it was unclear if the global minimum rules create additional temporary differences, whether to remeasure deferred taxes for the global minimum tax rules and which tax rate to use to measure deferred taxes. In response to this uncertainty, IAS 12 'Income taxes' has been amended to introduce a mandatory temporary exception to the requirements of IAS 12. Under the mandatory temporary exception, a company does not recognize or disclose information about deferred tax assets and liabilities related to the global minimum tax rules. The Group applied the temporary exception for the year ended 31 December 2023 and 31 December 2024.

The Bank together with the constituent entities resident in Croatia has performed an assessment of its potential exposure to the top-up tax under the global minimum tax rules (the parent company prepared the calculation based on the data provided by the Group OTP bank in Croatia). The assessment is based on the most recent information available regarding the financial performance of the constituent entities in Croatia. Based on the assessment, potential exposure to top-up tax has not been identified in respect of the profits earned by the constituent entities resident in Croatia, because had the global minimum tax legislation been effective for the current year the expected global minimum tax effective tax rate would have exceeded 15%. Taking into account the information available or reasonably estimated as of December 31, 2024 and the still existing ambiguities in interpretation, also the permission to use the transitional safe harbor, the global minimum tax exposure of the OTP banka Group in Croatia, should be considered as "insignificant".

Visa Inc. was obliged to partially convert the preferred share of Visa International Series C into Visa Series A tradeable shares. In this context, on 19 July 2024, VISA Inc reduced the conversion factor for Visa Series C preferred shares from 3,605 to 1,786, while each holder of a share of preferred stock will receive a number of shares of Series A preferred stock equal to the applicable conversion adjustment divided by 100. The Bank classified the Series A preferred stock as Financial assets at fair value through other comprehensive income (Note 15).

Derivative financial instruments held for trading allow the Bank and its clients to transfer, modify or reduce the currency and / or interest rate risk. In addition to standard currency derivative financial instruments (primarily forwards) used to manage currency risk, the Bank also contracts interest rate swaps to minimize the risk of interest rate fluctuations. All derivative financial instruments have been agreed on the OTC market.

**Hedge accounting**

Prior to application of hedge accounting, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the Group will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged items fair value or cash flows attributable to the hedged risk.

The Bank applies the hedge accounting to manage the interest rate risk in the banking book related to fixed income financial assets. During 2023, the Bank started applying fair value hedge accounting at the level of a group of financial assets and hedge accounting for individual financial assets with a fixed yield in accordance with internal limits and interest rate risk management procedures in the bank's book.

Individual financial assets as a hedged item are government bonds with a fixed coupon denominated in euros classified as financial assets measured at amortized cost and government bond measured at fair value through other comprehensive income, while the group of financial assets as a hedged item is associated with portfolio of housing loans with a fixed interest rate denominated in euros. The fair value hedging instrument is a derivative financial instrument - interest rate swap agreement.

## Notes to the financial statements (continued)

### 13. FINANCIAL ASSET AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS (CONTINUED)

#### Hedge accounting (continued)

The economic relationship between the hedged item and the hedging instrument is defined by the approximate matching of the following conditions:

- nominal amount and currency of the hedged item and hedging instrument,
- the maturity date of the contract of the hedged item and hedging instrument,
- dates of interest inflows and outflows for the hedged item and hedging instrument,
- the date of repayment and amortization of the nominal value of the hedged item and hedging instrument.

The Bank establishes hedge ratios by aligning the fair value of the fixed-rate loan or bond and the fair value of the interest rate swap designated as a hedging instrument and their fair value sensitivity. When hedging individual items of financial assets, the amount of hedged items is equal to the amount of hedging instruments. In the case of protection of a group of financial assets, the Bank uses internal models based on historical data to estimate potential early loan repayments and forced collection in case of default by the debtor, and projects the amount of the protected item within the entire portfolio to be protected that is defined in each individual hedge accounting document.

Fair value hedge accounting protects the Bank only and exclusively from the risk of changes in market interest rates. During the economic life of hedge accounting, the Bank conducts hedge efficiency tests on a monthly basis based on a pre-documented and defined procedure. The hedging efficiency test is carried out by scenario analysis of the relationship between the value of the hedged item and the hedging instrument in the event of a change in interest rates. The priority of hedging effectiveness, along with the quantitative ratio of value changes based on scenario analysis, is the opposite economic effect of a change in the value of the hedged item and a change in the value of the hedging instrument on the account of the Bank's profit or loss. By analyzing the effectiveness of hedging, the Bank assesses, on the basis of internally defined documents and procedures, the acceptable ineffectiveness of hedging resulting from the impossibility of perfect matching of cash flows from hedged items and hedging instruments, and to a lesser and materially insignificant extent, differences in the application of interest calculation conventions. If the economic effectiveness of the hedge is absent or the hedge is not materially significant at the level of the individual item and the related hedge instrument, hedge accounting ceases and unrealized effects are recognized in the Bank's profit or loss account.

Given that only the Bank within the OTP Group applies hedge accounting, the tables below show data only for the Bank

#### Derivative financial assets held for hedge accounting - notional amounts

|               | Bank<br>2024 | Bank<br>2023 |

| Loss allowance for expected credit losses   | (234.5)        | (283.8)        | (229.7)        | (278.7)        |
|   | <b>6,524.1</b> | <b>5,790.2</b> | <b>5,992.1</b> | <b>5,332.0</b> |

Currency clause nominees include currency clause loans linked to the exchange rate of the Swiss franc (CHF) and the US dollar (USD). Repayments of the principal and interest of these loans are determined in foreign currency, and payment is made in the euro equivalent at the exchange rate on the day of payment.

Deferred income from loan origination fees included in gross loans and receivables for the Group amounts to EUR 6.9 (2023: EUR 5.9 million), while for the Bank it amounts to EUR 4.5 million (2023: EUR 4.2 million).

The Group/Bank applies fair value hedge accounting for a portfolio of housing loans with a fixed interest rate denominated in euros. As at 31 December 2024, the book value of loans as hedged items amounted to EUR 360.9 million (2023: EUR 50.6 million). Further details in Note 13.

Overview of the Bank's investments in equity securities with a breakdown of listed and unlisted securities on 31 December 2024 and 2023 is given below.

| Company name                                 | Type of investment | Listed/unlisted |
|--|--------------------|-----------------|
| VISA International (Series A)                | Preferential share | listed          |
| VISA International (Series C)                | Preferential share | listed          |
| Zagrebačka burza d.d.                        | Ordinary share     | listed          |
| Hrvatski nogometni klub Hajduk Split š.d.d.  | Ordinary share     | unlisted        |
| Hrvatski registar obveza po kreditima d.o.o. | Investment in ltd. | unlisted        |
| Istarska autocesta d.o.o.                    | Investment in ltd. | unlisted        |
| Središnje klirinško depozitarno društvo d.d. | Ordinary share     | unlisted        |
| SWIFT-Fortis Bank                            | Preferential share | unlisted        |

This note includes equity securities that are not held for trading nor are acquired through acquisitions to which IFRS 3 applies. In accordance with OTP Bank Nyrt policies, they are held at fair value through other comprehensive income – the option of fair value through other comprehensive income.

Securities are divided on listed and unlisted. This type of assets is valued through an internal model for calculating the fair value of unlisted equity securities that are not listed on the financial market and for which there is no market or published price. Given the portfolio that the Bank has and the motive for its presence in the Bank's balance sheet, the most appropriate valuation method (internal model) is the residual income method.

Residual income is recognized as net income less opportunity costs incurred, in this case, by owning a stake in a particular economic entity. From the position of the economic entity (the company) it is the residual, part of the income after the calculation of the cost of capital of the company.

Other listed equity securities for which fair value can be measured reliably are held at fair value through other comprehensive income – the option of fair value through other comprehensive income. The equity shares valuation method is explained in Note 38.

The impact of changes in fair value through other comprehensive income is disclosed in Note 28.

The Bank received dividends of EUR 0.2 million from VISA International in 2024 (2023: EUR 0.2 million). The equity ownership in VISA International is listed.

For other equity securities presented in Note 15, the Bank did not receive a dividend in 2023 and 2024.

In financial assets measured at amortized cost, the Bank classifies debt securities that it intends to hold for collection, and which have met the requirements of the SPPI test.

The bonds of the Republic of Croatia in 2024 and 2023 include long-term euro bonds.

In 2024 and 2023 foreign bonds include long-term euro bonds of Slovakia.

Corporate bonds and bills of exchange in 2024 and 2023 are denominated in euros.

The SPPI test is performed on each individual instrument (securities).

The Group/Bank applies fair value hedge accounting for government bonds with a fixed coupon denominated in euros. The book value of these bonds on 31 December 2024 amounted to EUR 212.5 million (2023: EUR 133.4 million). Further details in Note 13.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

(All amounts are expressed in millions of EUR)

### 18. PROPERTY AND EQUIPMENT (CONTINUED)

#### Assets recognised in accordance with IAS 16 (continued)

##### Group (continued)

The Group did not pledge any property as collateral for borrowings.

The Group's real estate and equipment includes assets given in operating lease with a net book value of EUR 25.9 million (2023: EUR 26.5 million).

The total fair value of the land and building is EUR 74.5 million (2023: EUR 64.0 million). Fair value amounts are measured by independent up-to-date estimates by an external appraiser.

Investment property includes real estate not used by the Group for operational purposes, but assets intended for sale or lease. The Group shall reclassify the assets it intends to sell in accordance with IFRS 5 when all of the requirements prescribed by said IFRS are met. Assets intended for sale are presented in Note 22. The total fair value of investment property is EUR 87.8 million (2023: EUR 39.2 million). Fair value is measured by independent up-to-date assessments of external appraisers.

In August 2024, OTP Nekretnine acquired 100% ownership in Zagrebtower d.o.o. The fair value of the land and real estate on the acquisition date was EUR 51.5 million.

Investment property includes real estate not used by the Bank for operational purposes, but assets intended for sale or lease. The Bank shall reclassify the assets it intends to sell in accordance with IFRS 5 when all of the requirements prescribed by said IFRS are met. The total fair value of investment property is EUR 16.7 million (2023: EUR 16.2 million). Fair value is measured by independent up-to-date assessments of external appraisers.

The fair value of investment property is measured using appraisals obtained from an independent external appraiser. Real estate that is no longer used for business purposes (due to closure of branches or closure of other business premises) is recognized by the Bank in accordance with IAS 40 and accordingly reclassified from assets that were recognized according to IAS 16.

### 22. ASSETS HELD FOR SALE

When conditions for sale are met, the Group and the Bank reclassifies assets acquired in the course of collection to assets held for sale in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations.

The bank still has 81.7% of the shares in OTP Invest d.o.o. but due to the conditions that occurred in 2024, investment is reclassified from Investment in subsidiaries (Note 17) to Assets held for sale (Note 22). Additional details are provided in Note 17.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

### 26. PROVISIONS FOR LIABILITIES AND CHARGES (CONTINUED)

Litigation provision related to legal actions against the Group, i.e. where the Group is the defendant, amount to EUR 51.9 million (2023: EUR 47.4 million) and for the Banka amount to EUR 51.2 million (2023: EUR 46.9 million).

Provisions for litigation are calculated in accordance with IAS 37 (Note 1.22 and Note 2).

When forming provisions for litigation, the Bank also takes into account all criteria prescribed by the CNB's Decision on the obligation to make provisions for litigations conducted against a credit institution. The amount of such formed provisions does not deviate from the amount estimated in accordance with IAS 37.

#### ***Provisions for legal cases for loans in Swiss francs:***

Provisions for legal cases regarding the CHF loans are presented within the litigation provisions and amount to EUR 30.8 million (2023: EUR 27.9 million).

In relation to CHF cases, the Group/Bank acts in a way that provisions for the sued unconverted cases are allocated according to the sued amount (VPS) upon receipt of the lawsuit, including legal penalty interest and costs in total amount. For court cases for converted CHF loans, provisions are based on model that takes into consideration outcomes of individual cases, but also estimations that are based on total number of active cases, average total value of the lawsuit (including legal penalty interest and connected costs), share of lost cases in relation to all closed cases and percentage of payout in relation to total value of the case.

The provisions recognised in the financial statements are measured using all currently available information and historical data from up to now closed cases and represent the best estimate of the obligations in light of significant uncertainties related to their timing and amount.

In September 2019 the Supreme Court of the Republic of Croatia made a ruling, which to a large extent confirms the earlier ruling of the High Commercial Court of the Republic of Croatia dated June 2018 in the case of protection of collective interest and rights of the consumers who had taken loans with principals indexed to Swiss franc (Ruling No. Rev- 2221/2018- 11 of the Supreme Court of the Republic of Croatia, hereinafter referred to as "the Ruling").

In February 2021 the Constitutional Court rejected the lawsuits of seven Croatian banks filed against the judgments of the Supreme Court of the Republic of Croatia and High Commercial Court of the Republic of Croatia in a collective dispute initiated by the Consumers Association over unfair provisions related to the Swiss francs. In December 2022, the Supreme Court adopted a legal understanding that, in relation to converted loans, the Court confirms that the conversion has also carried out full restitution in relation to these clients, and that the consumer has the right to payment the associated default interest on overpaid amounts charged to it by the bank when calculating the loan conversion in accordance with Article 19.c of the Act on Consumer Credit calculated in accordance with Article 1115 of the Civil Obligations Act from the day of each individual payment to the day of the conversion. However, the legal interpretation did not enter into force, so it did not become binding both for the lower courts and for the VSRH itself.

On 14 June 2023, the statute of limitations began in relation to claims based on the currency clause in CHF, as a result of the lapse of a period of 5 years from the final judgment of the High Commercial Court (VTS) by which the currency clause in CHF was determined to be null and void.

On July 11, 2024, the Court of the EU issued a judgment in the combined cases C-554/21, C-622/21 and C-727/21 regarding the request for a preliminary decision related to the function of recorders in second-instance courts and binding legal understandings of the session of the department or all judges of the court, and it was confirmed that only the judicial panel deciding the case can decide on the outcome and that no one else can interfere in that decision. The decision in question has a significant impact on court proceedings and on the function of court records in general. The decision of the EU Court confirmed that legal understanding cannot be a source of law and does not produce legal effects.

During 2024, after the above-mentioned judgment of the EU Court, the Supreme Court issued several different judgments in cases with comparable facts. The rendered judgments mostly ruled in favor of the banks, i.e. in accordance with the earlier position (that is, the legal understanding that did not enter into force) of the Supreme Court that the conversion also carried out restitution, while one case was sent back to the lower court for re-decision.

Possible liabilities of the Group/Bank arising from the decisions of competent courts related to the existing individual consumer claims are considered contingent liabilities.

In accordance with the provisions of paragraph 92 of IAS 37, additional information on contingent liabilities has not been disclosed as their disclosure may seriously prejudice the outcome of the aforementioned legal proceedings and the Group/Bank's position in them.

Provisions for severance and retention payments in the amount of EUR 13.0 million (2023: EUR 1.7 million) include provisions for:

- liabilities for employees based on restructuring – EUR 11.3 million (2023: EUR 0.2 million)
- liabilities for severance and jubilee awards – EUR 1.7 million (2023: EUR 1.5 million)

The cost of provisions in the amount of EUR 11.3 million were formed in accordance with IAS 37 on the basis of the restructuring plan which includes approximate number of employees included in the plan, expenses to be incurred due to restructuring and time frame for the implementation of the plan, which covers the period until the end of 2027. The Group regularly, on a annual basis, monitors the plan implementation and, in accordance with the current situation, defines the future use of the provided amount.

#### SHARE PREMIUM

The premium on issued shares consists of premiums arising from the issuance of new ordinary shares from previous years in the amount of EUR 22.2 million and from the premiums arising from the purchase of own ordinary shares from previous years in the amount of EUR 0.5 million.

#### RESERVES

|                     | <b>2024</b> | <b>Group<br/>2023</b> | <b>2024</b> | <b>Bank<br/>2023</b> |
|---------------------|-------------|-----------------------|-------------|----------------------|
| Statutory reserves  | 40.6        | 40.6                  | 40.6        | 40.6                 |
| Legal reserves      | 26.9        | 26.9                  | 26.9        | 26.9                 |
| Fair value reserves | 11.2        | 0.8                   | 11.2        | 0.8                  |
| Other reserves      | 0.4         | 0.4                   | 0.4         | 0.4                  |
|                     | <b>79.1</b> | <b>68.7</b>           | <b>79.1</b> | <b>68.7</b>          |

The legal reserve has been formed in accordance with Croatian law, which requires 5% of the profit for the year to be transferred to this reserve until it reaches 5% of the issued share capital.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

(All amounts are expressed in millions of EUR)

### 28. SHAREHOLDERS' EQUITY AND RESERVES

#### RESERVES (CONTINUED)

The legal reserve, in the amount of up to 5% of the issued share capital, can be utilised to cover current and prior year losses. In addition, in accordance with the Bank's Statute, an additional reserve equivalent to the legal reserve has been created in an amount of up to 5% of the share capital for the purpose of covering impairment losses and for the same purposes as the legal reserve. Changes in other reserves are reflected in the Statement of changes in shareholders' equity.

The Bank's other reserves refer to collected funds for bonds of the Republic of Croatia (Big Bonds from 2004).

#### Fair value reserves

|  | 2024        | Group<br>2023 | 2024        | Bank<br>2023 |
|--|-------------|---------------|-------------|--------------|
| Reserve for measuring fair value of financial asset at fair value through other comprehensive income – equity securities | 15.6        | 9.6           | 15.6        | 9.6          |
| Reserve for measuring fair value of financial asset at fair value through other comprehensive income – debt securities   | (4.8)       | (9.6)         | (4.8)       | (9.6)        |
| Expected credit losses on financial asset at fair value through other comprehensive income (Note 15)                     | 0.2         | 0.6           | 0.2         | 0.6          |
| Actuarial gains on provisions for severance pay (Note 28)  | 0.2         | 0.2           | 0.2         | 0.2          |
| <b>Total fair value reserves:</b>  | <b>11.2</b> | <b>0.8</b>    | <b>11.2</b> | <b>0.8</b>   |

Fair value reserve comprises unrealized gains and losses from the change in the fair value of financial assets through other comprehensive income.

Movement in the fair value reserves is as following:

### 32. CAPITAL RISK MANAGEMENT

The Croatian National Bank ("the CNB"), as the Group's / Bank's principal regulator, determines and supervises the capital requirements of the Bank as a whole. The amount of capital allocated to individual operations is based primarily on regulatory requirements. The allocation of capital to specific activities is performed independent of individuals in charge of those activities. Although the maximisation of return on the risk-weighted capital is the key basis used in determining the allocation of capital to the Group's / Bank's individual activities, it is not the only basis in the decision-making process. Synergies with other activities, availability of the Management Board and other resources, as well as the alignment of the activities with the Group's / Bank's long-term strategic goals are also considered. The directors review the Group's / Bank's capital management and allocation policies regularly.

The capital adequacy ratio is determined as the ratio of the regulatory capital to the risk-weighted assets, risk exposures to position risks, settlement / delivery risk, risk for credit adjustment valuation, foreign exchange risk and operational risk.

The Group's regulatory capital amounts to EUR 1,103.4 million (2023: EUR 934.42 millions) and is composed of the Common Equity Tier capital and additional capital. Additional capital amounts to EUR 106.9 million (2023: EUR 60.0 million). The capital adequacy ratio on consolidation level is 18.96% (2023: 18.29%).

The Bank's regulatory capital amounts to EUR 1,088.9 million (2023: EUR 915.94 millions) and is composed of the Common Equity Tier capital and additional capital. Additional capital amounts to EUR 106.9 million (2023: EUR 60.0 million). The capital adequacy ratio of the Bank is 20.67% (2023: 18.45%).

The data provided for the Group and the Bank for 2024 are preliminary unaudited data that will be audited by 31 March 2025.

During 2024, the Group / Bank met and complied with all of the regulatory requirements defining the maintenance of a sufficient level of capital to cover all risks and required capital buffers. The Group / Bank confirmed its strong and stable capital position.

In accordance with Article 92 of Regulation (EU) No. 575/2013, the prescribed minimum capital ratios are the following:

- ✓ ordinary share capital rate in the amount of 4.5% of total risk exposure,
- ✓ share capital rate in the amount of 6% of total risk exposure,
- ✓ total capital rate in the amount of 8% of total risk exposure.

In addition to the minimum capital rates, the Group is on a consolidated basis, and the Bank is on an individual basis, in accordance with Articles 117, 118 and 130 of the Credit Institutions Act and Articles 129, 130 and 133 of the Directive 2013/36/EU, also obliged to comply with the following protective layers of ordinary share capital:

- ✓ a buffer for capital safeguarding in the amount of 2.5% of total risk exposure,
- ✓ a buffer for structural systemic risk in the amount of 1.5% of total risk exposure,
- ✓ a buffer for other systemic important institutions in the amount of 1.5% of the total risk exposure,
- ✓ an institution-specific countercyclical capital buffer in the amount of 1.5% of the total risk exposure,

Credit institutions are required to maintain an institution-specific countercyclical capital buffer equivalent to their total exposure amount calculated in accordance with Article 92 (3) of Regulation (EU) No. 575/2013, multiplied by the weighted average of the countercyclical buffer rates calculated in accordance with Article 140 of the Directive 2013/36/EU. Based on an analytical assessment of the evolution of systemic risks of a cyclical nature, the CNB has determined that the rate of the countercyclical capital buffer is 1.5%.

Based on the CNB Decision, the Bank has been identified as Other Systemically Important Credit Institution (OSI Credit Institution) which is subject to the obligation to maintain a protective layer rate for OSV credit institutions of 1.5% of the total amount of risk exposure in the form of ordinary share capital on a consolidated and individual basis.

The Group's / Bank's regulatory capital and capital rate have been calculated in accordance with the requirements of the European Banking Authority (hereinafter: EBA) and the national discretion of the CNB and are presented in the table below.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

(All amounts are expressed in millions of EUR)

### 33. CREDIT RISK

The Group / Bank is exposed to credit risk, which is the risk that the counterparty will not be able to settle in full the amounts owed as they fall due. The Group / Bank structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to a single borrower, or a group of borrowers and industry segments. The Group / Bank monitors the risks and reviews them on an annual or more frequent basis. The exposure to credit risk for all assets is limited by the carrying amount of each asset reported in the statement of financial position. The exposure to credit risk of derivative financial instruments which relate to foreign currencies is equal to the sum of the positive current market value of the underlying contract and the potential exposure to the counterparty risk. Additionally, the Group / Bank is exposed to credit risk on off-balance-sheet items, which include undrawn commitments to extend credit, issued guarantees and letters of credit.

The Group / Bank manages its exposure to credit risk by regularly analysing the ability of the borrowers and potential borrowers to repay interest and principal and by revising the credit limits, where necessary, or obtaining collateral, corporate or personal guarantees.

| Financial assets measured at amortized cost                      | 16   | 421.5          | 420.2          | 244.1          | 242.3          |
| Other financial assets   | 21   | 29.4           | 22.4           | 22.7           | 15.7           |
|  |      | <b>8,362.6</b> | <b>8,132.9</b> | <b>7,933.5</b> | <b>7,649.3</b> |

Credit risk exposure in net of loss allowance is gross exposure for expected credit losses, without taking into account pledges and other collateral instruments.

The (gross) credit risk exposure for contingent liabilities and commitments (Note 29) is as follows:

|   | Group          |                | Bank           |                |
|---|----------------|----------------|----------------|----------------|
|   | 2024           | 2023           | 2024           | 2023           |
| Guarantees and letters of credit                                | 373.0          | 397.8          | 373.2          | 398.0          |
| Approved unused facilities and other liabilities                | 1,625.0        | 1,393.9        | 1,707.8        | 1,469.3        |
| Contingent liabilities and commitments for leasing transactions | 16.5           | 15.7           | -              | -              |
|   | <b>2,014.5</b> | <b>1,807.4</b> | <b>2,081.0</b> | <b>1,867.3</b> |

|                               | Mild stress   | 60%    | 4.5%  | 4.4%  | 4.1%  | 4.2%  | 4.2%  | 4.1%           |
|                               | Severe stress | 20%    | 4.5%  | 4.0%  | 0.0%  | 3.3%  | 3.5%  | 4.1%           |

For the calculation of expected credit losses under the aggregate method, the Group / Bank uses an internal model in accordance with IFRS 9 using PL (probability of default), LGL (loss given default) and EAD (risk exposure) parameters for impairment. Risk parameters also depend on macroeconomic scenarios. The expected loss (EL) is calculated separately for each scenario and the final estimate of the expected loss (EL) is a weighted average of the expected loss in case of different scenarios.

When formulating the scenario, GDP and 7 other macroeconomic variables are used, such as exports, consumption, investments, employment, changes in the average salary, real estate prices. 5 scenarios are formed (1-3 – not stressful; 4-5 – stressful) where the first three are based on the model; the other two are technical scenarios resulting from the forecast made by the OTP Research Centre. Each variable is projected for the next 3 to 5 years, which is not long enough to project the expected credit loss (EL) of long-term loans, so a long-term rate was created for this purpose.

#### Collateral and other forms of credit risk insurance

The Group / Bank in its internal policies defines conditions under which certain collaterals, which serve to reduce credit risk, are acceptable, and methods of their initial and subsequent regular valuation.

The basic types of acceptable collaterals that are accepted with value are:

- for corporate lending: cash, state guarantees, bank guarantees, real estate, movable property, transfers of state claims, insurance policies.
- for lending to private persons: cash, real estate, insurance policies.

The Group / Bank also accepts corporate guarantees and interests in corporations that are accepted with value only under certain conditions and letters of comfort from parent companies for loans granted to subsidiaries, shares in companies and operational security instruments such as debentures and bills of exchange, which are not accepted with value.

As of 31 December 2024, the total value of collateral held by the Group as collateral for loans and advances and contingent liabilities and commitments amounts to EUR 7,748.0 million (2023: EUR 6,743.8 million).

Total allocated value of collaterals as of 31 December 2024 amounts to EUR 4,205.1 million (2023: EUR 3,758.0 million).

As of 31 December 2024, the total value of collateral held by the Bank as collateral for loans and advances and contingent liabilities and commitments amounts to EUR 7,154.4 million (2023: EUR 6,255.5 million).

Total allocated value of collaterals as of 31 December 2024 amounts to EUR 3,611.5 million (2023: EUR 3,269.7 million).

The tables below present maximum exposure to credit risk by category of financial assets, total market value of collateral allocated, the remaining collateral available (to the extent to which the total market value of the collateral is greater than the exposure to which it refers) and the maximum exposure after deducting the allocated collateral value.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

### 33. CREDIT RISK (CONTINUED)

Allocated value of collaterals for balance sheet and off-balance sheet asset items is presented as the market value net of previous liabilities without applying haircut, in such a way that it is spread up to the maximum amount of exposure of an individual placement. If the value of the collateral at the level of placement is greater than the total exposure of the placement, the excess, that is, the value of the collateral above the gross exposure is summarized (all types of collateral) in a separate column - Available collateral value (above gross exposure). If a single placement is covered by multiple types of collateral with a value, and one type of collateral is sufficient to cover the entire gross exposure of the placement, the allocated value of that single collateral is shown, and the value of other collateral in that placement is shown in the item above the gross exposure amount. The allocation priority by type of collateral is determined as follows:

- Deposits
- Real estate
- Guarantees
- Other

#### Deposits

A deposit (term deposit or blocked amount in the Bank's transaction account) as a collateral is a special type of pledged assets from which the Group / Bank is entitled to settle their claims in the event of the debtor defaulting, whereby the Group / Bank shall collect their debt directly, without the enforcement procedure. If the deposit does not meet all the necessary conditions, the financial pledge can be seized through court proceedings or in other (out-of-court) procedures, which are not deemed as direct collection. When the liability ceases to exist, the control over the deposit shall be restored to the debtor or the collateral issuer.

#### Real estate

Real estate taken as collateral by the Group / Bank may be residential or non-residential. Residential real estate: real estate (share in property) for residential purposes entered or to be entered in the real estate register as residential houses or apartments, together with associated land, provided that the relevant building permit is issued or, in case of simple structures, only an official certificate of construction, which is or will be occupied or rented by the owner. All other real estate belongs to the category of non-residential real estate. Real estate can only be pledged by mortgaging. The mortgage can be entered in the land registers for the real estate as a whole or in case of real estate in regulated co-ownership parts for the entire portion belonging to a co-owner.

When granting standard housing loans, particular emphasis is placed on limiting production based on the LTV (Loan to value) indicator, which represents the ratio between the exposure and the market value of the mortgaged real estate. Eligible LTVs can be up to 100%, where a maximum of 45% of total placements can be with an LTV ratio of over 80%, only for the best locations in Croatia that are determined based on the economic strength statistics, tourism potential and real estate sales in individual cities and municipalities. In addition, production is limited to 5% of loans with an LTV of more than 90% and 2% of loans with an LTV of more than 95%.

Furthermore, it is also important to note that the value of real estate in the pledged portfolio is regularly monitored and updated in the collateral system on basis of statistics data for all types of real estate where application is possible such as apartments, family houses, apartments, offices, shops, etc. OTP real estate experts checks the value for other types of real estate where the application of statistical data is not possible. When applying statistics, the value correction can only be performed to lower, never to higher.

Loans with a foreign currency clause can only be approved for loans with LTV rates of up to 90%, except for clients with a currency of receipt equivalent to the loan currency.

Furthermore, since they are non-purpose, mortgage loans have additional restrictions on the amount, term and LTV indicator of maximum up to 62.5% (exceptionally up to 80%, but only for the premium segment of clients) on the best locations (Prime 1 and 2), and a maximum of 43.5% (exceptionally up to 62.5% as 'override') on Non prime locations and a maximum of 40% (without exceptions) on Sub prime locations.

#### Guarantees

The Group/Bank accepts the following guarantees to secure its claims, each of which may be absolute (unconditional) or contingent (conditional):

- ✓ Bank guarantee/confirmed letter of credit
- ✓ Company guarantee
- ✓ Personal guarantee (guarantors)/joint guarantee (co-debt).
- ✓ Special forms of guarantee
  - Guarantee by the Croatian Agency for SMEs, Innovations and Investments (HAMAG)
  - Guarantee by the Government of the Republic of Croatia and the Croatian National Bank

## Notes to the financial statements (continued)

For the year ended 31 December 2024

(All amounts are expressed in millions of EUR)

### 33. CREDIT RISK (CONTINUED)

#### Guarantees (continued)

- Guarantee by OECD member states, their central banks
- Guarantee of local self-government units of the Republic of Croatia
- Guarantee by HBOR (including insurance policy) and international development banks.

The guarantee must, as a rule, be unconditional and irrevocable (written guarantee statement/guarantee agreement, with "on first demand" and "no objection" clauses, without additional conditions). An exception is the HAMAG guarantee, where conditional guarantees, up to the amount of the guarantee, also have collateral value.

#### Object of financial leasing

The object financed by financial leasing is also considered as collateral, which arises from the fact that the Group (leasing company) is the owner of the leasing object during the entire contractual relationship. This fact arises from the definition of leasing prescribed by IFRS 16 "Leases", and from the definition of "Leasing activities" prescribed by the Leasing Act (Article 4, paragraph 2) according to which the leasing business is a legal transaction in which, based on a purchase agreement with the vendor, the lessor acquires the right to ownership of the leased asset and assigns a right to the lessee to temporarily use the leased asset, for a specified fee.

#### Other

The Group / Bank also accepts the following types of collateral for its claims:

- ✓ machines
- ✓ equipment
- ✓ personal and commercial vehicles
- ✓ stocks
- ✓ airplanes
- ✓ naval vessels, floating and stationary coastal structures, yachts and boats, inland navigation vessels
- ✓ other movable property (patents, trademarks, and similar)
- ✓ securities
- ✓ cessions

With these types of collateral, particular attention is paid to checking whether the pledger owns the lien or not. With the exception of floating objects and civil aircraft whose ownership is recorded in official registers, the lienor must in any case provide credible proof of the origin of the lien (original invoice, customs documents, supporting documents, comparison of the markings on these documents with the marking on the property, etc.).

#### Concentration of assets and liabilities relating to a group of related parties - Republic of Croatia

### 34. MARKET RISK

#### MARKET RISK IN TRADING BOOK

Market risk is the effect of external influences on the value of positions in the Group's / Bank's portfolio due to changes in prices or fluctuations in the financial markets. Market risk, by that definition, consists of:

- Currency risk
- Interest rate risk and
- Price risk

The basic objective of market risk management in the Trading Book is to make profit by taking advantage of fluctuations in exchange rates and interest rates, which means limiting losses that may result from their adverse fluctuations so as not to endanger the profitability and operation of the Bank.

The market risks in the Trading Book to which the Bank is exposed are managed by an organizational unit named Treasury Department which has the status of an active Treasury and thus can leave open positions in the Trading Book, which are the result of the banking activity itself, and further engage in speculative trading in order to realize a positive financial result.

The products included in the Trading Book are as follows:

- FX spot
- FX forward
- FX swap
- Money market transactions (loans and deposits)
- Bonds (Republic of Croatia)
- Interest rate swaps (IRS)
- Repo orders

The Market Risk Department is responsible for daily monitoring and reporting of market risk exposures in the Trading Book, control of all positions for which there is market risk exposure and compliance with the limits adopted by the Management Board, at the proposal of the Assets and Liabilities Committee of OTP Bank Nyrt. The limits are revised and approved on an annual basis, the amount of which is determined by the Bank's business policy and market conditions, as well as by the policy of the OTP Bank Nyrt as a whole.

The Asset and Liability Management Department is responsible for managing the Bank's remaining foreign exchange position, which is the difference between the Bank's total foreign exchange position and the open foreign exchange positions of the Treasury Department. Due to the fact that, in accordance with the internal rules, the Asset and Liability Management Department has no limit for foreign currency risk exposure, the subject position is closed daily.

#### Value at Risk (VaR)

VaR is an estimate of the maximum amount that a portfolio, with a defined level of confidence and for a defined period, can lose from its value.

VaR is calculated for a holding period of one day and with a confidence level of 99%, using a historical simulation method based on a 252-day observation period.

Defining the VaR limit provides a risk measurement tool designed to limit potential losses of the Bank and in case of turbulent market conditions in a way that encourages closing of positions amid increased market uncertainty.

From 2020 due to the change in the structure of the limit, the calculated VaR values for FI (Fixed Income) and MM (Money Market) desk are monitored separately.

Based on the Bank's business decision, due to changes in circumstances and conditions on the financial markets, open positions on the FI and MM desks in the Trading Book were not approved for 2023, while the FX desk limits were significantly reduced compared to previous business years. The same business decision was valid in 2024.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

(All amounts are expressed in millions of EUR)

### 34. MARKET RISK (CONTINUED)

#### FOREIGN EXCHANGE (FX) RISK IN TRADING BOOK

FX risk is the risk that arises from changes in the exchange rate and causes fluctuations in a particular financial instrument and is continuously monitored through an open FX position (daily and intra-daily) in each currency managed by the organizational unit of the Treasury Department. Exposure to the FX risk or open FX position is the difference between assets and liabilities expressed in foreign currency or linked to the foreign currency. Open FX position can be long or short, depending on whether the FX risk exposure is greater on asset (long position) or liabilities (short position).

The Bank's internal rules set the maximum allowed open position in individual currencies and open FX position limit on global level. Position limit is maximum allowed exposure of individual position that can be held or traded. Net open position is sum of individual open positions (difference between long and short position), while gross position is absolute sum of individual open positions.

*Fluctuations of open foreign exchange position by major currencies (in EUR million)*

Taking into account the transition to the euro as the domicile currency from 1 January 2023, the Bank has taken a more conservative position regarding the exposure of the foreign currency position in the trading book, and at the end of 2022 there is no open foreign currency position. Based on the Bank's business decision, significantly lower FX position limits were approved for the year 2023 and 2024, while the EUR open position had the largest share in the global foreign exchange position until 2023. The Asset and Liability Management Department is responsible for managing the Bank's remaining foreign exchange position, which is the difference between the Bank's total foreign exchange position and the Treasury Department's open foreign exchange position. Due to the fact that in accordance with internal rules, Asset and Liability Management Department has no limit for foreign currency risk exposure, the subject position is closed daily.

The currency structure of total assets and liabilities of the Group / Bank is shown in the tables below.

\* currency clause in the stated currency is included

\*\*As of 1 January 2023, the Republic of Croatia introduced the euro as the domicile currency, so position EUR for the year 2022 include HRK, EUR and the EUR currency clause.

The open balance foreign currency position is completely closed with FX derivative instruments that do not carry interest rate risk, therefore no sensitivity calculations are required.

## Notes to the financial statements (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

### **34. MARKET RISK (CONTINUED)**

#### **MARKET RISK MANAGEMENT - GROUP**

Since the Bank's subsidiaries that are part of the consolidation (Group) independently manage market risks, below is an overview of market risk management policies for the subsidiary. Group members are exposed to interest rate risk, currency risk and price risk.

#### **OTP LEASING D.D.**

##### **Interest rate risk**

Interest rate risk management is complemented by monitoring the sensitivity of future net interest income to changes in weighted average variable interest rates on overdue variable and finance lease receivables with variable interest rates and interest-bearing loans with variable interest rates by one percentage point. An increase in average weighted variable interest rates by one percentage point would result in a decrease in net interest income in the amount of EUR 51 thousand (2023: EUR 108 thousand).

##### **Currency risk**

At the balance sheet date, the Company was not exposed to significant currency risk.

##### **Price risk**

The Company was not significantly exposed to price risk at the balance sheet date.

#### **OTP INVEST d.o.o.**

##### **Interest rate risk**

Given that the Company has relatively small interest-bearing liabilities, the Management Board considers that the exposure to interest expenses is not significant.

##### **Currency risk**

At the balance sheet date, the Company was not exposed to significant currency risk.

##### **Price risk**

The Company was not significantly exposed to price risk at the balance sheet date.

Other subsidiaries that enter into consolidation due to their size and structure of assets and liabilities are not significantly exposed to any of the above market risks.

Notes to the financial statements (continued)

For the year ended 31 December 2024

(All amounts are expressed in millions of EUR)

**34. MARKET RISK (CONTINUED)**

**INTEREST RATE RISK IN TRADING BOOK**

Interest rate risk is the risk of changes in the fair value of a financial instrument due to changes in market interest rates. The Bank is allowed to trade / hold only those interest rate risk instruments for which there is valid approval of the Management Board, at the proposal of the Asset and Liability Management Committee of OTP Bank Nyrt, and if there are valid and sufficient limits.

Interest rate risk limits limit the Treasury's exposure to bonds, interest rate swaps (IRSs), Forward rate agreements (FRAs), repo deals and other derivative transactions containing interest rate risk.

Risk is measured by calculating the change in the net present value of the portfolio in the event of a shift in the reference interest rate curve by 1 basis point and is limited by the BPV (Basis Point Value) limits.

The tables below show the sensitivity to change in interest rate where the increase in the net present value of all future cash flows is shown as a positive number and a decrease as a negative number.

In 2020, in order to better monitor interest rate risk by type of transaction, the limit structure was changed and BPV values were monitored and calculated separately (below is the view for MM and FI desk). Considering the market conditions in which the growth of interest rates is present, at the end of 2022 the Bank minimized the interest risk in the Trading Book while in 2023 and 2024 the limits and exposures are insignificant considering that the positions are closed BtB with Parent Company.

*Overview of sensitivity to changes in interest rates of 1 basis point per currency (in EUR thousand)*

### 34. MARKET RISK (CONTINUED)

#### INTEREST RATE RISK IN BANKING BOOK

##### Interest rate sensitivity of assets and liabilities

Interest rate risk represents the exposure of Group / Bank to unexpected or unfavourable fluctuations of market interest rates in the future. Interest rate risk has an impact both on the profit and loss account and on future cash flows and the market value of the Group's / Bank's assets, liabilities and off-balance sheet instruments.

The purpose of interest rate risk management is to protect the Group / Bank from unacceptably high interest rate risk exposure, but acceptable exposure to interest rate risk is defined by the amount of individual limits that the Group / Bank establishes through the ratio of the amount of potential loss and regulatory capital, as well as based on the ability and desire of the Group/ Bank to take interest rate risk.

The establishment of an adequate interest rate risk management process is the individual responsibility of each member of the Group, while consolidated interest rate risk management is the responsibility of OTP bank Nyrt Hungary.

OTP banka d.d., as the largest member of the Group in Croatia, separately manages the interest rate risk arising from the trading book items from the interest rate risk arising from the following transactions included in the banking book:

- commercial business (loans and deposits from clients);
- own account transactions (which include instruments of financial assets measured at fair value through other comprehensive income and a portfolio of financial assets measured at amortized cost);
- interbank transactions;
- derivative financial instruments concluded for the purpose of banking book (e.g. interest rate swaps);
- other transactions that affect the interest rate risk in the banking book.

The management of interest rate risk arising from items in the banking book is the responsibility of the Asset and Liability Management Department, which is part of the Bank's Financial Sector.

The methods used to measure interest rate risk exposure are as follows:

- Net interest income (NII)  
The evolution of net interest income is modelled over a particular time horizon (1 year in case of ICAAP) considering at least the interest rate shock scenarios predefined by EBA (described in later paragraphs), assuming a going-concern perspective and constant balance sheet. The effects of both automatic and behavioural options are taken into account.  
In calculation of the total impact on NII up to 1 year, the positive effects are weighted by 50%. The Bank also considers changes in the market value of instruments, depending on the accounting treatment, shown in the income statement or directly in equity (e.g. through other comprehensive income).
- Economic value of equity (EVE)  
The present value of equity, and the change in the present value of equity between the base scenario and the interest rate shock scenarios are determined on the basis of transaction level cash flows discounted by the risk-free yield curve for each currency. Cash flows of on- and off- interest bearing assets (with the exclusion of non-performing loans) and liabilities are projected without commercial margin. Contractual repricing characteristics are modified according to the behavioural assumptions, taking into account the restriction on the average duration of retail, corporate and municipal non-maturing deposits being a maximum of 5 years.  
When calculating the total impact on EVE, the positive effects are weighted by 50%. For each currency, the lower limit of the post-shock interest rate is applied, depending on the maturity, starting from -150 basis points for current maturities. This lower limit increases by 3 basis points per year and eventually reaches 0% for maturities of 50 years and over.

The Group / Bank is required to apply six interest rate shock scenarios to cover parallel and non-parallel gap risks to the economic value of equity (EVE):

1. Parallel up
2. Parallel down
3. Steepener (short rates down and long rates up)
4. Flattener (short rates up and long rates down)
5. Short rates up
6. Short rates down

## Notes to the financial statements (continued)

### 34. MARKET RISK (CONTINUED)

#### INTEREST RATE RISK IN BANKING BOOK (CONTINUED)

##### Interest rate risk management regulatory requirements

In accordance with the Decision on Supervisory Reports of Credit Institutions, the Assets and Liabilities Management Department prepares the following reports on a quarterly basis:

- Change in the economic value of the credit institution's capital - contracted cash flows - fixed interest rates (EVK UNT FKS),
- Change in the economic value of the credit institution's capital - contracted cash flows - variable interest rates (EVK UNT PKS),
- Change in the economic value of the credit institution's capital - baseline scenario - fixed interest rates (EVK OS FKS),
- Change in the economic value of the credit institution's capital - baseline scenario - variable interest rates (EVK OS PKS),
- Change in the economic value of the credit institution's capital - net discounted positions by scenarios (EVK NDPS),
- Aggregate change in the economic value of the credit institution's capital (EVK ZBR) i
- Impact of interest rate risk in the book of non-traded positions on net interest income (NIR).

These reports are prepared separately for each significant currency, on an individual and consolidated basis. The Bank calculates the aggregate change in EVE for each interest rate shock scenario where the amount in a currency that gives a positive change in EVE is weighted at a weight of 50%.

In accordance with the Decision on Supervisory Reports of Credit Institutions, the Bank shall immediately inform the Croatian National Bank:

- If the drop in EVE per regulatory shock (+/- 200 bb) is greater than 20% of regulatory capital,
- If the EVE decline is greater than 15% of share capital under any of the six additional interest rate shock scenarios.

From September 2024, reports on interest rate risk became an integral part of the common reporting framework for credit institutions in the EU, which enabled the abolition of national specific reports. The Bank was required to submit the latest reports to the CNB in accordance with the Decision on Supervisory Reports of Credit Institutions with the balance as of December 31, 2024.

An overview of the Group's sensitivity to interest rate fluctuations measured in accordance with regulatory reporting requirements in line with the Decision on Supervisory Reports of Credit Institutions at 31/12/2024 is indicated in the table below\*:

| Scenarios   | EVE        |            |
|---|------------|------------|
|   | 31/12/2024 | 31/12/2023 |
| Regulatory +200 bp  | (58.9)     | (70.1)     |
| Regulatory -200 bp  | 40.1       | 42.3       |
| Parallel shock growth   | (58.9)     | (70.1)     |
| Parallel shock falls  | 40.1       | 42.3       |
| Steeper   | 7.9        | 7.8        |
| Flattener   | (23.6)     | (21.7)     |
| Shock of short-term interest rate growth  | (49.8)     | (47.2)     |
| Shock of falling short-term interest rates                                      | 24.9       | 27.7       |
| Regulatory capital  | 1,103.4    | 999.1      |
| <b>(CHANGE IN ECONOMIC VALUE - regulatory shock / REGULATORY CAPITAL) * 100</b> | 5.34%      | 7.02%      |
| Share capital   | 996.5      | 939.1      |
| <b>(CHANGE IN ECONOMIC VALUE - 6 additional shocks / SHARE CAPITAL) * 100</b>   | 5.91%      | 7.47%      |

| Parallel shock falls  | 35.0         | 41.5         |
| Steeper   | 5.8          | 5.7          |
| Flattener   | (28.5)       | (25.0)       |
| Shock of short-term interest rate growth  | (53.2)       | (51.0)       |
| Shock of falling short-term interest rates                                      | 21.7         | 25.8         |
| Regulatory capital  | 1,089.0      | 978.0        |
| <b>(CHANGE IN ECONOMIC VALUE - regulatory shock / REGULATORY CAPITAL) * 100</b> | <b>5.43%</b> | <b>7.72%</b> |
| Share capital   | 982.1        | 918.0        |
| <b>(CHANGE IN ECONOMIC VALUE - 6 additional shocks / SHARE CAPITAL) * 100</b>   | <b>6.02%</b> | <b>8.23%</b> |

\*data for 2024 are unaudited

From September 2024, the Bank reports on interest rate risks in the banking book in the format and within the deadlines prescribed in Commission Implementing Regulation (EU) 2021/451 of 17 December 2020, on an individual and consolidated basis, with the following dynamics:

Quarterly:

- J 01.00 – EVALUATION OF THE IRRBB: EVE/NII SOT AND MV CHANGES,
- J 02.00 – BREAKDOWN OF SENSITIVITY ESTIMATES,
- J 05.00 – REPRICING CASH FLOWS,
- J 08.00 – RELEVANT PARAMETERS.

Yearly:

- J 10.01 – GENERAL QUALITATIVE INFORMATION,
- J 10.02 – QUALITATIVE INFORMATION "CURRENCY BY CURRENCY".

As of September 2024, the following regulatory limits on interest rate risk exposure in the banking book are in effect:

- The decline in EVE under any of the six interest rate shock scenarios must not exceed 15% of Tier1 capital;
- The potential decline in net interest income for up to one year under any of the 2 supervisory interest rate shock scenarios (Parallel shock up and Parallel shock down) must not exceed 5% of Tier1 capital, on an individual and consolidated basis.

An overview of the Bank's and the Group's sensitivity to changes in interest rates measured in accordance with regulatory reporting requirements in accordance with Commission Implementing Regulation (EU) 2021/451 of 17 December 2020 as of the reporting date of 31 December 2024 is presented in the following tables:

### 35. LIQUIDITY RISK

#### Liquidity risk management

Cash flow management policy aimed at maintaining a balance between cash receipts and expenses is part of the Group's / Bank's wider asset and liability management policy. To ensure a satisfactory level of liquidity reserves, the Group / Bank consistently implements the cash flow monitoring and planning process and anticipates future liquidity needs taking into account changes in the Group's / Bank's economic, legislative and other circumstances. This planning involves identifying known, expected and potential cash outflows and developing strategies to meet the Group's / Bank's liquidity requirements in certain currencies. It is important to emphasize that the Group / Bank, when managing its liquidity risk, seeks to ensure the currency matching of the liquid assets' portfolio with the currency distribution of its net liquidity outflows.

Given the specificity of each individual member within the Group, there are no consolidated liquidity indicators, but they are monitored individually in accordance with regulatory regulations and internal policies.

OTP banka d.d. as the only credit institution within the Group in Croatia, has the most regulated liquidity framework, which is reviewed below.

Liquidity risk management of OTP banka d.d., as potentially the largest generator of liquidity risk within the Group in Croatia, is the responsibility of the Asset and Liability Management Department in the Finance Sector.

The Asset and Liability Committee (ALCO) determines the Bank's liquidity risk tolerance, regularly reviews and approves the liquidity risk management strategy and ensures the effective management of liquidity risk by the Asset and Liability Department. The Asset and Liability Department also proposes a liquidity risk management strategy and establishes a framework for managing these risks to ensure that the Bank has sufficient liquidity and regularly reports to ALCO. In addition, the Asset and Liability Department manages liquidity and minimal reserve requirements on a daily basis, maintains liquidity reserves in order to meet prescribed requirements and internal limits, and, in addition, implements the ALCO-approved liquidity risk strategy and ensures that appropriate controls, procedures and information flows are in place. In addition to short-term liquidity, the Asset and Liability Department is also responsible for managing medium and long-term liquidity, and adopts operational decisions based on information provided to them by various Bank departments related to operations that affect liquidity.

In order to ensure liquidity stress resilience, the Group / Bank maintains an adequate reserve of high-quality assets that can be sold or pledged to obtain funds under stress conditions.

Highly liquid financial assets include:

- liquid assets on accounts with the Croatian National Bank;
- liquid assets placed with banks;
- liquid assets placed in securities, treasury bills and bonds.

In addition to the aforementioned, the short-term and long-term financing lines offered by the Parent Company, which, together with customer deposits, represent the Group's / Bank's key sources of financing.

#### 31/12/2023

|  | <b>Total</b> | <b>Up to 1 year</b> | <b>1 to 3 years</b> | <b>3 to 5 years</b> | <b>Over 5 years</b> |
|--|--------------|---------------------|---------------------|---------------------|---------------------|
| Bonds of the Republic of Croatia               | 461.9        | 39.0                | 140.2               | 95.9                | 186.8               |
| Foreign government bonds                       | 55.4         | 47.1                | -                   | -                   | 8.3                 |
| Treasury bills of the National Bank of Hungary | 299.8        | 299.8               | -                   | -                   | -                   |
| <b>Liquid assets placed in securities</b>      | <b>817.1</b> | <b>385.9</b>        | <b>140.2</b>        | <b>95.9</b>         | <b>195.1</b>        |

Bank assets are considered encumbered if they are pledged or subject to any form of contract to secure, hedge or enhance the lending of any balance sheet or off-balance sheet transactions from which they cannot be freely withdrawn (for example, to pledge for funding sources). Pledged assets subject to withdrawal restrictions, such as assets requiring prior approval prior to withdrawal or replacement with other assets, are considered encumbered. As at 31 December 2024 and 31 December 2023, the Bank had no impaired asset burden. Existing sources of financing were sufficient to cover the Bank's liquidity needs.

#### Liquidity risk measures

In order to comply with the legal and internal regulations and decisions, establish the principle of safety and stability and achieve the planned profitability of operations, the Bank applies a system of measuring and limiting liquidity risk and reporting of the subject risk. In accordance with the market practices, exposure to liquidity risk is determined through:

- regulatory limits
- internal limits

OTP banka d.d. is the only member of the Group that has the obligation to maintain the following regulatory liquidity indicators:

- minimum reserve
- liquidity coverage ratio
- requirement related to stable sources of funding

#### Minimum reserve

Minimum reserves are calculated on the liabilities of credit institutions towards the non-banking sector, i.e. the population, companies and the state. A reserve rate of 1% is set for liabilities with a maturity of up to two years, while a reserve rate of 0% applies to liabilities with a longer maturity and repo contracts.

The holdings of minimum reserves are remunerated at 0%.

### 35. LIQUIDITY RISK (CONTINUED)

#### Liquidity coverage ratio

In accordance with the Regulation 575/2013 of the European Parliament and the Delegated Commission Regulation (EU) No. 2015/61, the Bank is required to maintain the prescribed ratio of liquid assets and net liquid outflows (LCR) to a minimum of 100% since January 2018.

The liquidity coverage ratio (LCR) request as at 31 December 2024 and 31 December 2023 for the Bank is indicated in the table below:

|   | 31/12/2024     |                 | 31/12/2023     |                 |

| Internal optimum                            |                | <b>120%</b>     |                | 120%            |

When managing a liquidity buffer in terms of a Liquidity Coverage Ratio requirement (LCR), and in order to ensure the security, liquidity and adequate diversification of its own investments, the Bank is guided by the requirements set out in Delegated Commission Regulation (EU) No. 2015/61 as well as by the provisions of the Bank's Liquidity Risk Management Procedure regarding the investment portfolio management. Accordingly, the management of the liquid assets portfolio recognized in the liquidity buffer includes:

- minimizing credit risk or loss risk due to default of the security issuer (or guarantor) by (i) pre-determining and constantly monitoring the issuers whose securities have already been purchased or can be purchased and (ii) diversifying the portfolio and limiting the investment by issuer so that the potential losses of individual securities are minimized,
- minimizing the risk of the market value of the securities in the portfolio decreasing due to changes in general interest rates, taking into account (i) that the portfolio is structured so that the securities mature in order to meet the cash requirements for current operations, avoiding the need to sell securities on the open market before maturity with a high transaction cost and (ii) investing operating assets primarily in short-term securities (limiting the maximum maturity or duration of the portfolio),
- not opening currency risks related to the portfolio of liquid foreign currency assets,
- achieving a competitive rate of return, given the constraints on credit, interest rate and currency risk mitigation and liquidity goals,

## Notes to the financial statements (continued)

For the year ended 31 December 2024

(All amounts are expressed in millions of EUR)

### 35. LIQUIDITY RISK (CONTINUED)

- portfolio diversification to reduce the risk of loss resulting from the concentration of assets in a particular type, currency, country or economic sector,
- assessing the marketability of the portfolio primarily through the possibility of collateralizing with the European Central Bank and then by examining the market situation of professional services at the Bank.

#### Requirement for stable sources of funding

Regulation (EU) 2019/876 of 20 May 2019 amending Regulation (EU) no. 575/2013 regarding the leverage ratio, the ratio of net stable sources of financing, regulatory capital requirements and eligible liabilities, counterparty credit risk, market risk, exposure to central counterparties, exposure to collective investment undertakings, large exposures, requirements for reporting and disclosure, prescribes the bank's obligation to report on stable sources of financing (NSFR) whose minimum level is 100%.

Changes in net stable funding ratio requirements (NSFR) as at 31 December 2024 (unaudited) and 31 December 2023 (audited) for the Bank is indicated in the table below:

|   | 31/12/2024     | 31/12/2023     |
|---|----------------|----------------|
| <b>Items providing stable funding sources</b>         | <b>6,800.4</b> | <b>6,433.9</b> |
| <b>Items requiring stable funding sources</b>         | <b>4,734.0</b> | <b>4,233.0</b> |
| <b>Net stable funding ratio requirements (%)_NSFR</b> | <b>144%</b>    | <b>152%</b>    |
| Regulatory limit                                      | 100%           | 100%           |
| Internal minimum                                      | 110%           | 110%           |
| Internal optimum                                      | 120%           | 120%           |

*\*data for 2024 are unaudited*

In addition to the regulatory liquidity ratios indicated above, the Bank also uses a number of other internal indicators to help monitor short-term and long-term liquidity risk exposures based on the balance sheet structure (such as the net loan-to-deposit ratio, the share of liquid assets in total assets, the concentration of deposits received from an individual client and twenty largest depositors, and projected funding needs).

The aforementioned internal liquidity indicators are monitored and reported through Assets liability committee (ALCO) on monthly basis.

#### Stress testing

In order to meet the expected and unexpected cash needs, the liquidity management strategy includes planning for contingencies (local and global crises). Namely, the planned activities are continuously adjusted to the market situation, taking into account the structure of assets and liabilities and the maximum level of liquidity reserves.

The Bank prescribes and carries out stress tests of its liquidity, taking into account the factors specific for the Bank (crisis of the institution) as well as market factors (market crisis). Tests are conducted for shorter and longer periods of stressful circumstances with varying intensity of stressful circumstances: from normal (predictable or normal) circumstances to unusual (extreme) circumstances.

On a monthly basis, the Bank performs liquidity stress testing to determine and quantify its exposure to potential liquidity stress, analyzing potential effects on its liquidity position.

Stress tests consist of applying assumptions of development inside and outside the budget to inflows and outflows of client funds (with particular attention being paid to the concentration of deposits) and determining the net outflows of client funds under stress, which are compared to the liquid assets that can be obtained using the liquidity reserve and alternative sources of financing.

### **36. OPERATIONAL RISK**

Operational risk is the risk of loss resulting from inadequately defined or improperly executed business process, human error, inappropriate system operation or as a result of external factors, including legal risk.

The Group / Bank's activities in the area of managing operational risk are in line with the applicable regulations and good operational risk management practice, and are regularly revised to reflect any changes therein. Framework for managing operational risk at the Group / Bank is provided by the Operational Risk Management Rules, the Operational Risk Collection Procedure as well as the Procedure for Managing Key Risk Indicators, Procedure for conducting risk self-assessment and control mechanisms, Procedure for listing model risks, Procedure for conducting scenario analysis.

The Group / Bank defined the business continuity management strategy: Business Continuity Plan, as well as the Crisis Communication Handbook, that define the system supporting the continuity of operations in cases where they become temporarily discontinued as a result of an exceptional event.

Operational risks are managed in a decentralised manner so that the responsibility for managing operational risks rests with the managers and staff in charge of those organisational units in which operational risks are inherent to the activities performed by those units. They best understand, control and monitor the processes taking place in their organisational units and their duty is to ensure that the processes they manage follow appropriate procedures and are safe from the aspect of incurrance of operational risks. Operational risk management activities that are a joint responsibility of all the Bank's organisational units include the following: identification, measurement, assessment and analysis, as well as monitoring operational risks.

Department for Operational Risks operates as an independent unit within the Risk Management Division, Risk Control Directorate. Department for Operational Risks is responsible for: control and suggesting the set-up of the operational risk management environment and the rules governing this area, for collecting data about losses caused by operational risks, conducting analysis, documenting and preparing reports on operational risk events and providing assistance and support to all organizational units of the Bank and related companies in understanding the structured approach to managing operational risks. In order to obtain a full view of the Bank's exposure to the risk, an Operational Risk Management Committee has been established.

In line with the decentralised operational risk management methodology, process owners are responsible for consistent identification and assessment of operational risks, followed by the establishment and implementation of measures for managing risks identified in the respective areas and processes for which they are responsible.

The Bank defined the Business Continuity Plan, as well as the Working Instructions for Convening the Crisis Staff, which establishes the system based on which business will be maintained even in cases where it is temporarily interrupted by an extraordinary event, and the acts in question cover the Bank's actions in the event of business interruptions and are also applicable to affiliated companies. Representatives of related companies are permanent members of the crisis headquarters and participate in the work of the crisis headquarters.

The Bank applies a simple approach to the calculation of the regulatory capital requirement for operational risk on a consolidated and individual basis.

### 38. FUNDS MANAGED ON BEHALF OF THIRD PARTIES

The Group / Bank manages funds on behalf of third parties, which consist mainly of custody services and loans provided by one legal person to another through the Group / Bank as agent. These assets are accounted for separately from those of the Group / Bank, and the Group / Bank has no liability in connection with these transactions. The Group / Bank charges a fee for these services.

At 31 December 2024, funds managed by the Group / Bank on behalf of third parties amounted to EUR 24.8 million (2023: EUR 24.5 million). As at 31 December 2024, the total portfolio of securities of domestic and foreign clients the Group / Bank has under custody, including domestic pension and investment funds, amounted to EUR 13,141.63 million (2023: EUR 11,810.31 million), of which EUR 712.5 million refers to the Group's/Bank's subsidiaries (2023: EUR 701.2 million).

### 39. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

The fair value of financial instruments is the amount for which an asset could be exchanged or a liability settled, between knowledgeable willing parties in an arm's-length transaction. Where available, fair value is based on quoted market prices. However, market prices for a significant portion of financial instruments of the Bank are not readily available. In circumstances where quoted market prices are not readily available, fair value is estimated using alternative techniques or financial assets are measured at cost, amortised cost or indexed cost.

#### **Valuation techniques and assumptions for the purposes of measuring fair value**

The fair values of financial assets and financial liabilities are determined as follows:

- fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined by reference to quoted market prices (includes listed redeemable notes, bills of exchange, debentures and perpetual notes);
- fair values of other financial assets and financial liabilities (excluding derivative financial instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments;
- fair values of derivative financial instruments are calculated using quoted prices; where such prices are not available, a discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivative financial instruments;
- interest rate swaps are measured at the present value of future cash flows estimated and discounted based on the applicable yield curves derived from quoted interest rates.

Financial instruments that are measured subsequent to initial recognition at fair value are grouped into three levels based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from the prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

| <b>Balance at 31 December 2023</b>                              | <b>14.5</b> |
| <b>Balance at 1 January 2024</b>                                | <b>14.5</b> |
| Total gains and losses recognized in other comprehensive income | 5.4         |
| Total gains and losses recognized in profit and loss            | (1.0)       |
| <b>Balance at 31 December 2024</b>                              | <b>18.9</b> |

##### Financial instruments not measured at fair value

In arriving at the fair value of these financial instruments certain assumptions, estimates and methods were used. Because of the relatively short period to maturity, the fair values of Loans and receivables from banks and Amounts due to other banks are considered not to differ significantly from their carrying amounts. For investments measured at amortized cost, corporate bonds with longer maturities are valued at quoted prices on the market or the price is derived by discounting cash flows, while for corporate bills of exchange, due to shorter maturities, it is assumed that the fair value does not differ significantly from their carrying amount. The fair values of Loans and receivables from customers and Amounts due to customers were estimated using the expected future cash flows using as the discount rate the current average market rate for identical loans and deposits. Partly recoverable and fully irrecoverable loans and receivables were not considered in measuring the fair value because their recoverable amount is assumed to reflect their fair price. Because of the specific features of the credit lines provided by HBOR and their restricted transferability as well as the standardised terms and conditions HBOR applies to all commercial banks, the carrying amount of the credit lines is assumed to reflect their fair values.

### **40. SUBSEQUENT EVENTS**

#### **SALE OF SHARES IN OTP INVEST D.O.O.**

In August 2024, the Bank signed the Agreement on the sale of entire business shares in OTP Invest d.o.o. . The sale was realized with immaterial loss after obtaining the approval from HANFA on January 31, 2025.

#### **ACQUISITION OF THE COMPANY ZAGREBTOWER D.O.O. BY THE COMPANY OTP NEKRETNINE D.O.O.**

In March 2024, OTP Nekretnine d.o.o. concluded an agreement for the purchase and sale of business shares in Zagrebtower d.o.o. After obtaining approval from the regulator CNB, the purchase and sale transaction was realized on August 28, 2024, by which OTP Nekretnine d.o.o. acquired a 100% share in Zagrebtower d.o.o. On January 31, 2025 assembly of OTP Nekretnina d.o.o. and Zagrebtower d.o.o. made a decision to merge Zagrebtower d.o.o. to the company OTP Nekretnine d.o.o. and confirmed the Merger Agreement.

The merger was carried out by the decision of the Commercial Court in Zagreb on February 28, 2025.

## Appendix - Supplementary financial statements and reports for the Croatian National Bank

## Appendix - Supplementary financial statements and reports for the Croatian National Bank (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

Presentation of the reconciliation of items presented in the Consolidated statement of profit or loss and Consolidated statement of other comprehensive income presented as part of the Annual Report and items presented in accordance with the CNB Decision.

Penalty interest income is presented as part of Interest income position in accordance with the Decision while in the Annual Report they are presented as part of Other operating income.

In accordance with the Decision, interest income from financial assets held for trading are presented in Interest income position, while in the Annual Report they are shown in Net (losses)/gains from valuation of financial assets measured through profit or loss.

In accordance with the Decision, penalty interest expenses are presented in the position Interest expenses, while in the Annual Report these expenses are presented in the item Other operating expenses.

In accordance with the Decision, interest expenses from financial liabilities held for trading and derivatives used as a hedging instrument are presented in Interest expense, while in the Annual Report they are presented in the item Net (losses)/gains from valuation of financial assets measured through profit or loss with the exception of interest expenses from derivatives used as a hedging instrument, which are shown in the Annual Report under the position "Interest income" together with interest income on this basis.

In accordance with the Decision, the dividend income included dividend income from equity instruments and investments in related companies, which is in the Annual Report presented in the position of other Operating income.

Gains / (losses) from hedge accounting are presented as separate position in accordance with the Decision, while in the Annual Report they are presented under the position Net (losses) / gains from valuation of financial assets measured through profit or loss.

Other operating income position according to the Annual Report includes income from collection of written-off receivables, penalty interest income, income from dividend of equity instruments, and includes costs of sold real estate, which according to the Decision are not included in this position.

In accordance with the Decision part of the Other expenses is presented as part of the Other operating expenses while in the Annual Report all other expenses and operating expenses are shown in the position of Other operating expenses, except for the costs of sold real estate, which are in the Annual Report included in Other operating income together with income from the sale of real estate and provisioning costs for other liabilities are shown under the item "Net gains/(losses) due to impairment and provisions".

In accordance with the Decision operating expenses (excluding other operating expenses) and employee expenses are presented in the Administrative expenditure position, while in the Annual Report, employee expenditure and other operating expenses are stated in separate positions.

In accordance with the Decision, the costs of cash contributions to resolution committees and deposit insurance systems are presented in a separate item, while in the Annual Report they are included in the position Other operating costs.

The position "Net gains/(losses) due to impairment and provisions" is presented as one position in the Annual Report, while in accordance with the Decision, the positions "Provisions or (-) cancellation of provisions" and "Impairment or (-) cancellation of impairment by financial assets that are not measured at fair value through profit or loss".

## Appendix - Supplementary financial statements and reports for the Croatian National Bank (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

---

Unaudited presentation of the reconciliation of items presented in the Statement of financial position presented as part of the Annual Report and items presented in accordance with the CNB Decision:

### **Assets**

In the Annual Report, the CNB's other deposits are presented in the Cash and balances with Croatian National Bank, while loans and receivables from banks are presented separately. In accordance with the Decision these positions are presented as part of Financial assets at amortized cost under the item Loans and advances.

In accordance with the Decision, the calculation assets by derivative financial instruments are presented in Other assets, and derivative financial instruments that are used as a hedging instrument according to the Decision, presented in a separate position, while in the Annual Report they are presented in the position of Financial assets held for trading.

---

Unaudited presentation of the reconciliation of items presented in the Statement of profit or loss and Statement of other comprehensive income presented as part of the Annual Report and items presented in accordance with the CNB Decision:

Penalty interest income is presented as part of Interest income position in accordance with the Decision while in the Annual Report they are presented as part of Other operating income.

In accordance with the Decision, interest income from financial assets held for trading are presented in Interest income position, while in the Annual Report they are shown in Net (losses)/gains from valuation of financial assets measured through profit or loss.

In accordance with the Decision, penalty interest expenses are presented in the position Interest expenses, while in the Annual Report these expenses are presented in the item Other operating expenses.

In accordance with the Decision, interest expenses from financial liabilities held for trading and derivatives used as a hedging instrument are presented in Interest expense, while in the Annual Report they are presented in the item Net (losses)/gains from valuation of financial assets measured through profit or loss with the exception of interest expenses from derivatives used as a hedging instrument, which are shown in the Annual Report under the position "Interest income" together with interest income on this basis.

In accordance with the Decision, the dividend income included dividend income from equity instruments and investments in related companies, which is in the Annual Report presented in the position of other Operating income.

Gains / (losses) from hedge accounting are presented as separate position in accordance with the Decision, while in the Annual Report they are presented under the position Net (losses) / gains from valuation of financial assets measured through profit or loss.

Other operating income position according to the Annual Report includes income from collection of written-off receivables, penalty interest income, income from dividend of equity instruments, and includes costs of sold real estate, which according to the Decision are not included in this position.

In accordance with the Decision part of the Other expenses is presented as part of the Other operating expenses while in the Annual Report all other expenses and operating expenses are shown in the position of Other operating expenses, except for the costs of sold real estate, which are in the Annual Report included in Other operating income together with income from the sale of real estate and provisioning costs for other liabilities are shown under the item "Net gains/(losses) due to impairment and provisions".

In accordance with the Decision operating expenses (excluding other operating expenses) and employee expenses are presented in the Administrative expenditure position, while in the Annual Report, employee expenditure and other operating expenses are stated in separate positions.

In accordance with the Decision, the costs of cash contributions to resolution committees and deposit insurance systems are presented in a separate item, while in the Annual Report they are included in the position Other operating costs.

The position "Net gains/(losses) due to impairment and provisions" is presented as one position in the Annual Report, while in accordance with the Decision, the positions "Provisions or (-) cancellation of provisions" and "Impairment or (-) cancellation of impairment by financial assets that are not measured at fair value through profit or loss".

## Appendix - Supplementary financial statements and reports for the Croatian National Bank (continued)

For the year ended 31 December 2024

*(All amounts are expressed in millions of EUR)*

Unaudited presentation of the reconciliation of items presented in the Statement of financial position presented as part of the Annual Report and items presented in accordance with the CNB Decision:

### **Assets**

In the Annual Report, the CNB's other deposits are presented in the Cash and balances with Croatian National Bank, while loans and receivables from banks are presented separately. In accordance with the Decision these positions are presented as part of Financial assets at amortized cost under the item Loans and advances.

In accordance with the Decision, the calculation assets by derivative financial instruments are presented in Other assets, and derivative financial instruments that are used as a hedging instrument according to the Decision, presented in a separate position, while in the Annual Report they are presented in the position of Financial assets held for trading.

In accordance with the Decision, receivables for credit cards together with penalty interest for credit cards are presented as part of Financial assets at amortized cost under the item Loans and advances, while in the Annual Report they are partly presented in the position of Other assets, and partly in Loans and receivables from customers.

In accordance with the Decision, liabilities on loan payment accounts are presented as a part of Other liabilities, while in the Annual Report they are presented as a part of the Loans and receivables from customers.

In accordance with the Decision, receivables from fees and penalty interest on fees, paid advances, customer's receivables and other receivables are presented as part of Financial assets at amortized cost under the item Loans and advances, while in the Annual Report they are stated as position Other assets.

In accordance with the Decision, investment property is presented within the position of tangible assets while in the Annual Report it is presented in a separate note.

### **Liabilities**

Funds in the calculation of derivative financial instruments in the report according to the Decision are shown under the item "Financial liabilities measured at amortized cost" under the item "Other financial liabilities", and derivatives related to hedge accounting are shown in a separate position in accordance with the Decision, while in the Annual Report these items are shown under financial liabilities held for trading.

In accordance with the Decision, bearer deposits and liabilities for received payments of founding shares in escrow accounts are stated in the position of Other Liabilities, while in the Annual Report they are stated as part of the Liabilities due to customers.

Lease liabilities (IFRS 16) are presented in Annual report in separate position and fee liabilities under Other liabilities. while in accordance with the Decision they are presented in the position "Financial liabilities measured at amortized cost", under the item Other financial liabilities.

The positions "Liabilities to other banks", "Liabilities to customers" and "Other borrowed funds" are shown separately in the Annual Report, while in accordance with the Decision they are shown under the position "Financial liabilities measured at amortized cost", under the item "Deposits".

In accordance with the Decision, liabilities for the payment of previously written-off deposits are presented as part of the Provisions, while in the Annual Report they are presented within the positions of Other liabilities.

In accordance with the Decision, in the position Tax liabilities under Current tax liabilities, are presented liabilities for value added tax and other tax liabilities, while in the Annual Report they are presented under the position Other liabilities, and input tax receivables which are in the Annual Report shown in the position Other assets.

### **Equity**

In accordance with the Decision, the profit for year is presented in a separate position, while in the Annual Report it is presented as part of the Retained earnings.
